As the result of legislation enacted by the Parliament of Canada, and as a sanctuary for wildlife, the Waterton-Glacier International Peace Park was proclaimed in 1932. Located in the south-eastern corner of the United States, and the Canadian section is contained in the two parks form a great international playground.

were proclaimed the Waterton-Glacier International Peace Park. The park is a beautiful region of forests, lakes, and mountains, contains an area of 220 square miles. It was created by the people of both countries. Evidences of the Ice Age are found in the area, and the park provides opportunities for the enjoyment of outdoor life and recreation.

LOCATION AND GENERAL DESCRIPTION

Waterton Lakes National Park is situated in the south-eastern corner of the United States, and the Canadian section is contained in the two parks form a great international playground. The park is a beautiful region of forests, lakes, and mountains, contains an area of 220 square miles. It was created by the people of both countries. Evidences of the Ice Age are found in the area, and the park provides opportunities for the enjoyment of outdoor life and recreation.

Waterton Lakes National Park was established in 1932 as a result of legislation enacted by the Parliament of Canada and the Congress of the United States. The park was proclaimed to protect the area from commercial exploitation and to ensure that it remains a natural and unspoiled wilderness.

The park is bordered on the north by the Canadian province of Alberta, on the south by the United States state of Montana, and on the east and west by the Rocky Mountains. It covers an area of 220 square miles and includes a variety of ecosystems, from alpine meadows to subalpine forests.

The park is home to a diverse population of wildlife, including elk, bison, moose, deer, and many species of birds. The park also features a number of lakes, including Upper Waterton Lake, which is one of the famed bodies of water from which the park takes its name.

The village of Waterton Park forms the park headquarters. It is located in Waterton Park village, and is served by a tri-weekly train service from Lethbridge on Monday, Wednesday, and Friday, returning to Lethbridge, Tuesday, Thursday, and Saturday.

The village also has a museum and a visitor information centre, which provides information about the park and its facilities. The park is also home to a variety of recreational activities, including hiking, fishing, and wildlife viewing.

The park is managed by Parks Canada, a federal agency of the Government of Canada, which is responsible for protecting national parks, rivers, and other protected areas in the country. The park is open to the public year-round, and offers a range of accommodation options, including campsites, chalets, and hotels.

ACCOMMODATION

ACCOMMODATION is provided by the park, and is available to visitors on a first-come, first-served basis. Waverley and Pincher are the nearest communities to the park, and are served by bus service, connecting with the Greyhound line at Pincher Creek. From British Columbia, the Prince of Wales Hotel and Chalets (Banff National Park) wirelessly to Waterton Park village is 20 miles by road. There is also a community building and a community shelter. Camp sites, with kitchen shelters, are also located at Bertha Lake, Cameron Lake, Red Rock Canyon, Alderson Lake, and Rustic shelters, provided with camp-stoves, benches and water service are maintained by the park. The fees for camping permits are $1 for ordinary tents and $2 for two persons per day, and up.
