

Jasper

NATIONAL PARK

in the
Canadian
Rockies

THERE'S SOMETHING ABOUT MOUNTAINS!

It's a tonic for body and soul merely to be among them. You are carried along on the rhythm of their rolling slopes, lifted up with their soaring summits; the snow and ice and the shining lakes are eternally refreshing; the rivers and the cataracts driving impetuously to the sea quicken your pulse; and the air is like wine.

You may be stimulated to do the great things the poet William Blake says are done when men and mountains meet—to climb the highest peaks, to ride horseback or hike for miles, to get a better golf score, a bigger fish, photographs you never dreamed of taking. Free of the humdrum workaday world, here's a new lease on life for you.

But you don't have to do anything about the mountains to be invigorated and restored. You can just sit and let them do it.

Whatever your mood is, Jasper meets it.

In this booklet we can give you only a few of the highlights of this great playground in the northern Canadian Rockies. Your Canadian National agent will tell you more.

Great things were done when men met these mountains and planned Jasper Park Lodge where people have been coming for rest and recreation for more than thirty years.

The Lodge is not an hotel in the ordinary sense of the word. There is nothing ordinary about Jasper.

Instead of one building, it is a village, a self-contained community

built on the landscaped shore of an entrancing mountain lake, three miles from the railway station. The ordinary things you expect of a modern hotel are here, but they are tuned up to the holiday mood. Every detail of the Lodge's complex but smooth-running organization, from the unseen sources of power to the flowers on the dining room tables, is geared for the comfort and pleasure of honored guests.

PLANNED FOR PLEASURE...

All things work for your pleasure in Jasper Park Lodge. On this page we show you a view of the main dining room. The wide windows running its full length overlook the lake, revealing an enchanting panorama of mountains, water and sky; Mount Edith Cavell, girded and crowned with ice, mirrored in the lake; the pointed green spruce marching up the lesser slopes, the gilded clouds changing shape before your eyes. The furniture, the rugs and drapes, like the gracefully soaring stone pillars, keep the mountains in mind. And for mountain appetites and delicate palates, the great kitchens provide superb food, expertly prepared, daintily served by charming young ladies.

Wide windows frame enchanting pictures of lake and mountains.

More than 500 guests may be served at one sitting in the large yet gracious dining room.

A view of the lounge showing the unusual architectural treatment of the ceiling.

The heart of the Lodge is the Central Building, acclaimed by travellers as a marvel of 20th Century resort architecture. Its structure, over a frame of steel and concrete, is native fieldstone and cedar, in keeping with the mountains to which it belongs and with the log bungalows gathered around it between the lake and the golf course. It provides shelter, and even carpeted luxury, but the great outdoors—its reason for being—is not shut out.

Wide windows and a long skylight keep the way open and in the centre a space has been left unroofed to admit the full unfiltered sun. This is the patio, and in the middle of it, surrounded by a pavement of slate, a clear pool reflects the sky.

The fieldstone of the exterior walls pushes through to bring the outdoors into the building in piers and partitions and the immense double fireplace that is the focal point of the lounge is built of stone. The lounge, under a ceiling sloping away in both directions from the skylight apex, is spacious but the guests don't feel exposed and minimized. The furniture, made for relaxation, is grouped in blocks of color in such a way as to give the impression of smaller, separate clubrooms, comfortable for conversation or a game of cards, for reading or writing letters.

RECREATION INDOORS...

The ballroom, reached through the lounge, is designed for meetings and movies as well as dancing and, by the use of a folding partition, it may be extended for large conventions. Doors open on the patio, which leads to the snack bar, also accessible from outside the building. The self-contained tavern has its own entrance on the lakefront.

In the business wing are housed the registration desk and the hotel offices, the railway and telegraph offices, the news stand and the specialty shops. The post office, a branch bank, the beauty parlor and the barber shop are on the lower level.

Here, too, is the recreation room, equipped with facilities for all sorts of indoor games. Its floor is plastic tile in cheerful colors.

The vast and spotless kitchens occupy their own wing. Here nearly 4,000 meals are prepared every day.

The games room is bright and well equipped.

Guest cabins in their handsome setting.

A HOME OF YOUR OWN...

There are no guest rooms in the Central Building. You stay in a log cabin on one of the streets that wind around the lake. Every street is paved and every house has its garden. It would be true to say, indeed, that the residential section of the Lodge is one continuous garden. The cedar, spruce and pine of the mountains have been left, or transplanted, immaculately groomed lawns have been laid down and flower beds that are the pride of the gardener and the delight, not only of the guests, but of the deer, who have dainty appetites and who feel that they have a perfect right to munch the flowers, since they, after all, are the original inhabitants.

The cabins come in various sizes, some with as many as 16 single rooms, some with only four. You may have half a cabin, for example, with two rooms and connecting bathroom, your own

private entrance and verandah sitting room, or you may have a whole house to yourself.

The buildings are constructed of peeled logs. They are soundly built, weather-proof and equipped with all the refinements fastidious guests expect—steam heating for the cool mountain nights, hot water, electricity, telephones. The beds are comfortable and the furnishings—drapes, counterpanes, rugs, lamps, dressing tables, desks and so on—are fresh and modern.

Gracious living in a typical guest room.

FUN FOR EVERYONE...

Jasper is designed for guests of all ages, from the youngsters who like the strenuous life to the oldsters, who are satisfied to sit. There is plenty to do and plenty to look at. Some people like to see the mountains from a pony's back, some from a car; and some come to fish and some live at the golf course; some take the mountains the hard way, climbing from an alpinist's camp or on their own, for the pleasure of looking down, while others are convinced that the peaks look better from the bottom. There is tennis on four hard-surfaced courts, canoeing on the lake, swimming in the heated pool.

The Lodge's open-air swimming pool is heated.

DIVIDENDS IN DECEMBER...

To eat your cake and have it is one of mankind's most frustrating problems. The camera helps solve it. Bring your camera to Jasper—movie or still, precious lens with all the gadgets, or simple box—black and white or color—stop the joyous moment in its tracks, take it home with you, and keep it forever!

The green slopes, the rugged rock, the play of light and shadow as the clouds boil up over the ridges and sail across the sky, the glint of ice and the glimmer of new-fallen snow, the color of the lakes, the clear reflections, the animals—the timid but trusting deer and the clownish bears that come calling at the Lodge, and the wilder denizens—the wading moose and the dainty stepping sheep and goats . . . you and your friends enjoying the mountains . . . keep them all! You can have the summer all over again, your vacation will pay dividends in the winter months, if you bring your camera.

CHAMPIONSHIP COURSE...

The golf course at Jasper Park Lodge hewn out of the mountains and brought to perfection by the grooming of a quarter of a century, is rightly known as one of the great courses of the world.

It is a championship course—6,700 yards, par 71—and Golf Week, culminating in the Totem Pole Tournament, attracts high calibre players, both men and women, every year. But whatever your handicap, there's top fun on this course.

The hazards include the beautiful mountain terrain, which makes it hard to keep your eye on the ball, and sometimes a bear unconcernedly ambling over the fairway, but they do not include strenuous climbs.

The course is laid out on the British principle, with the ninth hole farthest away from the clubhouse, but an additional three holes permit a nine-hole game, taking you back to the clubhouse with no cutting in.

It's hard to keep your eye on the ball amid scenery like this.

The lake in front of the Lodge provides some of the water hazards.

FUN FOR FISHERMEN...

A few miles from the Lodge, on the lower Maligne River, the Government Fish Hatchery breeds the trout with which the mountain waters are stocked.

Maligne Lake and River, Amethyst Lakes and the Astoria in the Tonquin Valley, Jacques Lake, Medicine, Beaver, Wabasso and other lakes and brooks—there's hardly a stretch of water anywhere in Jasper that won't prove rewarding to a well-cast fly. They are well provided with Rainbow, Dolly Varden, Lake, Speckled and Eastern Brook Trout, sporty fish that lure anglers hundreds of miles every year.

It is easy to get to the fishing places. Sometimes you have the added pleasure of a short camping trip by horseback. Boats and guides are available.

A good souvenir of Jasper is the gold button for catching the season's heaviest trout at Maligne. But the silver and the bronze are worth having too, and the fun's in the fishing, anyway.

The swift waters of the Maligne River make for good sport.

ZOO WITHOUT BARS...

Jasper National Park is a wild life sanctuary. No big game hunting is allowed except with the camera, so the animals flourish and the pleasure of seeing them, natural in their native surroundings, is one of the attractions of the mountains. Some of them, like the bears and the deer, are your next-door neighbors, unofficial guests at the Lodge. To see others you have to go a little farther afield but you can usually count on seeing elk on a motor drive, get sight of the lordly moose in the woods, or on the higher slopes and alpine meadows see the sheep with the big curling horns and the fleecy white goats with the dainty little black horns and hooves. Don't forget to look for Canada's national animal, the beaver, at work on his dam.

Mountain goats prefer peaks to people.

The cubs play peek-a-boo with Jasper guests.

The elk can take tourists or leave them.

ON FOUR FEET...

Back home, in the cities, the motor car has put the horse out of business, but he still holds his own in the mountains and, while you can go most places on wheels, trail riding is the only way in, over thrilling mountain passes, to some of the valleys. Many of the guests at Jasper Park Lodge would rather ride than play golf and some manage to do both. Hundreds of miles are open to you—secluded forest pathways carpeted with fragrant pine needles, tracks up steep defiles, the Skyline Trail in the high altitudes, the broad Sawdust Trail along the Athabaska and up to the Pyramid benches—and you may ride for an hour or two or, with pack train and camping equipment, go on expeditions that last for days or weeks. One of the most popular trail trips is into the Tonquin Valley from the Edith Cavell motor road to the camp at the Amethyst Lakes, noted for trout fishing. A short but exciting one is to Maligne Canyon and along the turbulent Maligne River.

*Trail riding in the Tonquin Valley
under the beetling crags of the Ramparts.*

FIT FOR A QUEEN...

One of the grandest alpine spectacles in the world is 18-mile-long Maligne Lake, surrounded by its chain of mountains, the Queen Elizabeth Ranges. These peaks, towering a mile above the mile-high lake, rise sheer out of the water and the best way to see them is from a boat. Not until you pass the Narrows do they begin to reveal themselves in all their

splendor, as hidden glaciers come into view and the walls divide into the wings of colossal palaces of rock. You can get to Maligne and back in a day, travelling by motor and launch. And if you want to stay longer, to fish, or because you can't tear yourself from the beauty and quietness, there is a chalet for your comfort. Nowhere in the Rockies will you find better camera subjects.

SEEING IS BELIEVING...

Without question, one of the scenic wonders of the Western World is the Columbia Icefield. Statistics are impressive. Covering more than 110 square miles, it is the largest body of ice outside the Arctic Circle. Its loftiest summits tower 11,000 and 12,000 feet above sea level. Out of its maze of glaciers trickle streams that swell into mighty rivers carrying fertility to a vast terrain and journeying thousands of miles to three oceans—the Pacific, the Atlantic and the Arctic. But facts like this convey *nothing* of the splendor of the Icefield. Seeing is believing, and seeing is remembering for a lifetime.

The motor trip from Jasper Park Lodge to the chalet at the foot of the great Athabaska Glacier—where you have lunch—is a thrill in itself. Every mile of the 75 brings new revelations of massive crags and ridges and rivers of ice, splendid waterfalls and tremendous panoramas over deep-cut valleys. The smaller things of the mountains are there for your pleasure, too, as you stop at a viewpoint—wild flowers, squirrels coming to be fed, whiskeyjacks minding your business, goats scrambling down the steep shale slopes on trim black hooves, a nimbus of light around their white wool . . .

And as a climax, a trip by gaily colored snowmobile, three miles over the living ice of the Athabaska.

Snowmobiles on Athabaska Glacier of the Columbia Icefield give you a memorable experience.

Athabaska Falls, a superb mile post for a motor drive.

Stop for a breath-taking view.

JASPER FROM A MOTOR CAR...

The drive to the Icefield is the longest and the most spectacular of any in Jasper National Park, but there are other trips that should be on your list if you really want to get the most out of the mountains.

Maligne is a must. You drive from the Lodge to Medicine Lake by way of Maligne Canyon, across Medicine Lake by launch and then take to wheels again for the last lap, through the forest to the mysterious and beautiful lake known to the Indians as Chaba Imne—Great Beaver.

Both of these are all-day trips. On pages 24 and 25 you will find details of these and of shorter drives.

Everybody takes the thrilling switchback to the base of Mount Edith Cavell and the outspread wings of Angel Glacier. In the 22 miles, the cars and buses climb half a mile above the valley floor, stopping for views of the magnificent Astoria Valley. Mount Cavell, which makes you catch your breath when you first alight from the train at Jasper station, reigns over the Athabaska Valley like a majestic queen and few travellers can resist paying homage to her.

Another popular trip is to Maligne Canyon. You will have time to walk down the canyon from bridge to bridge, with view after view of the turbulent river cutting deeper and deeper into the rock, the white water now spinning and whirling, now lost in chasmed glooms, now flowing thick and slow like heavy green oil.

To get your bearings, the first trip you will probably make is the General Drive, which takes in the Canyon, Jasper Village, Pyramid and Patricia Lakes and the Government Fish Hatchery on the Maligne River. Here hundreds of thousands of eggs are hatched every year and developed into fingerlings which are then put into the Park's lakes and streams. You may see the trout in every stage of growth.

One of the longer drives takes you to the Miette Hot Springs where steam baths and a swimming pool are operated by the National Parks Department. On the way you stop at Fiddle River Canyon and Punch Bowl Falls.

The twilight drive to the Falls is designed to give visitors an opportunity to see the wild animals which come out at dusk.

SIGHTSEEING MOTOR DRIVES

NOTE:—Starting point of all sightseeing drives—Main Entrance, Jasper Park Lodge.

The Station Agent at Jasper will make arrangements for railway patrons, who are not guests of the Lodge, to be taken from the station in Jasper Park Lodge motor equipment on any of the scheduled drives, Nos. 1 to 8 inclusive. Regular rates will apply.

Departure hours and schedules for these drives have been carefully planned to permit visitors to view without haste the scenic wonders of the Park.

No. 1: General Drive—Thirty-five miles return. Motors leave the Lodge at 9:15 a.m. and 2:30 p.m. Time, approximately 3 hrs. Bus fare per person, \$4.00. This drive embraces a wide variety of valley, lake, canyon and mountain scenery and includes a visit to the Fish Hatchery and a side trip to see the bears. The route, after following the Athabaska River, skirts Lakes Annette and Edith before gradually ascending the roadway to Maligne Canyon. From this vantage point the tourist stands in awe before the snow-capped grandeur of lordly mountains and the mighty sweep of the Athabaska Valley, which loses itself in endless vistas of alpine beauty. Maligne Canyon, a tremendous gorge descending to a depth of 188 feet, and remarkable for its potholes, is a never-ending source of wonder and amazement. On the return journey the Athabaska River is followed to its junction with the Maligne River, where a stop is made to view the Government Fish Hatchery; from here the route continues over the Athabaska River bridge to join the Main Highway to Jasper, where a glimpse is obtained of "the Raven", one of the largest totem poles in existence. Continuing along to the foot of Pyramid Mountain and passing en route Lakes Patricia and Pyramid, the drive again runs through Jasper before terminating at the Lodge.

No. 2: Glacier of the Angel (Mount Edith Cavell)—Forty-four miles return. Motors leave the Lodge at 9:15 a.m. and 2:30 p.m. Time, approximately 3 hours. Bus fare per person, \$4.00. Offering excellent motoring, this drive by a course of wide-sweeping switchbacks reaches an altitude of nearly 2,000 feet above the floor of the valley and gives the tourist an ever-changing series of strikingly beautiful panoramas. The highway, terminating at the foot of the famous glacier affords an excellent view of this vast field of living ice. *The highest point reached on this drive is 6,300 feet above sea level.* Light lunches and refreshments can be obtained at the Tea Room near the foot of the Glacier.

No. 3: Miette Hot Springs and Fiddle River Canyon—Eighty miles return. Motors leave the Lodge at 8:45 a.m. Time, approximately 4 hours. Bus fare per person, \$6.00. The route, after skirting the shore of Lake Mildred, follows the Athabaska River, which it crosses to join the Inter-Provincial Highway, whence it extends for miles down the Athabaska Valley to Jasper Lake and beyond to Punch Bowl Falls. A short stop is made to view this unique waterfall and then the trip continues along the rim of the Fiddle River Canyon for another eleven miles before finally reaching the famous Miette Hot Springs. At this point, hot sulphur spring water, varying in temperature from 79 to 128 degrees F., comes boiling out of the mountain side. Motors will remain long enough to permit bathing in the pool. *The highest point on this drive is 4,510 feet above sea level.*

The Miette Hot Springs consist of three main springs, which issue from the rocks along the banks of Sulphur Creek. The springs, non-volcanic in nature, owe their heat to chemical action, caused by surface water coming in contact with certain minerals in the limestone rock formation. The combined flow of the three springs reaches a total of approximately 170,000 gallons every 24 hours.

The Swimming Pool and the Steam Baths at Miette Hot Springs are operated by the National Parks Department.

The rates are:

Swimming pool—when bathing suit and towel are supplied by the Department: adults, 35c; children, 25c. When bathing suit and towel are supplied by bather: adults, 25c; children, 15c. Steam and Plunge Baths—50c per person.

No. 4: Columbia Icefield (Jasper-Banff Highway)—One hundred and fifty miles return. Motors leave the Lodge at 9:00 a.m. Time, approximately 7 hours. Bus fare per person, \$10.00. Minimum, 5 persons. The drive follows the route of the Mount Edith Cavell Drive to a point beyond the crossing of the Astoria River, whence it continues along the valley of the Athabaska. From here the route penetrates through the very heart of the Canadian Rockies to the largest and most impressive icefield outside the Arctic Circle. With an estimated area of 110 square miles, the average elevation of this amazing icefield is between 9,000 and 10,000 feet, which, because the waters of its melting glaciers travel thousands of miles to three oceans—the Atlantic, the Pacific and the Arctic—has been beautifully named "Mother of Rivers". **Unquestionably, this is America's Greatest Scenic drive.** *The highest point reached on this drive is 7,000 feet above sea level.*

This trip is also operated as an afternoon and evening drive, leaving the Lodge at 2:30 p.m. It is arranged for those who wish to see the wild animals which in the evening twilight come down from the mountains and forests to the rivers and streams along the route of this great highway.

No. 6: Maligne Canyon—Medicine Lake (auto-motor boat)—40 miles return. Motors leave the Lodge at 1:30 p.m. Time, approximately 4½ hours. Cost per person, \$6.50. The route is over the road to Maligne Canyon and beyond for fourteen miles to the lower end of Medicine Lake; at this point passengers are taken on a scenic motor-boat cruise across the lake. A unique feature of this lake is that, although thirty feet deep during the summer, it completely disappears through invisible outlets in the fall of the year.

No. 7: Maligne Canyon—Twelve miles return. Motors leave the Lodge at 10:00 a.m. and 2:30 p.m. Time, approximately 1½ hours. Bus fare per person, \$2.00. This canyon, into which the Maligne River plunges through a gorge 188 feet deep, ranks among the most extraordinary in the Canadian Rockies. The route lies over a gradually ascending roadway from which the tourist obtains magnificent views of lordly mountains and charming vistas of the Athabaska Valley. The Fish Hatchery on the lower Maligne River beyond Lake Edith is also of interest.

No. 8: Punch Bowl Falls—"A Twilight Drive"—Sixty miles return. Motors leave the Lodge at 7:00 p.m. Time, approximately 3 hours. Cost per person \$3.50. The route, after skirting the shore of Lake Mildred, follows the Athabaska River, which it crosses to join the Inter-Provincial Highway, whence it extends for miles down the Athabaska Valley to Jasper Lake and beyond to Punch Bowl Falls and Valley. Affording a very wide variety of mountain scenery, this trip is highly recommended as an evening drive. Return to the Lodge in ample time for dancing, bridge, etc.

U.S. Government Revenue tax, when applicable on tickets or orders purchased in U.S., is additional to rates quoted above.

SPECIAL MOTOR SERVICES

THE MALIGNE DISTRICT

Official Outfitters—Fred Brewster's Rocky Mountain Camps Limited
Office—Jasper Park Lodge

In advertising the following services the Canadian National Railways act only in the capacity of agents; therefore, while highly recommending the outfitters to guests, they do not assume any legal responsibility whatsoever relative to the services provided.

There is no more fascinating section of the Canadian Rockies than the Maligne area which lies southeast of Jasper.

Maligne Lake itself, the largest glacial lake in the Rockies, a mile above sea level and surrounded by ice-crowned mountain peaks towering another mile into the sky, is one of the greatest scenic wonders of North America. It is 17 miles long, with 50 miles of shoreline, and although the view from the chalet, at the lower end near the outlet to the river, is impressive, the full splendor of the lake does not reveal itself until you take the boat trip beyond the Narrows, 11 miles out. You will never pack more wonder into three hours.

It is a glorious company of peaks that rises straight up from the water. Most of the mountains in the Queen Elizabeth Ranges reach an altitude of more than 10,000 feet—Sampson, Maligne, Warren on the east, Unwin, Charlton, Llysyfran and Mary Vaux on the west—and Brazeau, at the far end, tops 11,000.

As your motor boat pushes out into the lake, more and more beauty and majesty unfold. The mountains become more massive, disclosing unexpected bays and chasms, waterfalls and icefalls, wide glaciers and snowfields of dazzling white. Ridges sharp-edged against the sky, too steep-pitched to hold vegetation, are contrasted with rolling slopes rich in green forests.

It is all as fresh and unspoiled as it was in the first days of creation. And yet there is a place here for man. He may feel like tiptoeing in awe, yet he comes here to enjoy himself. The mountains of the Maligne district, the Opal Hills facing the chalet on the east, Bald Mountain, the meadows and the alplands, are full of treasure for the trail rider, the climber and the hiker, the botanist and the student of animal life. The big game hunter—with the camera—is sure of a full bag of mountain sheep, goats, moose, deer and caribou.

Much of the enjoyment of holidays in the mountains depends on good food and a good bed. At Maligne Lake Chalet you get both. When you come indoors, you are welcomed by an open fire in the comfortable lounge, and when you sit down at the table— Well, it wouldn't be true to say that when you go home you'll talk as much about the meals as you do about the lake and the mountains, but almost!

WHERE THE FISH REALLY ARE

"The only lake in the world with nothing in it but trout!" is the way one angler describes Maligne. He comes 3,000 miles just to fish for the fighters in these sparkling mountain waters and everybody agrees with him that they are "terrifically lively!"

Nor is Maligne Lake all. Only a step from the chalet in the Maligne River, is one of the finest casting pools in Canada, all the more attractive because it is clear of trees. There is fishing, too, in Lorraine Lake, a mile and a quarter up the Shovel Pass Trail, and in Mona Lake, two miles from the chalet.

Without additional expense, fishermen in these parts qualify for membership in the Maligne River Anglers' Club by catching a speckled trout weighing not less than a pound. They receive a bronze button. The member who catches the heaviest trout of the season is awarded the gold button, emblematic of the Club Championship, and the runner-up gets a silver button. A regulation fly rod weighing not more than six ounces must be used.

U.S. Government Revenue tax, when applicable on tickets or orders purchased in U.S., is additional to rates quoted above.

TRIPS TO MALIGNE LAKE

A few years ago, the only way to get into Maligne was by horseback riding or hiking. Now the lake is reached by motor car on the highway to Medicine Lake, 15 miles from Jasper Park Lodge. Medicine Lake is crossed by motor boat, a trip of five miles. Maligne is 12 miles farther on, the road following the tumultuous Maligne River through the forest and across the mountain meadows. Before long, the travellers get their first exciting glimpse of the snow crowns of the Queen Elizabeth Ranges encircling the great lake.

One day trip. Operates twice daily. Leave Jasper Park Lodge at 8:00 a.m. and at 10:00 a.m., motor to Medicine Lake, take motor boat across the lake and proceed by automobile to Maligne Lake, arriving two and one-half hours later. The return journey is over the same route, leaving Maligne Lake Chalet at 2:00 p.m. and at 4:00 p.m. The trip from the Lodge to the upper end of Maligne Lake is 100 miles return. A box luncheon, with thermos of tea or coffee, is given to guests on the 8:00 a.m. trip since they are on the boat during the noon hour. A hot meal is served at the Chalet for those taking the 10:00 a.m. trip. Cost: \$22.00 per person, includes transportation, luncheon, afternoon tea and scenic motor boat trip on Maligne Lake.

Overnight trip. Leave Jasper Park Lodge at 8:00 a.m. and 10:00 a.m., arriving two and one-half hours later. TONQUIN VALLEY

One of the most outstanding beauty spots in the Canadian Rockies is the Tonquin Valley and the splendid range of mountains, the Ramparts, rising along the spinal ridge of the continent from Mount Fraser northward, on the western boundary of Jasper National Park where it adjoins Mount Robson Provincial Park in British Columbia.

Tonquin Valley lies verdant, wide and open, high up on the shoulders of the Divide at an elevation of 6,450 feet. Its shining waters, the vivid green of its coarse grasses, the darker greens of the pines and the brilliance of its wildflowers, contrasting with

the stark black majesty of the sky-piercing peaks, make this beautiful valley a picture long to be remembered.

Near the southern end of the valley lies a beautiful sheet of water, three miles long and about a mile wide, divided by a rocky promontory into two parts, and known as the Amethyst Lakes. The name comes from the tint of the water near the shore, probably caused by vegetation. But whatever causes it, the lakes are sheer enchantment, especially when seen from a height.

And for fishermen, looking for the sport of fighting rainbows, it has still more magic.

To get into the Tonquin, you go by automobile more than half way, then on horseback or on foot. Sixteen miles from Jasper, on the road to Mount Edith Cavell, bring you to View Point. The trail in from there, ten miles to the chalet, is along the northern slope of Mount Sorrow, looking across the Astoria Valley to Mount Franchere and forward to Old Horn and the radiant Throne. After crossing Verdant Creek, the trail traverses the base of the Throne, crosses the Astoria, follows this river for two and a half miles and then, after a short climb to open country, crosses the alplands to the Amethyst Lakes. Total distance from Jasper, 26 miles.
