I was born and raised in Norris Point, a small community in the middle of Gros Morne National Park. I’ve lived in a National Park for most of my life, and have spent my entire career working for Parks Canada. I have been very lucky to have worked in places like Banff in Alberta and the Niagara National Historic Sites in Niagara on the Lake, Ontario. After an absence of more than five years, I am pleased to have had the opportunity to come home, and to welcome you all here as Superintendent.

This is an amazing place, with stunning scenery and a history that goes back thousands of years. I’ve spent a lot of time over the years hiking, skiing and camping in many areas of the Park. I remember many great hikes to the top of Gros Morne Mountain, spending time exploring the orange rocks of the Tablelands, and walking along the coast at Green Gardens, near Trout River. Growing up in Norris Point we always had an incredible view of the Tablelands, and walking along the coast at Green Gardens, near Trout River. Growing up in Norris Point we always had an incredible view of the Tablelands, and walking along the coast at Green Gardens, near Trout River. Growing up in Norris Point we always had an incredible view of the Tablelands, and walking along the coast at Green Gardens, near Trout River.

On behalf of our passionate Parks Canada staff who you will meet along the way, I would like to welcome you to the area. We look forward to helping in any way we can as you create your own memories and adventures in this very special place.

Geoffrey Hancock,
Superintendent, Parks Canada,
Western Newfoundland and Labrador

As a previous manager of three Parks Canada National Historic Sites in western Newfoundland and Labrador; Port au Choix, L’Anse aux Meadows and Red Bay, the history of this area is close to my heart. It is therefore very satisfying to me that in 2013, Red Bay Basque Whaling Station was inscribed as Canada’s 17th UNESCO World Heritage Site, one of three UNESCO sites in this region (Gros Morne and L’Anse aux Meadows are the other two). In addition to the sites operated by Parks Canada Agency, there are many more historic sites, houses and museums managed by communities and associations throughout western Newfoundland and Labrador.

What’s New in Gros Morne?
- See the Earth Naked – Hike to the top of the Tablelands. pg. 10 - 11
- No tent, choose to rent an oTENTik, and enjoy camping hassle free. pg. 19
- Yaffle of Chores – Hands-on program at Broom Point. pg. 16
- Hike with Clem to the top of Western Brook pond! pg. 7
- Get the App for Broom Point, Tablelands or Trails!
- Check out the Red Chairs contest! pg. 25
- New exhibit at Lobster Cove Head Lighthouse, opening in August! pg. 22
- Hike the new scenic loop on Baker’s Brook Falls trail!

What’s going on? For scheduled events in Gros Morne area (park and communities), visit the event calendar at: www.visitgrosmorne.com

A World Heritage Site

The spectacular landscape of Gros Morne tells the story of the Earth’s transformation. The rocks and geologic features exposed within this place are the result of continents colliding. They have helped define the theory of plate tectonics and rank this place among our planet’s most significant natural areas.

The rocks of Gros Morne National Park and the adjacent parts of western Newfoundland provide some of the world’s best illustrations of plate tectonics. For this reason, the United Nations Education, Scientific, and Cultural organization (UNESCO) designated the park a World Heritage Site in 1987.

Geologists are able to show the rocks in Gros Morne were part of an ancient ocean. Later these were thrust up to become part of the Appalachian Mountains as two continents collided. Thus, these rocks give support for the theory of plate tectonics. More recently in geological terms, glaciers carved this place into the spectacular landscape we see today.

Gros Morne National Park qualifies as a World Heritage Site for its:
• “exceptional natural beauty”, and
• “outstanding examples representing major stages of Earth’s history”.

With your two feet you’ll be spanning over 500 million years of Earth history and I think that’s pretty incredible

Penny Morrill, Dept of Earth Science, Memorial University

Download the World Heritage podcast, “Bones of the Earth” at parkscanada.gc.ca

Layers of Time
Formed at the bottom of an ancient ocean, the layers of shale at Green Point contain fossils. These fossils help define the Cambrian and Ordovician periods. Discover more. Check the schedule of events and visit when the naturalist is on site.

Former fjords
Glaciers carved the massive cliffs of Western Brook Pond as ice bit through this 1.2 billion-year-old block of granite and gneiss. Get a close up view of this spectacular landscape on the Western Brook Pond boat tour.

Tropical Sea Floor
Around Bonne Bay, the pink quartzite mountaintops and limestone cliffs were once sandy beaches and tropical reefs that formed the shoreline of an ancient ocean. For a closer view, take a cruise on the Bonne Bay boat tour.

Volcanic Coastline
The rocks of Green Gardens erupted onto the Earth as a continent split apart and an ocean formed. Hike the Green Gardens trail and explore this volcanic coast and its sea cave.

Layers of Time
Formed at the bottom of an ancient ocean, the layers of shale at Green Point contain fossils. These fossils help define the Cambrian and Ordovician periods. Discover more. Check the schedule of events and visit when the naturalist is on site.

Ocean floor upturned
The Tablelands are a slice of ancient ocean floor. The orange-brown rock is one of the best and most accessible examples of exposed mantle material in the world. Pick up a map and explore on your own or, participate in the daily interpretive hike.

How many will you visit?
Unforgettable Gros Morne Adventures
From Small Adventures to Big Adventures and Everything-in-between!

Small Adventures!
- Find a coastal look-off, sit and lose yourself while listening to the sea.
- Visit Lobster Cove Head Lighthouse and decode the signal flags, or fly a kite in the field.
- Take a scenic drive north on route 430 and watch the sunset.
- Spend time exploring the tide pools at Lobster Cove Head.
- Spend the day on the sandy beach at Shallow Bay and picnic at the kitchen shelter.
- Look for songbirds while walking the trails in the lowland forest.
- Visit the Discovery Centre, sit relax and take in the breathtaking views of Bonne Bay.
- Walk the harbour boardwalk in Trout River.
- Get your hands wet in the touch tanks at the Bonne Bay Marine Station in Norris Point.
- Learn about cod fishing at Broom Point Fishing Exhibit.
- Stroll along the coastal trail and play hide-and-seek in the Tuckamore – a Newfoundland term for the stunted and windswept balsam fir and spruce trees that grow in alpine areas and along the coast.

Big Adventures!
- Hike the Green Gardens trail, 9 km return, to explore the volcanic coast, meadows, and sea cave or be more adventurous and complete the 15.5 km loop.
- Kayak to Stanleyville and spend the night.
- Hike to the highest point in the park – the top of Gros Morne Mountain, 16 km return.
- Climb the Lookout Trail behind the Discovery Centre for a panoramic view of Bonne Bay.
- Hike to the top of the Tablelands.
- Hike to Snug Harbour and camp on the shores of Western Brook Pond.

Everything in Between!
- Mingle with locals at community events or festivals. Check visitgrosmorne.com
- Wander onto a community wharf and chat with a local fisherman.
- Cook your own “toutons” during the Yaffle of Chores program at Broom Point Fishing Exhibit.
- Explore Gros Morne with your kids! Pick up the free Gros Morne Xplorers book and have fun doing the special activities.

Finding Beauty Photography of Ed Huberty
Handmade Objects from Around the Bay

“The Finding Beauty” is the title of this year’s art exhibit at the Discovery Centre Art Gallery, a combination of the photography of Ed Huberty and handmade objects from around the Gros Morne area. The exhibit explores how ‘daily beauty’ reveals itself in both the natural Environment of Gros Morne National Park and in the traditional activities and handmade objects that are a proud part of community life here.
Aquatic Encounters

BONNE BAY MARINE STATION

welcome to the Gros Morne National Park!

Your marine adventures begin in Norris Point’s Bonne Bay Marine Station. Supported by Memorial University and the Gros Morne Co-operating Association, this marine research centre offers exciting interpretive programs focused on the sea.

All ages will enjoy the daily Interactive Aquarium Tours where you can see local marine life and get your hands wet in the touch tank. Don’t forget to ask about the naturalist-led kayak and kayak tours of Bonne Bay.

Information:

- Bay’s marine environment.
- Boat and kayak tours of the bay’s marine environment.
- Interactive Aquarium Tours
- All ages will enjoy the daily tours.

KAYAKING

Gros Morne National Park offers many fascinating paddling opportunities with its more than 260 km of coastline. Paddlers should become familiar with the marine and weather conditions before setting out. Wind and weather conditions can change quickly and pose major problems for unsuspecting paddlers. Private operators offer kayaking tours of Bonne Bay.

BOATING

Power boating is allowed on Bonne Bay and Trout River Pond. Boat ramps are located at Trout River Pond, Lomond, and Mill Brook day-use areas. Nearby communities also provide services for boaters, including government wharves, marinas, repair facilities, and boat ramps.

FISHING

In freshwater: You may fish for trout and salmon in the park. To fish trout, you need a Gros Morne National Park Fishing Permit. To fish on a scheduled salmon river, you need a Gros Morne National Park Salmon Licence and a Provincial Salmon Licence and Tag. Park fishing permits and licences are free and available from all park facilities. A valid park pass is also required. Provincial salmon licences are available at retail outlets such as convenience stores and service stations.

Lomond River (including the East Branch), and Deer Arm Brook are scheduled rivers and restricted to fly-fishing. Western Brook and Trout River and its tributaries are closed to fishing. Check with park staff for up-to-date information on seasons, limits, river closures and regulations.

In saltwater: The recreational fishery for groundfish (including cod) is open to both NL residents and non-residents. The limits, season, and specific regulations are announced each year by Fisheries and Oceans Canada (www.dfo-mpo.gc.ca).

SWIMMING

Open air swimming is best at Shallow Bay, Lomond, and Trout River Pond. None of these sites are supervised, but all have washrooms and picnic tables. Due to the dangerous currents at the mouth of Western Brook, swimming in the ocean off the beach there is not recommended.

Also ask local people for their recommendations – a number of small streams are great for a dip, especially those with pools and waterfalls, for example at Middle Brook near Glenburnie. By mid-summer, even the bay may be pleasant enough for a quick dip!

Gros Morne Swimming Pool, which overlooks Rocky Harbour, has a 25-metre indoor pool with washrooms and picnic tables. Open air swimming is best at Shallow Bay, Lomond, and Trout River Pond. None of these sites are supervised, but all have washrooms and picnic tables. Due to the dangerous currents at the mouth of Western Brook, swimming in the ocean off the beach there is not recommended.

There’s more than one way to experience this spectacular landscape.

WALK

Your experience begins with a walk into the pond on easy-moderate 3 km trail of gravel and boardwalk. Along the way, benches provide places to rest and interpretation signs enrich your experience. Plan approximately 45 minutes.

RELAX AT DOCKSIDE

Sit and relax inside the building or outside on the deck. Purchase a light lunch while viewing the magnificent mountains and then share your photos with family and friends by connecting with free wifi.

SCENIC BOAT TOUR

Board the new catamaran and spend 2 hours cruising this iconic freshwater fjord lake with its stunning billion year-old cliffs and waterfalls cascading from 2,000 feet.

This tour includes camping supplies and meals. For reservations contact Bonfours. Choose a day hike or camp overnight. This tour includes camping supplies and meals. For reservations contact Bonfours.

Take the shuttle to Snug Harbour and spend the day or overnight. Be adventurous and climb to the top of the North Rim for that once in a lifetime view!

Shuttle service also available for Long Range hikers.

SCHEDULE FOR THE BOAT TOUR

Take a Hike!
There are more than 100 km of trails in Gros Morne, from half-hour strolls to strenuous multi-day hikes. But you needn’t be limited – your legs can carry you anywhere your eyes can see! Mattie Mitchell, a famous Mi’kmaq guide who lived in Norris Point and walked all over western Newfoundland, was quoted as saying: “When I walk, my legs do the thinking.” Hiking is one of the best ways to experience our natural world.

TRAIL GUIDES
The park trails listed on p. 14 are all clearly marked, and feature boardwalks, stairs and bridges where necessary. A map at the beginning of each trail shows the route and any major decision points. A waterproof map/guide to the trails is available for $19.95 at the Tuckamore shops in the Visitor Centre and Discovery Centre.

COMMUNITY TRAILS
Some of the best short walks are right in town. Each community has a few trails.

FRIENDLY REMINDER!
Pets are allowed on most hiking trails but must be kept on a leash. Pets are not allowed on the top of Gros Morne Mountain but are allowed on the section of trail to the base of the mountain.

BACKCOUNTRY CAMPING
Overnight hikes let you immerse yourself in nature. Backcountry campsites have only minimal facilities. There are usually wooden tent pads (to reduce trampling of the soil and to keep your tent off the wet ground), a food locker or bear pole (to store food so that it does not attract bears), and pit toilets. Portable stoves must be used since campfires are not permitted.

Backcountry sites are located on Stanleyville, Green Gardens, Wallace Brook, Ferry Gulch, Snug Harbour trails, and at the end of Trout River Pond (accessible by kayak or canoe).

You must register with the park and purchase a backcountry permit to use any of these backcountry campsites. Registration is based on a first come-first served system.

CYCLING
There are no specifically designed bike trails in Gros Morne but bikes are permitted on the Old Mail Road and Stuckless Pond trail. The Old Mail Road is suitable for all riders while mountain bikers may wish to check out the Stuckless Pond trail and the 1km of looped ski trails near the Visitor Centre. The cabin access road across the highway from the Visitor Centre is a favourite of local riders. It has great views of Gros Morne and the Long Range Mountains, and Eastern Arm Pond.

WILDERNESS HIKING
The Long Range and North Rim traverses are challenging and spectacular routes that the park recommends for experienced backcountry travellers. Map and compass skills are essential since there are no trails or route markers to show the way. Weather in the mountains can also quickly reduce visibility.

Reservations and a backcountry permit are required for these wilderness treks. You must also do a pre-trip planning session including a self-assessment test at least one day in advance of your trip. Topo maps are for sale at the Visitor Centre and Discovery Centre. Contact park staff for more information.

Long Range Traverse
35 km (4 days +)

North Rim Traverse
27 km (3 days +)
Visit the Tablelands of Gros Morne, one of the few places where Earth’s mantle is revealed. Pushed in place as continents collided almost half a billion years ago, its orange weathered rock is from the middle layer of the Earth. Shaped by glaciers less than 15,000 years ago, today few plants grow in the Tablelands’ toxic soils. This barren landscape is one of the best examples of the Earth’s mantle – exposed to you the way few have seen it.

The Tablelands dared you and you took the challenge. After all it’s not every day that you get a chance to walk upon the Earth’s mantle. Escape the trails and you can be one of the few who will have seen the view from the top. Pick up a map, plan your route and let your legs carry you to the top.

Need some direction? Let us guide you to the top for an amazing day in which you can enjoy the luxury of having a naturalist by your side.

Hike upon the Earth’s Mantle – Guided Hike
You arrive at the Tablelands and from the minute you and your family step from the parking lot, your curiosity is piqued – the snake-like skin on the rocks, the peculiar plants... Luckily, you came just in time for the 10am daily-in-the-summertime exploration with a park guide – harbinger of all things tectonic – so you don’t have to wonder for too long.

Take the Path Less Travelled
Trout River Pond Trail, 14 km return
Hike along the shore of the pond and into the heart of the middle of the Earth. Accessible only by two feet and a heartbeat, this trail can best be described as pristine. Along the way, you can enjoy one of the best views of the Tablelands from your own private beach.

Under a Mantle of Stars
Trout River Campground - Whether you choose to bring your own or rent an Otentik - just be sure to get back to camp in time to see the Tablelands in a whole new light of the setting sun.

- Take the Scenic Drive through the Gulch!
- Pick up an “Explora: For the Tablelands, or Download the App!

See the Earth Naked
The Tablelands of Gros Morne
enjoy the long sandy beaches at Shallow Bay.
in a play at the Gros Morne Theatre festival or
northern boundary, at Cow Head, you can take
the tuckamore to the shore. Near the park’s
gardens where people grow root crops in the
from the mountains. Here you’ll see roadside
A lowland of forest and bog separates the coast
has laid bare the bones of the Earth, and a
rare chapter of Earth’s history is exposed – an
ocean floor upturned, the deepest layers on top –
a wondrous illustration of plate tectonics.
The road ends at Trout River, where you can
stroll along the boardwalk by the sea, and
discover its marine heritage in the community
museum. More views await at Trout River Pond,
where you can also explore on foot, by boat or
in a kayak.

Gros Morne is famous for its very
large moose population. Moose
were introduced to Newfoundland
over a century ago and in Gros
Morne they found abundant food,
few predators, and protection
from hunting. But all those moose
are taking their toll on the health
of the park’s forests. Moose are
eating so many young trees that
they are preventing the forest
from regrowing to form the next
generation of forest. Action was
needed to protect the park’s forests.
After extensive consultation,
Parks Canada implemented a pilot
moose population reduction in
Gros Morne National Park in 2011.
Since that time, approximately
1600 moose have been harvested in
Gros Morne by qualified hunters.
Parks Canada will continue with
the harvest from September 13,
2014 to February 2, 2015. The park
has been divided into a number of
carefully-selected zones to ensure
that visitors to the park during this
period have access to a wide variety
of trails and facilities in areas that
remain closed to hunting.

Recovery of the forest is monitored
as moose numbers decline.
Indicators of success are the
growth of forest-floor plants and
the recovery of young fir and other
woody species. Parks Canada’s
target is a healthy forest and a
healthy moose population.

For more information:
www.pc.gc.ca/foresthealth

By protecting large areas of natural
habitat, national parks play an important
role in helping species at risk in Canada.
But national parks also do much more
to give these troubled species a helping
hand.

In accordance with Canada’s Species
At Risk Act, Gros Morne National Park
is developing a Multi-species Action
Plan to help recover the species at risk
that call the park home. This plan
will address the needs of 14 species,
including Piping Plover, American
Marten, and the Newfoundland Red
Crossbill. The plan addresses population
monitoring and research needs, habitat
protection and restoration, public
education, and co-operation with our
partners to ensure that imperiled
species have a safe and secure home in
Gros Morne National Park.
Unlock Gros Morne’s beautiful secrets by exploring with a Parks Canada guide...

Through a variety of creative and engaging activities, our guides will share their knowledge, insights & love of this place. Below are just some of the wonderful experiences you can have. Ask for a full schedule at any park facility. © Program included with park pass $ Additional fee applies

**PARTICIPATE**

**Hike to the Top of the Bottom of the Earth ($)**
Go up and beyond the trail! A full day, guided hike up Winterhouse Canyon to the top of the unearthly-looking Tablelands for a glimpse at what few get to see.

**Yaffle of Chores ($)**
Take a trip back in time to discover traditional Newfoundland life and language: tend gardens, make toutons, hook mats... etc.

**Discover Our Secrets ($)**
Explore the park’s paths less travelled on this naturalist-led adventure of the week and discover the beautiful places the locals go. Locations vary from week to week.

**STROLL**

**Tablelands: Walk Upon the Earth’s Mantle ☺**
Stroll upon the Earth's mantle - normally found far below the crust – and explore the world-significant landscape described as a “geologist’s dream”.

**Where Once They Stood: An Aboriginal Journey ($)**
Walk in the footsteps of those who have gone before to learn how they used plants and animals for medicine and food. Discover your own connection to the land and learn to make a medicine tie that you can take home.

**“EXPLORA” the Tablelands ☺**
Can’t make the Tablelands Walk? Try the next best thing to a real guide!
Sign out an Explora unit at the Discovery Centre and experience the Tablelands at your own time and pace.

**ADVENTURE**

**Meet the Mudges ☻**
Experience what life was like for traditional fishing families along this coast. Step back in time to the mid-’60s and see this world through the eyes of the Mudge family.

**Campfire at Lobster Cove Head ☻**
A good, old-fashioned family campfire: sing songs and hear stories about this wonderful place.

**Tidepool Walk ☻**
With a Bonne Bay Marine Station Interpreter, discover the creatures that live in the harsh world of tidepools.

**EXPLORE**

**X-StreamScience ($)**
Be the change you wish to see in the world – take part in citizen science! Go behind the scenes to understand and help out with some of the research that happens here... Bats and moose and eels, oh my!

**Green Point: Naturalist on Site ☻**
Visit an intriguing sequence of layered rocks and chat with a naturalist to find out why it’s world famous.

**GrosMorne: An Earth Odyssey ☻**
An out-of-this-world evening show! A zany traveller is sent from another galaxy to discover our geology and why we’re a UNESCO World Heritage Site!

**RELAX**

**Fire Circle ☻**
Listen to the drum and rediscover your connection to Mother Earth in an outdoor evening of fire and stories.

**Yaffle of Chores ($)**
Take a trip back in time to discover traditional Newfoundland life and language: tend gardens, make toutons, hook mats... etc.

**Fire Circle ☻**
Listen to the drum and rediscover your connection to Mother Earth in an outdoor evening of fire and stories.

**Green Point: Naturalist on Site ☻**
Visit an intriguing sequence of layered rocks and chat with a naturalist to find out why it’s world famous.
Gros Morne National Park offers a variety of camping opportunities. Choose your experience from one of five campgrounds, primitive campsites along trails, or group camping at Berry Hill.

**TROUT RIVER**

*Next to Trout River Pond with views of the Tablelands.*

**Location:** 2 km from community of Trout River, 50 km from the park entrance at Wittondale off route 431.

**Amenities:**
- Boat ramp and beach for unsupervised swimming at the nearby day use area.

**Sites:**
- 44 large open and wooded sites.

**LOMOND**

*On the shores of Bonne Bay with outstanding views of the bay and the Long Range Mountains.*

**Location:** 17 km from the park entrance at Wittondale off route 431.

**Amenities:**
- Area was once a logging community; two trails follow old logging roads; boat ramp and wharf on-site.

**Sites:**
- 29 open and wooded sites.

**BERRY HILL**

*Secluded campground in a forest setting. Centrally located.*

**Location:** 5 km north of Rocky Harbour off route 430.

**Amenities:**
- Close to swimming pool, visitor centre, and Lobster Cove Head Lighthouse. Three hiking trails leave from the campground.

**Sites:**
- 69 wooded sites, 2 group camping sites.

**GREEN POINT**

*On the shores of the Gulf of St. Lawrence with spectacular coastal views and sunsets.*

**Location:** 12 km north of Rocky Harbour on route 430.

**Amenities:**
- Cobble beach, seasonally active fish staging area nearby, trail along the old winter mail road runs south to Bakers Brook, self-registration campground.

**Sites:**
- 31 open and wooded sites.

**SHALLOW BAY**

*Next to the 4 km sandy beach at Shallow Bay.*

**Location:** 1 km north of the community of Cow Head.

**Amenities:**
- Offers the best saltwater swimming (unsupervised) in the park; trail along the old winter mail road links the campground to the day use area.

**Sites:**
- 62 open and wooded sites.

---

**To tent or to rent? Experience camping like never before.**

Love the idea of camping, but prefer the comfort of a bed? Imagine arriving at a campground to find your camp already set up! The oTENTik units come equipped with bed and furniture on a raised wooden floor. They’re an easy and relaxing way for anyone to experience the fun of camping with none of the fuss of setting up camp.

Book your reservations online at [www.reservation.pc.gc.ca](http://www.reservation.pc.gc.ca)

---

**Clean Routine**
Help keep our park clean by putting all of your garbage in the containers provided. Please put only sorted recyclables, such as beverage containers, in the blue bins.

**Drinking Water**
Water in all our campgrounds is treated and tested regularly. It is safe to drink unless otherwise posted. Water from roadside springs and other natural sources are not tested and should be boiled before drinking.

**Looking for serviced camping?**
Serviced sites are available in many of the private campgrounds located in the surrounding communities. [www.newfoundlandlabrador.com/PlanYourTrip/Campgrounds](http://www.newfoundlandlabrador.com/PlanYourTrip/Campgrounds)

---

**CAMPGROUND RESERVATIONS:**

You can make a reservation online at [www.reservation.parkscanada.gc.ca](http://www.reservation.parkscanada.gc.ca), or by calling 1-877-737-3783 (TTY) 1-866-787-6221.

Group Camping reservations are available by calling (709) 458-2417 or email grosmorneinfo@pc.gc.ca

---

**NEWFOUNDLAND AND LABRADOR TOURISM**

Only $120.00 per night, including park pass and firewood.
Wildlife

Seeing wildlife is always exciting and Gros Morne offers lots of viewing opportunities for visitors. Whether it’s birds or mammals, the park is home to a variety of species.

**Arctic Hare** weigh up to 6 kg and are the largest members of the hare family. They are grey in summer and turn white in winter. Arctic hare are native to the island of Newfoundland. They live on the arctic-alpine barrens of the park’s mountains and are regularly seen on Gros Morne Mountain.

**Snowshoe Hare** were introduced to the island in the 1800s. They are brown in summer and white in winter. Snowshoe hare live in the forests and are commonly seen in campgrounds and along the lowland trails.

**Rock Ptarmigan** live all year on the arctic-alpine barrens of the park’s mountains. These birds are grey in summer and white in winter. They depend on camouflage for protection and fly only when badly frightened. They are regularly seen on Gros Morne Mountain.

**Caribou** are the native deer of the island of Newfoundland. At less than 240 kg, they are considerably smaller than moose. They are dark brown in summer but light brown to white in colour through fall and spring. In summer, caribou are commonly seen on the Long Range Mountains and only occasionally seen in bogs and forests of the lowlands. During fall and winter, they are often seen in the coastal bogs north of Rocky Harbour.

**Moose** are the largest member of the deer family. They are dark brown and weigh between 385 and 540 kg. They were first introduced to the island in 1878 and today there are about 4800 animals in the park. Moose are often seen along roadsides and trails, particularly around dawn and dusk. They can cause significant damage, injury and/or death when hit by a vehicle, so drive carefully.

**Red Foxes** are native to Newfoundland but are often not the typical red colour. They may be black and silver or a mixture of colours but all have the distinctive white tip on the tail. Foxes are often seen along roadsides and are common throughout the park.

**Black Bears** are native to the island. They are found throughout the park but seen infrequently. Bears will eat a variety of things including berries, carrion, garbage, and the occasional caribou calf. Bears tend to be wary of people but they are attracted by food. Keep yourself safe: do not leave food or garbage lying around. Read the brochure You Are In Bear Country and report all bear sightings to park staff.

**Bald Eagles** are the largest species of eagle found in North America. They are grey in summer and white in winter. They live on the arctic-alpine barrens of the park’s mountains and are regularly seen on Gros Morne Mountain.

**Coyote** looks like a medium-sized German shepherd but is grey or reddish grey with a whitish throat and belly. It is mostly nocturnal although it may be seen at any time of day. The coyote is an opportunistic feeder with its main diet consisting of snowshoe hare, caribou, moose, carion, birds and small mammals.

**Coyote** looks like a medium-sized German shepherd but is grey or reddish grey with a whitish throat and belly. It is mostly nocturnal although it may be seen at any time of day. The coyote is an opportunistic feeder with its main diet consisting of snowshoe hare, caribou, moose, carion, birds and small mammals.

**Whales** - Minke whales are commonly seen in Bonne Bay from late spring to fall. Larger whales, such as the Humpback, are uncommon but can be seen near St. Anthony and the Labrador Straits area.

**Moose** are the largest member of the deer family. They are dark brown and weigh between 385 and 540 kg. They were first introduced to the island in 1878 and today there are about 4800 animals in the park. Moose are often seen along roadsides and trails, particularly around dawn and dusk. They can cause significant damage, injury and/or death when hit by a vehicle, so drive carefully.

History and Heritage

Come visit these sites that help to tell the story that is woven here between landscape & culture!

**BROOM POINT FISHING EXHIBIT**
At Broom Point, the past is alive – come put your hands on it!
This is the story of the vibrant life of a typical Newfoundland fishing family told through the eyes of the Mudges – a family of three brothers, their wives & children who lived & fished here seasonally for 35 years.
Using the restored properties as a base – complete with original artefacts – our skillful guides animate the past to give you insight into the present, and perhaps the future, of the traditional Newfoundland inshore fishery.
Broom Point is open daily from 10:00am to 5:30pm, June 2 to September 21.
Your admission is included with your park pass.
Ask at any park facility for a schedule of activities and tours.

**LOBSTER COVE HEAD LIGHTHOUSE**
Lighthouses are gathering places and Lobster Cove Head is no exception. The lighthouse is currently undergoing extensive renovations to host a brand-new exhibit. The lighthouse building will be closed from May - July 2014 and will reopen to the public in August. In the meantime, we would like to welcome you to our new outdoor exhibit with upgraded trails and new interpretive signage placed around the head. Our experienced and knowledgeable staff will be on site as usual to meet and greet visitors.
Lobster Cove Head is open daily from 10:00am to 5:30pm, June through September (Wednesday through Sunday in May and October). Your admission is included with your park pass.

**MATTIE MITCHELL NATIONAL HISTORIC SITE**
Designated a person of national historic significance in 2001, Mattie Mitchell was a renowned Mi’kmaq guide, hunter and prospector who made exceptional contributions to the mapping and exploration of the Northern Peninsula and the development of the emerging Newfoundland economy of forestry and mining in the twentieth century. Stroll around this peaceful commemoration site and learn about Mi’kmaq presence in Newfoundland and learn still more by participating in an Aboriginal programme.
Ask at any park facility for a schedule of activities.

**Heritage Sites**

**BROOM POINT FISHING EXHIBIT**
**LOBSTER COVE HEAD LIGHTHOUSE**
**MATTIE MITCHELL SITE**
**Jeninx House – Norris Point**
This relocated home, a typical Newfoundland saltbox, overlooks Bonne Bay and has a magnificent view of the Tablelands. You can view community artefacts on display or purchase local crafts in its store.

Information: (709) 458-8880 or bbchhc@aibn.com

**Wedgewood Point Heritage District – Woody Point**
Once an important commercial and government centre for the west coast, Woody Point has preserved many of its historic homes and buildings, on the waterfront. Enjoy the rich history of this town, stroll along the waterfront and chat to the locals, stop by a cafe and visit the craft stores.

**Communities**
The communities in the Gros Morne area are a part of this landscape and its heritage buildings provide a glimpse of times past.

**Jeninx House – Norris Point**
**Julia Ann Walsh Heritage Centre – Norris Point**
**Dr. Henry N. Payne Community Museum – Cow Head**
Come explore the history of Cow Head through a variety of historical relics, from pre-contact Aboriginal artefacts to tools related to early life in a fishing outpost. Information: (709) 243-2023/2466

Take time also to visit the St. Mary’s Botanical Walk next to St. Mary’s Anglican Church.

**Heritage Sites**

**Jeninx House – Norris Point**

Cultural Crossroads

Take time to attend a festival, enjoy a church supper, listen to some music, participate in a workshop or visit the shops of local artisans to experience this place with the people who call it home.

The Gros Morne Theatre Festival in Cow Head is back for another season of storytelling, music and drama. The 2014 line up includes the ever popular dinner theatre – Ethie, as well as Newfoundland Vinyl – the “C” Side, Neddy Norris Night, Beauty Queen of Leenane, The Known Soldier and Tempting Providence.

Writers at Woody Point is a four-day literary festival presented in the restored Woody Point Heritage Theatre and hosted by Shelagh Rogers of CBC’s The Next Chapter. Rooted in Newfoundland literature, the festival attracts writers and songwriters from across the country and around the world.

Wave Over Wave Tuesdays and Thursdays is a guided walk exploring the fishing and farming traditions of Trout River.

Passing the Time in Trout River is a relaxed opportunity to interact with local storytellers and musicians and special guests each Tuesday.

There are many opportunities to hear live music ranging from traditional and Newfoundland and Labrador popular to classical. The main venues are: Anchor Pub (Rocky Harbour), Cat Stop (Norris Point), Heritage Theatre (Woody Point), and Neddie Norris Pub (Cow Head), although restaurants and community venues may also feature live music on occasion. Look for local musicians like Jeff Quilty, Anchors Aweigh and Daniel Payne to name a few.

The classically-inclined Gros Morne Summer Music is constantly searching for new ways to provoke rich encounters with great music. Their programs, performed by young and established artists from around the globe, combine classical music with other genres such as choral, folk, and popular for a unique journey through musical history.

The Tuckamore Shops are found in two convenient locations:
- Discovery Centre
- Visitor Centre

Tools for Discovery
Take home a souvenir and enhance your visit with some of these specialty maps and guides of the park published by the Co-operating Association.

Revealing our Red Chairs Contest
Join us in a creative and adventurous contest throughout the summer in Gros Morne National Park.

There are 17 iconic red chairs throughout the park placed in our favorite places to enjoy the view and relax. Just around the corner on your favorite trail or along the ocean’s edge you may find the perfect spot to “take it all in”. Snap a creative picture of these iconic chairs and briefly tell us why you love Gros Morne. Relax & take a seat! To enter check out Facebook and Twitter @Visit Gros Morne

The natural beauty of Gros Morne is an inspiration to artists and craftspeople alike. Resident and visiting artists create works from their experiences, providing a mix of contemporary art side-by-side with local craft traditions.

Throughout the summer the park hosts a number of visiting artists through an artist-in-residence program with The Rooms Provincial Art Gallery and other residency programs. Watch for opportunities to meet these artists through public talks, workshops and open studios.

In many local craft shops and studios there is opportunity to talk with the artists, view demonstrations and take part in workshops.

Port au Choix National Historic Site

5000 Years of Human Settlement

Today the residents of Port au Choix continue to make their living from the sea, just as generations of Aboriginal people did before them. 

Archaic Tradition, and the ancestors of the Beothuk. The abundance and preservation of artefacts they left behind provides us with a fascinating look into the social, economic, and spiritual practices of these cultures.

One thousand years ago, the Norse landed on the shores of Newfoundland, and explored an area they called Vinland. Their voyages to North America led to the first meeting between Aboriginal peoples and Europeans. This marked a key chapter in worldwide exploration and settlement. L’Anse aux Meadows National Historic Site is among the world’s most significant archaeological sites and designated a UNESCO World Heritage Site.

Today, you still can see the outlines of the original Norse buildings and gaze over a landscape little changed since Viking time.

Discover a place where the wealth of the sea has supported human settlement for more than 5000 years. Here archaeologists have found evidence of four Aboriginal cultures; the Grosswater and Dorset Palaeoeskimos, the Maritime

GETTING THERE

Port au Choix Heritage Centre, Port au Choix

Follow the Viking Trail (Route 430) north past Hawkes Bay. At the intersection to Route 436 turn-off (10 km south of St. Anthony). Follow Route 436 for 29 km to the site.

OPEN

9 a.m. to 5 p.m. | June 2 to 15 and September 27 to October 10
9 a.m. to 6 p.m. | June 16 to September 26
Phone (709) 623-2608

WHILE IN THE AREA

The Westward Viking Festival, A Real “Taste of Vinland”!

The Taste of Vinland Gala which takes place on July 28th is a main feature of the festival. A celebration of music, storytelling, Viking age and Norse Fusion cuisine and entertainment with something for everyone to enjoy.

Norstead, L’Anse aux Meadows
An imagined Viking port of trade with costumed interpreters who depict activities from Scandinavian countries (axe throwing, rune reading, spinning, pottery). The boat shed contains the Snorri, a 16m knarr replica that retraced the Viking voyage from Greenland in 1998.

For a complete list of activities and programs visit www.parkscanada.gc.ca/meadows

L’Anse aux Meadows National Historic Site

The only authenticated Viking settlement in North America

You can spend a few hours to a full day at the site. Begin at the visitor centre where exhibits trace the Norse voyages across the Atlantic. You can interact with a 3D model of the site, study the original artefacts that confirm the Viking presence, and see evidence and handle reproductions that reveal Aboriginal use of the site.

Watch the orientation video to learn of the site’s discovery and establishment of the Norse base camp.

Join an interpreter on a tour of the archaeological site where evidence of the Viking presence endured for 1000 years.

Play along with the living history re-enactors in the full scale re-creations of Viking sod buildings to get a taste of life 1000 years ago.

Immerse yourself in Viking Life for the experience of a lifetime at The Westward Viking Festival, A Real “Taste of Vinland”!

The Taste of Vinland Gala which takes place on July 28th is a main feature of the festival. A celebration of music, storytelling, Viking age and Norse Fusion cuisine and entertainment with something for everyone to enjoy.

Daily Encampment Program!

Help the Blacksmith make a nail!

Listen to the Chieftain’s stories of long ago voyages to Vinland!

WHILE IN THE AREA

Right Whale Exhibit

Selma Barkham Community Centre
The actual skeleton of a Greenland right whale is at the centre of an exhibit about whale biology and research.

Labrador Straits Museum

Located on Route 510 between Forteau and L’Anse au Loup, the museum highlights the recent history of southern Labrador and the role of the area’s women.

L’Anse Amour National Historic Site

Contemplate thousands of years of human history in Labrador at the site of a 7500-year-old ceremonial burial place of a Maritime Archaic Indian youth.

Point Amour Lighthouse

Climb to the top of the tallest lighthouse in Atlantic Canada and view exhibits about the natural and cultural history of the Labrador Straits.

L’Anse Amour National Historic Site of Canada

This restored merchant’s premises commemorates the role of the East Coast fishery in Canadian history.

Hopsdale Mission – Symbol of interaction between Labrador Inuit and Moravian Missionaries; representative of Moravian Mission architecture in Labrador.

Cape Spear – The oldest surviving lighthouse in Newfoundland and Labrador. It shows how a lightkeeper and his family would have lived in the mid-19th century.

Castle Hill, Placentia – Features the remains of French and English fortifications from the 17th and 18th centuries.

Ryan Premises, Bonavista – This restored merchant’s premises commemorates the role of the East Coast fishery in Canadian history.

Terra Nova – A place where long bays of the North Atlantic Ocean touch the boreal forest while rocky headlands provide shelter from the power of the open ocean.

Tommats Mountains – A spectacular mountainous wilderness in northern Labrador. For thousands of years it has been home to the Inuit and their predecessors.

Besides the historic sites at Port au Choix, L’Anse aux Meadows and Red Bay (see pages 26-28), you may also want to visit:

Battle Harbour Historic District – Experience the centuries-old Labrador fishery at this restored 19th-century fishing village on an island in the Labrador Sea. Passenger ferry service from Mary’s Harbour is available.

Signal Hill, St. John’s – Celebrates the rich communications and military history of Signal Hill and sits amidst a spectacular view of St. John’s and the sea.
### Park Passes

A pass is required for all activities within a national park.

For your convenience, park passes are available at Gros Morne National Park facilities and the following local business locations:

- **Bonne Bay Pond**: Big Falls Tourist Lodge
- **Corner Brook**: Arthur James
- **Cow Head**: Shallow Bay Motel
- **Deer Lake**: Foodland, Driftwood Inn, Arthur James
- **Lomond**: Lomond River Lodge
- **Norris Point**: Bonne Bay Pharmachoice, C & J Rumbolts, Gros Morne Adventure Guides, Terry’s Bed & Breakfast, Western Petroleum
- **Pasadena**: Foodland

- **Rocky Harbour**: Gros Morne Cabins, Gros Morne Crafts, Parkway Irving, Ocean View Hotel
- **St Pauls**: C & J Variety
- **Trout River**: Valleyview Restaurant & Convenience
- **Western Brook Pond**: Dockside
- **Wiltondale**: Coyley’s Gas Bar & Convenience
- **Woody Point**: Old Loft Restaurant, Seaside Suite & Gift Shop, Roy Young Ltd.

### What’s in a name?

“Gros” means big, “Morne” is a Creole word for a small, rounded mountain standing alone. In French, morne also means dismal or gloomy. So, although Gros Morne probably means “big isolated hill”, when clouds rake across the mountain top the gloomy description often seems fitting.
