Jasper
NATIONAL PARK
CANADIAN ROCKIES
Jasper Park Lodge is much more than a luxury resort; it is a gracious, carefree way of life among the beauties of soaring peaks and emerald lakes for young and old. Here's a corner of the open air, heated swimming pool.
This is your invitation to fun.

Accept it and you'll have the best vacation you have ever enjoyed.

By words and pictures we have attempted in this book to tell you about hotel comforts and conveniences, about a famous golf course and an open air swimming pool, about motoring, trail riding and fishing. For the rest—for the exhilaration of the air, for the lift given to your spirit by the mountain peaks and the alpine meadows, the turbulent rivers and the cool transparent lakes—you'll have to read between the lines.

You can't get Jasper out of a book.

You'll really have to go and experience it for yourself.

R.S.V.P. to your Canadian National agent. He'll be glad to help you plan your trip.
Jasper is at home to you all the year 'round, but the height of the season is between the middle of June and the second week of September. That is when Jasper Park Lodge is open.

At the back of this book we tell you about other hotels, chalets, cabins and camps in the Park.

How you come depends, of course, on where you live. Jasper National Park lies in the northern Canadian Rockies, on the border between the provinces of Alberta and British Columbia. It is on the main transcontinental line of the Canadian National Railways, directly reached through Vancouver and Prince Rupert on the Pacific Coast, through Edmonton, Saskatoon and Winnipeg in the western provinces, and Toronto, Montreal and other eastern cities.

It is to a fur trader that Jasper owes its name. No one knows much about him except that his name was Jasper Hawes, he had yellow hair and he came from Missouri.
Jasper Park Lodge is an Alpine village world-famous for its beauty and setting. Bungalows fan out in unhurried fashion along lovely landscaped avenues from the Central Building and room service is by bicycle.
Among the guests at the Lodge last summer were a couple of keen golfers from Scotland. Good sturdy Presbyterians, they scrupulously denied themselves a game on the Sabbath, but they couldn't resist that course. They left their clubs behind but, after church in the morning, they set out to walk the fairways and greens from the first hole to the 18th, studying every trap and water hazard and working out Monday's strategy.

That's the way Jasper's famous course affects people. It's a championship course—6,700 yards, par 71—one of the finest on the continent. The hazards include the beautiful mountain terrain, which makes it hard to keep your eye on the ball, and sometimes a bear unconcernedly ambling over the grass, but they do not include strenuous climbs.

It is laid out on the British principle, with the ninth hole farthest away from the clubhouse, but an additional three holes permit a nine-hole game, taking you back to the clubhouse with no cutting in.

Golf Week, culminating in the Totem Pole Tournament, attracts high calibre players, both men and women, every year.

The colorful face of Pyramid Mountain provides a backdrop for the ninth tee of the famous Jasper Park Lodge Golf Course.
Approach shot to the 13th green, longest hole on the Jasper Park Lodge Golf Course. The ball is about 75 yards from the green.

The shot-silk waters of Lac Beauvert parallel the 14th fairway and green.
Crowned with everlasting snow and ice, Mount Edith Cavell soars above the valley in superb beauty. You see it when you step from the train, you gaze at it across Lac Beauvert from the Lodge, and if you take none of the other splendid motor drives, you shouldn’t miss the trip that brings you to the foot of the Glacier of the Angel on this mountain.

Thrilling switchbacks, revealing panoramas more and more wonderful, carry you over 20 miles and up 2,000 feet, to the outspread wings of its Angel Glacier.

Once the peak was the signpost directing the early explorers on their way through the passes of the Rockies to the Pacific Ocean. To you it stands as a symbol of all that is impressive and beautiful in Jasper.

In half an hour by motor from the Lodge you can reach the foot of the Glacier of the Angel on Mount Edith Cavell.
Stately Mount Edith Cavell, as seen across Lac Beauvert at the Lodge, is one of the most frequently photographed scenes in the Canadian Rockies.
Maligne is not only famous for its beauty. Alpinists treat its mountains with respect and speckled trout fishermen sing its praises.

From the Lodge to the end of Maligne Lake and return is a journey of 100 miles and you’d do a lot of travelling to find another 100 miles as fascinating. You can do it in a day by automobile and motor boat or you can ride over the Skyline Trail on a trip that takes four days.

Going the easier and quicker way, you drive from your hotel to the spectacular Maligne Canyon and Medicine Lake. After a five-mile trip across Medicine, another car takes you along the Maligne River to the great lake.

It isn’t size that makes Maligne great, although it is the largest glacier-fed lake in the Rockies; it is sheer breath-taking beauty.
The bridge over the Maligne River leads to Shovel Pass and many trails. Just above the bridge (background) is the "million dollar" trout pool.

Modern launches carry you the length of Maligne Lake and back, and provide you with new and unforgettable perspectives of massive, ice-capped peaks.

For those staying over-night at fabulous Maligne Lake, the unpretentious but comfortable chalet becomes headquarters.
Even if they have never been on a horse, most people want to ride when they get to Jasper. Not many of them are Hopalong Cassidys or Roy Rogers'. But the ponies don't mind that: they take everybody in their stride. They're knowing critters, with a pretty good idea of human nature, and if the wrangler happens to be looking the other way when you mount from the wrong side, the ponies won't say anything. They are not all alike, of course, but you will have help finding one to suit your speed—high-spirited if you're experienced, benevolent if you're not.

Once in the saddle, you can really go places. You'll probably want to start with a short ride—say the seven-mile two-hour trip over the Buffalo Prairie Trail to Old Fort Point, which thrillingly opens up the Athabaska Valley to you. Then you'll graduate to Maligne Canyon or the Sawdust Trail, 12 miles each, riding time three hours.

But even if you're not well seasoned you'll enjoy a trip to the Tonquin Valley, where the jagged Ramparts rise above the Amethyst Lakes, or to Maligne Lake and back over the Skyline Trail. On these longer saddle trips, you will be comfortable in chalets and camps in the midst of mountain splendor at high altitudes.
Trails like this near the golf course with Pyramid Mountain in the background, radiate in all directions, each magnificently scenic.

The horse corral is the focal point for exciting trail rides.
Hard as it is to be matter-of-fact in talking about a place like Jasper, we have avoided superlatives in this book. Coming to the Columbia Icefield, however, there is a great temptation to break loose. It is giving the Icefield no more than it deserves to call it one of the wonders of the world.

Covering an area of more than 110 square miles, it is the largest and most impressive body of ice outside the Arctic Circle. Its average elevation between 9,000 and 10,000 feet, its loftiest peaks towering to 11,000 and 12,000, it is the roof of the Canadian Rockies and the geographical centre of the water system of a quarter of North America. Out of its massive glaciers spring streams that swell into mighty rivers carrying fertility to a vast terrain and pouring into three oceans. The 75-mile motor drive along the Jasper-Banff Highway from Jasper Park Lodge is a must for every visitor. The scenery is thrilling and the Icefield is the stupendous climax.
Glacier-fed rivers, snow-capped peaks and emerald lakes hold your attention every mile along the Columbia Ice Field drive.

Snowmobiles will take you on an exciting ride high up on the glacier.
There's something to look at in Jasper besides mountains.

You'll find yourself busy photographing the comical bears, athletic contests and even "posed shots".

When you are happy, time passes all too quickly and your vacation at Jasper seems to go in the twinkling of an eye. What can you do to carry some of it back with you to the workaday world? You can take the health you have stored up and you have your memories. There's something else, though.

"Time flies over us," said Hawthorne, "but leaves its shadow behind." He might have been thinking of photography. Trap the shadows of those delightful hours on the film of your camera! Take Jasper home in movies or stills, in black and white or color.
Jasper is too big to be seen at a glance. It has to be explored. You can do this on foot and have it revealed to you slowly and in detail. You can take to the saddle and reach places inaccessible by automobile. If you are a cyclist, there is many a road and trail to lead you through its scenic wonders. If you like the panoramic view, a sure foot and a little daring will bring you to heights where Jasper in all its glory lies spread out below.

From the corral you can head out from the Lodge on short rides or long ones.
The Government Fish Hatchery at Jasper, from which lakes and streams are stocked, fascinates thousands of visitors.

On the lower Maligne River, a few miles from Jasper Park Lodge, you will find the Government Fish Hatchery where hundreds of thousands of eggs are hatched every year and developed into fingerlings so that the lakes and streams of the Park may be well supplied with sporty trout.

The Hatchery is a fascinating place to visit, even if you’re not an angler. If you are, you’ll go also to the waters where the fish come to maturity—the Amethyst Lakes and the Astoria River in the Tonquin Valley for Rainbows; Jacques Lake for Dolly Varden; Maligne River and Maligne Lake for Eastern Brook (Speckled) Trout. There are fish in plenty of other lakes and streams, too.

Nearly all the spots are easy to reach and the trout give you plenty of action.

If you go to the Maligne area, you’ll undoubtedly become a member of the Maligne River Anglers Club. A fish of a pound or more entitles you to the bronze button. The angler who catches the heaviest trout in the season gets a gold button to prove his championship. A silver button goes to the second.

Happy landings!
Whether your preference is lake or stream fishing, you'll find Jasper's Rainbow, Speckled, Dolly Varden and Lake Trout lively and plentiful.
Living is gracious and friendly in these attractive log bungalows, set among vivid green lawns and trees, and overlooking lovely Lac Beauvert in a setting of alpine grandeur.

You'll enjoy the comfort of the lounge in your bungalow.

You'll sleep well at Jasper Park Lodge.
This summer, a new central building will greet visitors to Jasper Park Lodge. Those who are coming "home", as well as new guests who have heard about Jasper Park Lodge but never seen it, will find the familiar and famous Jasper—the little village of cedar bungalows among the evergreens on the shore of the lovely lake; the swimming pool, the golf course; the trails and highways leading to the trout lakes and streams, to the splendors of Maligne and the Columbia Icefield. But they will find in the central building that something new, beautiful and modern has been added.

The new building, 40 per cent larger than the structure it replaces, is of fireproof reinforced concrete, steel, brick and fieldstone. Except for a lower level—housing a recreation room and such facilities as the beauty parlor and the barber shop—and several suites of guest rooms which are to be completed above one of the wings, everything is kept to one floor, thus retaining the character of the central building as it has been known to the travelling public for a quarter of a century. The building is not alien to its surroundings. It is essentially of the mountains; offering shelter and warmth, comfort and luxury. Yet it is not shut off from the great outdoors. Wide windows and a long skylight of non-glare glass keep the way open. The fieldstone of the walls brings the outdoors into the building in partitions and piers and the immense double fireplace that is the focal point of the lounge. The floor of the entrance lobby and the administration wing is paved with slate. There is a suggestion of traditional alpine architecture in the peaks and gables with the wide overhang. The roof is shingled with sturdy cedar "shakes" and cedar logs are used in some of the walls to tie the structure in with the bungalows that surround it. A bit of imagination that should appeal to the guests is the enclosed patio and pool surrounded by four wings of the building but open to the sky.

The areas are big. For example, the main dining room is built to accommodate

600 at a sitting, but by sloping the high ceiling and judiciously breaking the long line of windows with stone piers and providing, in addition to the indirect lighting, chandeliers of wrought iron, the architects have brought the scale into intimate proportions. The same is true of the lounge. It is 90 by 160 feet, but has a club-like atmosphere, the style and grouping of the furnishings, the big stone fireplace, the pillars and the skylight over a wooden grill all working together to create comfort as well as spaciousness. The ballroom, 40 by 132 feet, can be divided by sliding doors for banquets and convention meetings. The administration wing, 120 by 75 feet, houses the hotel offices and the shops.

The building is new, but the character is the same and the spirit behind it is the same old spirit, summed up in the motto of the Canadian National Railways—"Courtesy and Service".

The bears are plentiful and frequently good camera subjects.

Even Mountain Goat can be seen at close range.

Jasper's first citizens are its animals, the park being a wildlife sanctuary where only camera-shooting is allowed. Mule deer and comical bears are always on hand to greet visitors and pose for pictures. Harder to meet are moose and elk; the highstepping mountain goat and bighorn sheep, but patient hunting will bring them within range of your lens.

It's easy to make friends with the soft-eyed mule deer.
At Jasper you are only two short hours away by train from the highest peak in the Canadian Rockies. This is Mount Robson, which towers up just outside the west boundary of Jasper National Park over the Great Divide in British Columbia. Armored in eternal ice and snow, it is a glorious sight from the Canadian National Lines to Vancouver and Prince Rupert.

But its majesty is even more apparent from close range. On foot or on horseback, you may make your way through the Valley of a Thousand Falls, past the roaring Emperor Falls, around the great mountain to Berg Lake on the north side. Here three immense glaciers cling to Robson’s flanks. From the most spectacular, Tumbling Glacier, great blocks of ice break off and hurtle into the shining lake to become icebergs.

Mount Robson Provincial Park is the centre of superb big game hunting. Accommodations are good and reliable guides, who know the territory as well as the palms of their hands, see that you get sport at its best.

AUTOMOBILE SIGHTSEEING DRIVES AND OTHER MOTOR SERVICES

Arrangements can be made at the Motor Transportation Desk in the Central Building of Jasper Park Lodge for all scheduled and special motor trips.

Jasper Park Lodge owns and operates its own transportation system and its automotive equipment consists of luxurious passenger automobiles and buses. The chauffeurs, besides being experienced drivers, are well versed in the history and lore of the Park. They thus make thoroughly competent guides, whose knowledge and experience add much to the journeys along these historic trails.

No passports required by U.S. citizens to enter Canada, but it would be helpful to carry some proof of United States' citizenship, such as a birth certificate or Voter's Registration Card.

A friendly welcome awaits you at the Border and throughout the Dominion.

Canadian currency is now on the free market and its value in terms of U.S. dollars may fluctuate from day to day. Americans, if they so desire, may buy Bank Drafts payable in Canadian funds, or Canadian currency from their own bankers in the United States. When exchanging U.S. dollars at Jasper Park Lodge, such funds will be converted at the current rate of exchange.
SIGHTSEEING MOTOR DRIVES

NOTE:—Starting point of all sightseeing drives—Main Entrance, Jasper Park Lodge.

The Station Agent at Jasper will make arrangements for railway patrons, who are not guests of the Lodge, to be taken from the station, in Jasper Park Lodge motor equipment, on any of the scheduled drives, Nos. 1 to 8, inclusive. Regular rates will apply.

Departure hours and schedules for these drives have been carefully planned to permit visitors to view without haste the scenic wonders of the Park.

No. 1: General Drive—Thirty-five miles return. Motors leave the lodge at 9:30 a.m. and 2:30 p.m. Time, approximately 3 hrs. Bus fare per person, $4.00. This drive embraces a wide variety of valley, lake, canyon, and mountain scenery and includes a visit to the Fish Hatchery and a side trip to see the bears. The route, after following the Athabaska River, skirts Lakes Athabaska and Edith before gradually ascending the roadway to Maligne Canyon. From this vantage point the tourist stands in awe before the snow-capped grandeur of lordly mountains and the mighty sweep of the Athabaska Valley, which loses itself in endless vistas of alpine beauty. Maligne Canyon, a tremendous gorge descending to a depth of 188 feet, and remarkable for its potholes, is a never-ending source of wonder and amazement. On the return journey the Athabaska River is followed to its junction with the Maligne River where a stop is made to view the Government Fish Hatchery; from here the route continues over the Athabaska River bridge to join the Main Highway to Jasper, where a glimpse is obtained of "the Raven", one of the largest totem-poles in existence. Continuing along to the foot of Pyramid Mountain and passing on route Lakes Patricia and Pyramid, the drive again runs through Jasper before terminating at the Lodge.

No. 2: Glacier of the Angel (Mount Edith Cavell)—Forty-four miles return. Motors leave the Lodge at 9:15 a.m., and 2:30 p.m. Time, approximately 3 hours. Bus fare per person, $4.00. Offering excellent motoring, this drive by a course of wide-sweeping switchbacks reaches an altitude of nearly 2,000 feet above the floor of the valley and gives the tourist an ever-changing series of strikingly beautiful panoramas. The highway, terminating at the foot of the famous glacier, affords an excellent view of this vast field of living ice. The highest point reached on this drive is 6,300 feet above sea level. Light lunches and refreshments can be obtained at the Tea Room near the foot of the Glacier.

No. 3: Miette Hot Springs and Fiddle River Canyon—Eighty miles return. Motors leave the Lodge at 9:00 a.m. Time, approximately 4 hours. Bus fare per person, $6.00. The route, after skirting the shores of Lake Annette and follows the Athabaska River, which it crosses to join the Inter-Provincial Highway, whence it extends for miles down the Athabaska Valley to Jasper Lake and beyond to Punch Bowl Falls. A short stop is made to view this unique waterfall, and then the trip continues along the rim of the Fiddle River Canyon for another eleven miles before finally reaching the famous Miette Hot Springs. At this point, hot sulphur spring water, varying in temperature from 79 to 128 degrees F., comes boiling out of the mountain side. Motors will remain long enough to permit bathing in the pool. The highest point on this drive is 4,510 feet above sea level.

The Miette Hot Springs consist of three main springs, which issue from the rocks along the banks of Sulphur Creek. The springs, non-volcanic in nature, owe their heat to chemical action, caused by surface water coming in contact with certain minerals in the limestone rock formation. The combined flow of the three springs reaches a total of approximately 170,000 gallons every 24 hours.

The Swimming Pool and the Steam Baths at Miette Hot Springs are operated by the National Parks Department.

No. 4: Columbia Icefield—Jasper-Banff Highway—One hundred and fifty miles return. Motors leave the Lodge at 9:00 a.m. Time, approximately 7 hours. Bus fare per person, $10.00. Minimum, 5 persons. The drive follows the route of the Mount Edith Cavell Drive to a point beyond the crossing of the Astoria River, whence it continues along the valley of the Athabaska. From here the route penetrates through the very heart of the Canadian Rockies to the largest and most impressive icefield outside the Arctic Circle. With an estimated area of 110 square miles, the average elevation of this amazing icefield is between 9,000 and 10,000 feet, which because of its melting glaciers travel thousands of miles to three oceans, the Atlantic, the Pacific, and the Arctic, has been beautifully named "Mother of Rivers". Unquestionably, this is America's Greatest Scenic Drive. The highest point reached on this drive is 7,000 feet above sea level.

This trip is also operated as an afternoon and evening drive, leaving the Lodge at 2:30 p.m. It is arranged for those who wish to see the wild animals which in the evening twilight come down from the mountains and forests to the rivers and streams along the route of this great highway.

No. 5: Geikie Twilight Drive—25 miles return. Motors leave the Lodge at 7:00 p.m. Time, approximately 2 hours. Bus fare per person, $3.00. This drive, sometimes referred to as the Sleepy Hollow Drive, passes through the town of Jasper and proceeds along a beautiful road winding through a quiet valley with here and there a constrasting noisy waterfall tumbling down to join the Miette River; the route continues West following the Miette River along the base of Whistlers Mountain to Geikie.

No. 6: Maligne Canyon—Medicine Lake (automotor boat)—40 miles return. Motors leave the Lodge at 1:30 p.m. Time, approximately 4½ hours. Cost per person, $6.50. The route is over the road to Maligne Canyon and beyond for fourteen miles to the lower end of Medicine Lake; at this point passengers are taken on a scenic motor-boat cruise across the lake. A unique feature of this lake is that, although thirty feet deep during the summer, it completely disappears through invisible outlets in the Fall of the year.

No. 7: Maligne Canyon—Twelve miles return. Motors leave the Lodge at 10:00 a.m. and 2:30 p.m. Time approximately 1½ hours. Bus fare per person, $2.00. This canyon, into which the Maligne River plunges through a gorge 188 feet deep, ranks among the most extraordinary in the Canadian Rockies. The route lies over a gradually ascending roadway, from which the tourist obtains magnificent views of lordly mountains and charming vistas of the Athabaska Valley. The fish hatchery on the lower Maligne River beyond Lake Edith is also of interest.

The rates are:

Swimming Pool—when bathing suit and towel are supplied by the Department: adults, 55c; children, 25c. When bathing suit and towel are supplied by bather: adults, 25c; children, 15c. Steam and Plunge Baths—50c per person.

U.S. Government Revenue tax, when applicable on tickets or orders purchased in U.S., is additional to rates quoted above.
No. 8: Punch Bowl Falls—"A Twilight Drive"—Sixty miles return. Motors leave the Lodge at 7:00 p.m. Time, approximately 3 hours. Cost per person, $3.50. The route, after skirting the shore of Lake Mildred, follows the Athabaska River, which it crosses to join the Inter-Provincial Highway, whence it extends for miles down the Athabaska Valley to Jasper Lake, and beyond to Punch Bowl Falls and Valley. Affording a very wide variety of mountain scenery, this trip is highly recommended as an evening drive, for after sunset, animal life frequents the numerous lakes and streams in this region, and it is usually possible to see sheep, goats, deer, bears, moose, etc., from the motor-car. Return to the Lodge in ample time for dancing, bridge, etc.

29
The Maligne District is one of the most interesting in the Park, not only on account of its remarkable canyon but because of its two beautiful lakes—Medicine and Maligne. The drive to the latter, with boat trip to the head of the lake, provides unforgettable glimpses of the beauty and grandeur of a great mountain world.

Medicine Lake, about 15 miles distant from Jasper Park Lodge and reached by automobile, is five miles long and a little over half a mile wide. Leaving Medicine Lake the road follows the Maligne River, now a tumultuous greenish-white stream of considerable size. Almost ten miles south one catches the first exciting glimpse of the shining tops of the snow peaks surrounding Maligne Lake. On the latter, the outlet to the river, stands Maligne Lake Chalet. Before the Chalet and extending in a south-easterly direction for seventeen miles, with a breadth varying from two hundred yards to two miles and a shore line of some fifty miles, lies Maligne Lake, the largest glacial-fed body of water in the Canadian Rockies.

The vista from the lower end of Maligne Lake makes up a charming alpine picture, but one must take the boat trip beyond the Narrows, nine miles from the chalet, where the upper part of the lake is revealed, to realize the full glory of this masterpiece, and to understand the praise it has drawn from all mountain lovers who have been fortunate enough to see it.

Beginning with Mount Samson (a jagged peak of ten thousand feet facing the Chalet on the left), the altitude of the peaks forming the Maligne group (Mounts Charlton, Unwin, Warren, Mary Vaux, and Maligne) gradually increases until, in Mount Brazeau, it reaches even seven thousand and eighty feet.

The mountains rise precipitously from the lake and are heavily laden with snow and ice. At the south-west end of the lake, farthest from the Chalet, lies a snowfield of considerable size, and leading in a southerly direction towards the Brazeau River district, along the western base of Mount Brazeau, is a high, broad snow pass, affording easy access to this intensely interesting neighbourhood. The mountains in the Maligne Lake district are admirably suited to both ice and rock climbing, and many comparatively easy climbs can be successfully undertaken by the amateur.

The mountains, meadows, and flowers of the alplands will prove of great interest to botanist and naturalist alike. Sheep, goats, caribou, moose, and deer frequent these pastures. The Opal Hills, facing the Chalet on the east, are the home of the sheep and the goat, while the mountain sides overlooking the lake, particularly those about the southeast, are used extensively by the mountain goat as a summer pasture.

What to do at Maligne Lake

Ride or hike to Maligne Pass, to the top of the Opal Hills, or to the haunt of the caribou at the summit of Bald Mountain.

Take canoe, rowboat, or outboard motor-boat trips on the lake, also a scenic motor-boat trip to the upper end of Maligne Lake, 34 miles return.

Fish for speckled trout in Maligne Lake, Mona Lake, and Medicine Lake.

Arrangements can be made for summer skiing by applying to Fred Brewster's Rocky Mountain Camps Limited.

TONQIIN VALLEY

Among the many beauty spots in the Canadian Rockies, none is more outstanding than the Tonquin Valley and that splendid range of mountains which rises along the spiral ridge of the continent from Mount Fraser northward, on the western boundary of Jasper National Park.

Tonquin Valley lies verdant, wide and open, high up on the shoulders of the great ridge that forms the Divide at an elevation of 6,450 feet. Brilliant masses of wild flowers, the vivid greens of the coarse grass, and the dark velvety hue of pines, give the valley a smiling loveliness, which contrasts with and softens the unrelieved majesty of the black and jagged peaks. On every hand, too, are signs of wild life. Its waters are famous for splendid Rainbow trout fishing.

Near the southern end of the valley is a beautiful sheet of water three miles long and about a mile wide, divided by a rocky promontory into two parts, forming what are known as the Amethyst Lakes. Their waters are pale in color with amethyst shadows running from the sides, so the color probably due to vegetation, accentuated when seen from a height, which has given them their names.

Forming a great arc from southwest to northwest, the Ramparts stretch along the western side of the valley without a sign of vegetation to relieve their rugged majesty. At all hours the Ramparts are impressive, but they are most splendid at sundown.

This beautiful valley is second to none in its interest to the angler, the alpinist, and the photographer.

The main trail to the Tonquin Valley is in from View Point, the latter being sixteen miles from Jasper on the Cavell motor road. The route is along the northern slopes of Mount Sorrow to Verdant Creek. Crossing the latter, it traverses the base of the northeast corner of Throne Mountain and, at a distance of some four miles from the highway, crosses the Astoria River. The trail then follows the northwestern bank of the Astoria for two and one-half miles before swinging to the right. After a very short climb to open country, it crosses the alplands to the Amethyst Lakes, a distance of three and one-half miles.

Transportation Schedule for Tonquin Valley Operates Every Third Day in July and August

The Canadian National, largest railway system in North America, is the only one serving all the ten provinces of Canada. Its lines run all the way from St. John's, Newfoundland, to Vancouver and Prince Rupert on the Pacific, and into 12 of the United States. Its famous trains include "The International Limited", operating between Chicago, Toronto and Montreal, and "The Continental Limited", which runs between Montreal, Toronto and Vancouver, by way of Winnipeg, Saskatoon and Edmonton. It is your Jasper train, for Jasper is on the main line of the C.N.R. Its equipment is the last word in convenience and comfort, whether it be in sleeping car, lounge or dining car. Canadian National standards in food and service are high, too. May we have the pleasure of serving you?
