FOREWORD

ESTABLISHED to preserve forever the scenic beauty, native wildlife, and natural wonders of the wilderness, Canada's National Parks contain all the requisites of an ideal vacation. Many of Canada's National Parks are in the vicinity of an ocean or lake, enabling the vacationist to enjoy the benefits of a combination visit to the sea and the land. The visitor is assured of finding schools of salmon, trout, and trouts in every river and lake, or in the ocean itself, and of observing many of Canada's great mammals - the beaver, black bear, elk, deer, and moose. The forests are rich in wildlife, and the lakes and rivers are teeming with game. The national parks are divided into four main regions:

1. Rocky Mountains
2. British Columbia
3. Maritime Provinces
4. Ontario and Quebec

Each region contains a number of national parks, each with its own distinctive features, and all offering a wide variety of attractions. The Rocky Mountains region contains a number of national parks, each with its own distinctive features, and all offering a wide variety of attractions. The British Columbia region contains a number of national parks, each with its own distinctive features, and all offering a wide variety of attractions. The Maritime Provinces region contains a number of national parks, each with its own distinctive features, and all offering a wide variety of attractions. The Ontario and Quebec region contains a number of national parks, each with its own distinctive features, and all offering a wide variety of attractions.

In the following paragraphs will be found a complete list of the National Parks of Canada, their area, and location:

1. MOUNT REVELSTOKE, British Columbia.
   - Rolling mountain-top plateau on west slope of Rockies. High peaks, beautiful lakes. Yoho and Wapta lakes. Established 1886; area, 521 square miles.
