

The New Brunswick School of Arts and Crafts at Fundy National Park offers opportunities for you and your family to take courses in arts and crafts. The school is unusual in that all instruction is individual and you may choose one or more of a wide range of projects at times that suit your travel plans. Our school features carefully chosen projects, for adults and for children, many of which can be completed in one day.

You and your whole family may register for one day or for as many days as you wish. While advance registration assures you of teaching space before you come, it is not essential. Teaching space must be taken up by 9:30 a.m. on the day assigned or it will become available to another person.

The school has a new campus in a spruce woods on a rocky bluff above the Bay of Fundy. All buildings are new, modern in design, one for each craft instructor.

The charge for any project is the cost of materials used plus \$1.00 a day tuition for adults, 50 cents a day for children. 1962 dates are July 9 to August 24, inclusive. Teaching is Monday to Friday, 9 a.m. to 12 noon and 1:30 to 5:00 p.m.
