

PACIFIC RIM NATIONAL PARK RESERVE WEST COAST TRAIL 2016 HIKER PREPARATION GUIDE

As one of 46 national parks and national park reserves across the country, Pacific Rim National Park Reserve protects for all time a significant example of Canada's natural and cultural heritage to encourage public understanding, appreciation and enjoyment for present and future generations.

Backed by the Insular Mountain Range of Vancouver Island and facing the open Pacific Ocean, Pacific Rim National Park Reserve (PRNPR) represents and protects both the near shore waters and the coastal lowland forests of Canada's west coast. PRNPR is composed of three units; Long Beach, the Broken Group Islands, and the West Coast Trail (WCT).

The 75 kilometre (47 mile) WCT is part of the ancient paths and paddling routes used for trade and travel by First Nations. Huu-ay-aht, Ditidaht, and Pacheedaht villages and camps were well established before the foreign sailing ships started to arrive off this coast over 200 years ago.

As the years passed and the number of ships sailing the Juan de Fuca Strait increased, so too

did the number of shipwrecks and drownings along the coast. In time, the coastline became known as "the Graveyard of the Pacific".

To aid sailors navigating the shoals, currents, thick fogs, and winter storms of the west coast, the government of Canada established the Cape Beale Lighthouse in 1873 and the Carmanah Lighthouse in 1891. By the time the Carmanah Lighthouse was operational, a telegraph line had been strung through the trails and traditional territories of the Huu-ay-aht, Ditidaht, and Pacheedaht First Nations to establish communications between the lighthouses and Victoria.

While the lights and lines helped, they were not enough to stop the number of shipwrecks from growing. In 1906, when the steamship Valencia went down with the horrific loss of more than 125 lives, the public outcry prompted the Canadian government into further action: Pachena Lighthouse was constructed in 1907; lifesaving stations were established at Cloo-ose and Bamfield; the telegraph route was upgraded to become the Dominion Life Saving Trail, complete with six shelters stocked with provisions for both shipwreck victims and their rescuers.

As navigation technology improved, many of these measures became obsolete and were abandoned. In 1970, Pacific Rim National Park Reserve was established and in 1973, the lifesaving trail was included in the national park reserve as a recreational hiking trail, beginning a new chapter in its history.

Today, backpackers know the trail as the West Coast Trail and come to see the beauty, experience the challenges, and walk the path of those that came before them. However, this rugged hike is not for everyone.

Pacific Rim National Park Reserve of Canada

All hikers in your group must be prepared for:

- 5-8 days in the back country. This may vary depending if you enter/exit at Nitinat
- rugged, uneven ground: it takes approximately 2 days to travel the southern 22km of the trail between Gordon River and Walbran Creek.
- slippery conditions on muddy trails, wooden surfaces, boulders and rocky shorelines.
- wading rivers, climbing ladders, using cable cars, following an irregular trail, negotiating steep slopes and earth slumps.
- damaged structures: trail maintenance is ongoing.
- a temperate rainforest climate. Rainfall averages 330 cm (130 in.) per year with heavy rainfall possible at any time, and frequent in May and June. Floodwaters can delay hikers for days. Fog is common, especially in July and August. The average summer temperature is 14° Celsius (57° F.). Incidents of hypothermia and physical injury increase significantly during prolonged wet periods.
- accidents and injuries: it may take more than 24 hours for help to arrive.

The West Coast Trail is for hikers who are:

- experienced in overnight backpacking. Experienced group leaders cannot compensate for inexperienced hikers.
- able to hike long distances through rough terrain with a full backpack (recurring knee, back or ankle injuries are often aggravated on the trail).
- prepared to have a wilderness experience.
- able to wait if conditions warrant delays.
- over twelve years of age (Parks Canada will not issue a permit to children under 6).

Pets and firearms are not permitted on the trail.

PLANNING YOUR TRIP

The WCT is open from May 1st to September 30th.

Prolonged periods of heavy rain, strong winds, high tides, large waves and short days necessitate closing the trail from October 1st to April 30th.

Maximum group size is 10. The only exceptions are school groups starting the trail between May 1st - 20th and September 19th to 25th. Up to 18 hikers may be in these school groups.

Entry and exit points: Pachena Bay (north), Gordon River (south) and Nitinat (mid-point).

Entry or exit at any other point is not permitted unless an evacuation is required. (Reference map located on page 15). Anyone interested in travelling the Nitinat Triangle or Cape Beale Headlands is required to contact the WCT Information Centre for information and permits.

Ditidaht First Nation's Comfort Tenting:

The Ditidaht First Nation are offering a unique tenting opportunity at Tsuquadra, on their traditional lands at IR2. These 4 person tents are complete with a wood burning stove, wood floors, cots, and an outdoor deck. Please refer to the Contact Information section on page 13.

WCT RESERVATION SERVICE & PERMITS

All people using the WCT require a park permit.

Day users require a Park Entry Pass; day users are persons entering and exiting from the trail on the same day at the same location.

Overnight Users require a WCT Overnight Use Permit.

NEW FOR 2016: All spaces on the WCT are reservable. No spaces are set aside for standby hikers. Unused reservable spaces will be available to standby hikers.

To avoid overcrowding and reduce environmental damage, Parks Canada limits the number of overnight hikers to 75 per day.

Pachena Bay, Gordon River and Nitinat entries:

Hikers can access the trail by either making a reservation or registering on the standby list.

For 2016, reservations can be made as of January 11th for the entire hiking season: May 1st to September 30th.

Standby List:

- Hikers without reservations wishing to start on either the Pachena Bay or Gordon River trailhead, can register on a standby list in person or by calling the trailheads directly. Registering on the standby list does not guarantee a same day or next day start.
- As all spaces on the West Coast Trail are reservable, wait times for standby hikers will vary and can be up to several days.

Reservations for Gordon River, Pachena Bay and Nitinat entries are available online and through the Parks Canada Call Centre up to 2 days prior to departure.

| Reservation Service | Online | Call Centre |
|---|-------------------------------|---|
| Reservation Service is available January 11th - September 28th, 2016 - 7 days a week. | 24 hours a day | 8 a.m. - 6 p.m., PST |
| Contact | reservation.parkscanada.gc.ca | 1-877-737-3783 (Canada & USA) 519-826-5391 (International) |

When making a reservation, have the following ready:

- preferred start dates - first choice and alternate dates;
- the number of hikers in your group;
- hiker names and emergency contacts;
- means of payment: Visa, MasterCard or American Express;
- the access point you plan to start from - Pachena Bay, Gordon River or Nitinat; and
- an email address to send confirmation and orientation information.

FEES

An overnight use fee is required of all overnight users of the WCT. These fees help support the cost of operating the WCT (e.g. rescue services, information services, construction of ladders, cable cars, boardwalks and bridges).

Ferry fees pay for passage across the Gordon River and Nitinat Narrows, a service provided by the Ditidaht and Pacheedaht First Nations throughout the hiking season. If entering or exiting the trail from the Nitinat Narrows the Nitinat Water Taxi fee is \$62.50 per person one way (cash only), for travel up the lake. Hikers planning to enter or exit the trail at Nitinat can pay this fee directly to the water taxi operator.

A reservation fee is applicable when making a reservation through the Parks Canada Reservation Service.

| All WCT Fees are per person *Fees incurred may vary depending on your travel route | |
|---|----------|
| Reservation Fee | \$24.50 |
| WCT Overnight Use Fee | \$127.50 |
| Ferry Fee Gordon River | \$16.00 |
| Ferry Fee Nitinat Narrows | \$16.00 |
| Water Taxi Fee Nitinat Village - Nitinat Narrows (one way) | \$62.50 |

Example of Fees

| | A reserved hiker going between Pachena Bay and Gordon River | A hiker going between Nitinat Village and Gordon River |
|---|--|---|
| Reservation Fee | \$24.50 | \$24.50 |
| WCT Overnight Use Fee | \$127.50 | \$127.50 |
| Ferry Fee Gordon River | \$16.00 | \$16.00 |
| Ferry Fee Nitinat Narrows | \$16.00 | \$16.00 |
| Water Taxi Fee Nitinat Village - Nitinat Narrows (one way) | | \$62.50 |
| TOTAL | \$184.00 | \$246.50 |

- All fees are listed per person and in Canadian funds.
- Hikers making a reservation through the Parks Canada Reservation System pay the applicable fees at the time of their reservation, except for any Nitinat Water Taxi fees.
- Pachena Bay and Gordon River standby hikers pay the applicable fees at the WCT Information Centre where cash, traveller's cheques, VISA, MasterCard, American Express debit cards and American currency are accepted.
- Visit our website or contact the national park for an up-to-date fee schedule prior to your departure. Fees may change at any time.

CANCELLATION POLICY

- **Reservation Fee:** non-refundable.
- **Ferry Fees:** refunds for unused ferry services are available at the WCT Information Centres and Ditidaht First Nation Visitor Centre
- **WCT Overnight Use Fee:** cancellations made 21 days or more before the hike start date are eligible for refund. A cancellation fee of \$11.00 (web) or \$13.50 (voice) per booking applies.

TRANSPORTATION TO AND FROM THE WEST COAST TRAIL

Parks Canada provides this listing for the convenience of hikers. It is not intended as a testimonial for the services. Hikers make their own arrangements for transportation services. Refer to the map and telephone numbers provided on pages 13 - 15. Reservations are recommended.

Vehicles can be left at a number of locations near the access points. Ask for details once you arrive at the WCT Information Centres or the Ditidaht First Nation Visitor Centre.

To Pachena Bay WCT Information Centre, 5 km south of Bamfield:

- Drive on gravel logging roads from Port Alberni (2 hrs) or Duncan (3 hrs).
- Bus from Victoria (5.5 hrs), Nanaimo (3.5 hrs), with the West Coast Trail Express.
- Ferry from Port Alberni (passengers only no vehicles) (4.5 hrs) with Lady Rose Marine Services.

To Ditidaht First Nation Visitor Centre in Nitinat Village, 80 kms southeast of Port Alberni:

- Drive on gravel logging roads from Port Alberni (2 hrs) or Duncan (2.5 hrs).
- See the Ditidaht First Nation website for detailed directions to Nitinat Village (refer to the contact information section on page 13).

Between Nitinat Village and Nitinat Narrows:

The Nitinat Water Taxi makes scheduled trips between Nitinat Village, at the head of of Nitinat Lake, and Nitinat Narrows on the West Coast Trail:

- 8:30 am departure from the Nitinat Village Dock to Nitinat Narrows on the West Coast Trail.

- 5:30 pm departure from Nitinat Narrows on the West Coast Trail to Nitinat Village Dock.

Nitinat Village is a small, remote community; an overnight stay may be required. There are overnight accommodation options at the Nitinat Motel or campground.

To Gordon River WCT Information Centre, 5 km north of Port Renfrew:

- Drive from Victoria via Highway 14 (2 hrs).
- Bus from Victoria (2 hrs) with West Coast Trail Express.

Between Port Renfrew, Nitinat Village and Bamfield by road:

- Bus (3 hrs) with West Coast Trail Express.

MAKE A TRIP PLAN

Before you leave for the trail, write a trip plan: leave it with a responsible person (e.g. friend or family member). Detail where you are going, with whom, when you plan to return, and what to do if you do not return as planned. A park permit does not fulfil this role.

AT THE ACCESS POINTS

There are some basic tourism services at, or near, all access points. These include accommodations, campgrounds, phones, fuel, some groceries, and food services. Nitinat does not offer fuel services, and there are no banking services in the villages of Bamfield, Port Renfrew, or Nitinat.

ORIENTATION SESSION

All overnight users of the West Coast Trail participate in an orientation session and obtain a park permit.

The purpose of the orientation process is to:

- provide information about safety issues in order to reduce the number of hiker injuries.
- reduce environmental impacts by providing back country etiquette information.
- provide information about current issues and trail conditions.
- provide a brief history of the West Coast Trail and its place in Canada's history.
- issue park permits and collect fees.

Bring your reservation confirmation information to the orientation.

Hikers with reservations will be issued a waterproof Pacific Rim National Park Reserve West Coast Trail Map when they register on the trail.

Hikers who have not made a reservation can purchase the map during their orientation process for \$8.50.

Orientations at Gordon River/Pachena Bay:

- Orientations are offered at 10:00 am and 2:00 pm daily between May 1st and September 30th from both WCT Information Centres.
- Reservations are not necessary for the orientation process at the Gordon River or Pachena Bay trailheads.
- The orientation process takes about one hour.
- Hikers may register and participate in an orientation session as early as 2:00 pm the day before their hike starts.
- We strongly recommend hikers start the trail a minimum of 5 hours before sunset to ensure a camping area is reached before nightfall.
- **Hiking from Gordon River to Camper Bay**

in one day is not advisable. Plan to camp at Thrasher Cove. Statistics show that most accidents occur later in the day in this area.

Orientations at Nitinat Village:

- Hikers accessing the trail at Nitinat will go through the orientation process at the Ditidaht First Nation Visitor Centre in Nitinat Village.
- Orientations are offered at 8:00 am and 5:00 pm by appointment only.
- Hikers must schedule their orientation process in advance as this office is only open by request. Requests can be made as much as one week in advance but no less than 24 hours in advance of the planned arrival time.
- Hikers can email the Ditidaht First Nation Visitor Centre and Store at jkthompson@ditidaht.ca to book their orientation.

At the end of your hike, register your party off the WCT. Return one copy of the park permit to a WCT Information Centre or the Ditidaht First Nation Visitor Centre. Permits can be placed in the marked drop box if the facilities are closed.

PROTECTING, PRESENTING AND PRESERVING

Parks Canada is responsible for ensuring the sustainability and integrity of the natural and cultural resources in its care. Everyone can help to protect the ecological integrity and cultural heritage of the West Coast Trail. Working with others, we strive to provide Canadians and international visitors with the opportunity to learn about Canada's heritage.

The entire national park reserve falls within the traditional territory of the Nuuchah-nulth, people who have inhabited Vancouver Island's west coast for countless generations. The Nuuchah-nulth comprises many individual nations. The West Coast Trail lies within the traditional territory of the Huu-ay-aht, Ditidaht and Pacheedaht First Nations.

Parks Canada, the Huu-ay-aht, Ditidaht and Pacheedaht First Nations work collaboratively to ensure protection, preservation and presentation of these lands. Respectful behaviour from all hikers will lead to a safe and rewarding experience and contribute to a healthy, functioning ecosystem.

BACK COUNTRY ETIQUETTE: LOW IMPACT CAMPING

It is an offence under the Canada National Parks Act to collect, remove, destroy or deface any natural or cultural heritage resource within national park reserve boundaries. This includes defacing artifacts, cutting trees for firewood or makeshift shelters and collecting or removing marine life, shellfish, fossils, artifacts, plants, etc. Leave Pacific Rim National Park Reserve in as good or better condition than you found it.

Use a stove and minimize fires. Do not rely on fires for cooking, staying warm or drying out. Small driftwood fires are permitted below the high tide line on beaches: fires are not permitted in the forest. Use only driftwood (no thicker than your wrist): do not cut vegetation, trees or other plants, and keep fires away from beach logs. Make sure fires have burned out, or are extinguished with water, and dismantled. No trace of the fire should be left.

Support safe water: use outhouses. Outhouses are available at all designated camping areas. If you are stuck between outhouses, dig a hole 20 centimetres (7 inch) deep, at least 30 metres (100 feet or three bus lengths) away from water sources and well off the trail. Bury the human waste. Dispose of toilet paper in outhouses or pack it out. Pack out all feminine hygiene products.

Camp on the beach above the high-tide line to reduce the impact and soil compaction in vegetated areas.

Ensure all washing (bodies, clothes, and dishes) is carried out in the ocean or at the mouth of rivers. Dispose of any dirty water at least 30 metres from drinking water sources. Use only biodegradable soap.

Your actions can kill wildlife and endanger hikers. Use metal food lockers to store wildlife attractants if they are available, and if they are not available hang your food, garbage and toiletries out of reach of animals and away from tents.

Items should be a minimum of 4 metres (10 feet) off the ground, 3 metres (12 feet) from the trunk of the tree and 3 metres down from the limb.

Pack it in, pack it out. There are no garbage cans on the WCT: everything you pack in you must pack out, including orange peels, feminine hygiene products, tarps, ropes, and wet clothes. Before arriving at the trail, minimize packaging to reduce garbage and weight.

Fresh water fishing is not permitted on the WCT.

Salt water fishing is permitted on the WCT. Carry the appropriate licenses (Tidal Waters Sports Fishing License) and follow the regulations and closures.

First Nation reserves and treaty settlement lands located along the WCT are private property. The First Nations welcome you and ask that you stay on the main trail and obey all signs. Patrol cabins are not for hikers.

Respect other visitors and protect the quality of their experience.

A SAFE AND ENJOYABLE TRIP

Travel in the backcountry requires special attention to safety. Hazards are numerous.

65 to 75 seriously injured hikers are evacuated from the WCT every season.

Approximately 200 hikers per year sustain minor injuries, and manage to limp off the trail. The most significant contributing factors leading to injury are a combination of the weather, which increases the difficulty of the rough terrain, and the level of physical preparation of hikers.

Based on these factors, we encourage hikers to:

- prepare themselves physically for the hike;
- keep packs as light as possible and be prepared to carry for 6-8 days;
- travel slowly and cautiously over slippery terrain (stay focused);
- stay hydrated;
- set reasonable travel expectations each day for your abilities; and
- use hiking pole(s).

Ensure that your party takes time to enjoy the experience. Many accidents and injuries occur when hikers are rushing, not paying attention to terrain, tired, or hiking too late in the day. **Respect the capabilities of the slowest group member.** Take adequate rest breaks, and **keep the group together. Never split up the group.**

During wet, rainy weather, occurrences of physical injury and hypothermia increase significantly. Hypothermia is the lowering of the core body temperature; if not stopped, symptoms can progress from slurred speech and lack of co-ordination to uncontrolled shivering to loss of consciousness and finally heart failure. **Ensure your party is warm, dry and well fed.**

Assume all walking surfaces are slippery at all times, especially during damp or rainy periods. Slippery conditions on muddy trails, wooden surfaces, boulders and rocky shorelines are a major hazard. Hiking too fast, fatigue, poor light conditions, improperly

balanced or heavy packs and inadequate footwear all contribute to injuries and accidents.

Bridges and Ladders: Special care should be taken on any built structure. No more than one person should be on a ladder, and no more than two people on a bridge at one time. Large groups should allow extra time to progress past ladder sections.

Cable Cars: Keep your fingers, hands and hair away from the pulleys. Only two people (and their gear) per cable car and platform. Platforms can be very slippery; use caution. To enter, use the rope to pull the car towards you. Hold the car steady while you load your gear, then carefully enter and stay seated. When crossing the river, let the rope go and gravity will move the car down the rope to the middle of the river. You must then pull the rope hand-over-hand to reach the platform on the other side. Hold the rope so that the car stays flush with the platform, and carefully unload. Do not bounce or sway the car. **Never bring it on, or tie it to, the platform.**

Hikers must wade across some creeks and rivers. Be prepared to wait for flood waters to subside; this may take one or more days. Wait for safe water levels and low tides, undo your pack hip-belt (if you fall, you can slip out of your pack more easily) and wear running shoes or sandals. Use caution when crossing surge channels.

High tides can make beach walking very difficult and sometimes impossible. Carefully follow both the tide tables (Tofino) and WCT map to avoid being trapped or cut off. Watch also for large ocean waves and swells. Consider the overnight high tide when pitching your tent on the beach.

Tsunamis: dangerous as they are, they do not happen very often. If the ground shakes under your feet, or you see the waterline quickly recede from the shore, a tsunami may be coming. **Move to higher ground.** Follow tsunami evacuation routes.

Drinking water is available from most rivers and creeks. Collect water upstream, then purify, boil or filter it.

From May to October, the WCT is closed to harvesting and consumption of all bivalve shellfish (clams, mussels, & oysters) due to regular occurrences of Paralytic Shellfish Poisoning (PSP). PSP can result in serious illness or death.

HOW TO CONTACT HELP IN AN EMERGENCY

In an emergency, contact lighthouse keepers, First Nation trail guardians, ferry operators or other park staff; they will notify authorities and assist you until more help arrives.

Cell phone coverage on the WCT is extremely unreliable; do not expect cell phones signals on all sections of the WCT.

Devices such as “SPOT”, “InReach”, satellite phones, and VHF radios are often the only devices that will work on the WCT. Be familiar with your device and how it operates. Make sure to let your contact person know how to contact Parks Canada Emergency Response in case of an emergency.

Each hiking party is responsible for assisting injured members of their party. If you are injured,

- **but can hike and don't need medical attention,** try to get off the trail at the nearest exit with assistance of your party or other hikers; you should not continue hiking in the hope that your condition will improve.
- **and cannot hike** to the nearest exit or you need medical attention, follow the instructions in the West Coast Trail Safety Information sheet that is issued to all parties with the park permit. Parks Canada staff are responsible for patrolling the WCT and assisting injured hikers. The majority of evacuations are done by park public safety specialists by boat, though a serious or complex evacuation may require assistance from other agencies.

Parks Canada staff will evacuate injured hikers to the nearest exit point, ambulance or medical facility. This is not necessarily the most convenient location for the injured hiker.

Minor complaints such as blisters, sore feet, fatigue and lack of food do not warrant evacuation.

LIVING WITH WILDLIFE

Black bears, wolves and cougars use the beaches and trails. All wild animals are potentially dangerous. **To avoid a dangerous encounter with wildlife stay alert and keep these points in mind:**

- Keep food and garbage inaccessible to wildlife; they are attractants.
- Keep children close to you.
- If you encounter a predator, face the animal and retreat slowly, giving them an avenue of escape; do not run or play dead.
- In the unlikely event of an attack, try to appear big and aggressive: shout, wave a stick or throw rocks.
- Knowledge, alertness and a clean campsite can help avoid a dangerous encounter. Never approach a predator. Always give them an avenue of escape.
- If you encounter a predator, **do not run** - it may trigger an attack. Follow the recommendations in *You are in Black Bear Country* and *You are in Wolf and Cougar Country*.
- Read the West Coast Trail bulletin and talk to the Parks Canada staff at the WCT Information Centres if you have questions.

EQUIPMENT

To enjoy your WCT experience you must be comfortable; use quality, lightweight equipment. Your pack should weigh a maximum of 1/4 (women) to 1/3 (men) of your body weight. Reassess the content of your pack if it is heavier than this.

- **Sturdy boots:** High quality hiking boots with good ankle and arch support are required. Soft rubber soles provide better traction on slippery surfaces than hard soles. Do not break in new boots on this hike. Sandals or running shoes are good for wearing around camp and for river crossings.
- **Rainwear and warm clothing:** Bring a durable waterproof jacket and pants; under-layers that keep you warm when wet and are quick to dry, as well as a warm hat and gloves.
- **Lightweight backpacking stove and fuel.**
- **High energy, lightweight, quick-cooking food.**
- **Backpacks** require a padded hip belt and should be lined with plastic bags.
- **A tent with a waterproof fly is absolutely necessary.**
- **Sleeping bag:** Synthetic fills are preferable, as down bags lose warmth when wet. Pack sleeping bags in waterproof bags and carry them inside the backpack.
- **Closed-cell foam sleeping pad.**
- The latest edition of the **Pacific Rim National Park Reserve West Coast Trail Map**, tide tables (Tofino) and a watch for use with tide tables.
- **First aid kit** that includes treatments for blisters and insect stings.
- **15 meters (50 ft) of synthetic rope** per group to hang food, use as clothes-line, etc.
- **Cell phones**

- **Also consider:**
 - an emergency signalling device
 - cash for unexpected emergencies (up to \$100 per person is recommended)
 - water container, water purification equipment
 - toilet paper
 - zip-lock type plastic bags for keeping permits and other small items dry
 - lighter or waterproof matches
 - fire starter
 - garbage bags to pack out all your refuse
 - gaiters
 - sun screen
 - lip screen
 - sunglasses
 - hand sanitizer
 - toiletries
 - flashlight
 - weather radio
 - repair kits for equipment
 - lightweight shoes for camp and river crossings
 - cooking and eating utensils
 - hiking staff or collapsible poles

Do not bring an axe, firearms or pets!
