**NOTES:**

1. Do not scale from this drawing. The Contractor is to verify all dimensions on site before proceeding with this work.
2. All components of building that are noted to be replaced with new or temporarily removed to refinish are to be thoroughly photographed prior to removal. Size & arrangement of various elements to be noted as to ensure they can be reinstated to match existing as accurately as possible.
3. Photographs and/or drawings of all work performed shall be left with site staff for future reference.
4. Before beginning work, check existing size in the work of 1.2 in. more than those shown in the existing views. The existing views are shown for reference only.
5. All existing work is to be checked thoroughly by the structural designer to ensure that the existing work is sound and can support the new work to be added.
6. The existing work is to be checked thoroughly by the structural designer to ensure that the existing work is sound and can support the new work to be added.
7. The existing work is to be checked thoroughly by the structural designer to ensure that the existing work is sound and can support the new work to be added.
8. The existing work is to be checked thoroughly by the structural designer to ensure that the existing work is sound and can support the new work to be added.
