About the Gulf of Georgia Cannery Society

Established in 1986, the Gulf of Georgia Cannery Society is a non-profit charitable organization led by a volunteer board of directors.

Operating the Gulf of Georgia Cannery National Historic Site on behalf of Parks Canada, the Society interprets the history of West Coast fishing through interactive exhibits and educational programming. The Society also maintains a unique collection of artifacts and archival materials representing the history of the fishing industry.

Through activities such as these, the Society strives to preserve the history of the BC fishing industry and present it in an engaging and relevant way. To support these activities, the Society relies on volunteer contributions, community partnerships and investment from businesses and governments.
