Parks Canada: I-888-773-8888 • parkscanada.gc.ca | Parcs Québec: I-800-665-6527 • sepaq.com

### Open House day on July 1

### Be our guest!

Marine Environment Discovery Centre 41, rue des Pilotes Les Escoumins (p.18)

Cap de Bon-Désir Interpretation and Observation Centre 13, chemin du Cap-de-Bon-Désir Les Bergeronnes (p.18)

Pointe-Noire Interpretation and Observation Centre 141, route 138 Baie-Sainte-Catherine (p. 14)

### **OUR MANDATE**

On behalf of the people of Canada, we protect and present nationally significant examples of Canada's natural and cultural heritage, and foster public understanding, appreciation and enjoyment in ways that ensure their ecological and commemorative integrity for present and future generations.

### A WORD FROM THE MINISTER

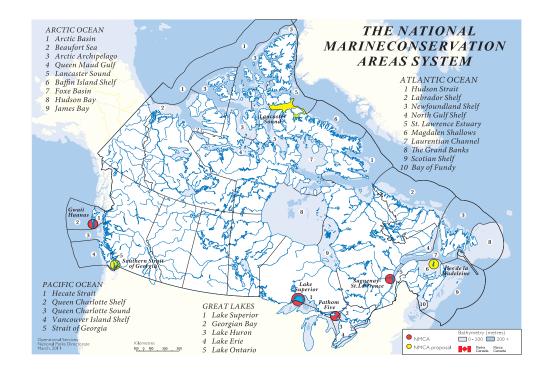

The Parks Canada Agency plays a prominent international role on the management of protected areas. I believe that people's hearts and minds are in closer contact with nature whenever they visit national parks and other protected areas. That is why I invite the public to visit our 44 national parks, 167 national historic sites and 4 national marine conservation areas across Canada.

During your visit to the Saguenay-St. Lawrence Marine Park you will connect with its distinctive natural features. You certainly will be touched by the incredible biodiversity of this unique park that protects parts of the Saguenay Fjord and St. Lawrence River estuary.

As minister responsible for Parks Canada, I am particularly proud to contribute, along with the government of the province of Quebec and local communities, to the protection of the park's exceptional marine environment. I invite you to discover the Saguenay-St. Lawrence Marine Park and our protected areas and take advantage of our treasured places. I hope you'll come away with some unforgettable experiences.

Canadian Minister of the Environment and Minister responsible for the Parks Canada Agency

# MESSAGE FROM THE MINISTER

In 1999, the Government of Québec entrusted Société des établissements de plein air du Québec (Sépag) with the mission of managing, protecting and developing Québec's network of national parks located above the 50th parallel. Overall, there are now 22 national parks across the different regions of Québec. A marine park operated jointly by Parcs Québec (Sépag) and Parks Canada has been added to these many natural sites of outstanding beauty.

Every day, staff members at the national parks strive to preserve these unmatched natural resources for the enjoyment of visitors from Québec and abroad. Measures are implemented on a daily basis to preserve a legacy of exceptional sites for future generations. Emphasizing the benefits of nature on young people is therefore important, so that the generations to come know how to make the most of Nature's wonders and deal with the protection and conservation challenges to be faced in the future.

New premises will open in 2013 at Parc national du Lac-Témiscouata, the latest addition to the Parcs Québec network. The park was officially established in 2009 to protect a representative sample of natural sites at Monts Notre-Dame. Parc national du Lac-Témiscouata features quality infrastructures in line with national park standards. This protected area is actually renowned for its wetlands and its ornithological and archaeological wealth. I invite you to come and discover the park this summer.

A third national park north of the 50th parallel will also be created following the Pingualuit and Kuururjuaq projects. Covering 26,000 km<sup>2</sup> of land, Parc national Tursujuq will allow us to achieve the 9% mark of protected areas across Québec. Like the other two northern parks, the management and development of this new territory is entrusted to the Kativik Regional Government.

Clearly, the range of protected areas is expanding with each passing year. In your vicinity or on the road to your summer holidays, you are sure to find a park to explore. Enjoy a wonderful season of discovery at your national parks!

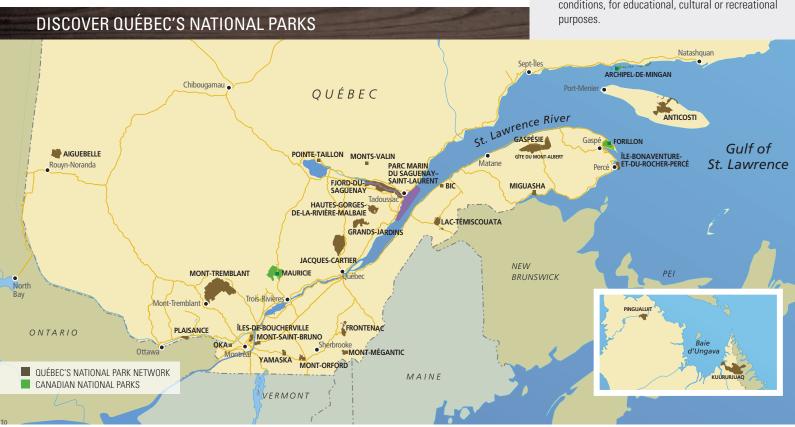

Yves-François Blanchet Minister of Sustainable Development, Environment, Wildlife and Parks

### THE MISSION OF PARCS QUÉBEC

With a view to achieving harmonious development at the cultural, social, economic and regional levels, Parcs Québec is responsible for the conservation and development of territories that are representative of Québec's 43 natural regions and exceptional sites, due notably to their biological diversity, while ensuring that they are accessible for educational and outdoor use.

All of Québec's national parks were created in accordance with World Conservation Union standards. A national park is a relatively vast

- that represents one or more ecosystems that are moderately or not at all transformed by exploitation;
- where animal and plant species, geomorphological sites and habitats are of particular interest from a scientific, educational or recreational viewpoint, and that offers scenery of great beauty;
- in which the highest competent authority of the country has taken measures to eliminate exploitation and to instill respect for the ecological, geomorphological or aesthetic aspects on the whole;
- where a visit is authorized, under certain conditions, for educational, cultural or recreational

### THE "MUST-DOS"

### WHALE-WATCHING BY BOAT

What fun it is to hear a whale blow or catch a glimpse of this incredible animal at the water's surface! From aboard a boat, take in the fascinating spectacle of marine animals. Get ready for a seaside experience in the kingdom of whales, seals and seabirds. Select the type of excursion best suited to you.

See pages 6 to 8.

### WHALE-WATCHING FROM SHORE

While out walking, biking or driving along the marine park shorelines, keep your eyes peeled and your ears open! You might well glimpse or hear belugas, minke or fin whales as well as harbour porpoises all hugging the coast. Some surprises in store for you in a range of locations, starting from Baie-Sainte-Catherine and extending to Les Escoumins, with the Sacré-Cœur sector in between.

See the Discovery Network section (pages 14 to 20).

### **DISCOVERY ACTIVITIES**

To satisfy your thirst for knowledge, take part in any one of several activities on offer. Enthusiastic guide-interpreters and fascinating exhibits will give you some valuable insights into the many facets of the marine park. These helpful resources will tell you the full story of marine life, ranging from starfish to sharks, along with the history of local lighthouses and Aboriginal populations.

See the Discovery Network.

### KAYAKING

Whether you go out paddling with a professional guide or on your own, sea-kayaking is a great way to appreciate the marine park's beauty and sprawling spaces. When prepared with care, a kayaking outing offers you the pleasures of the great outdoors in complete safety. For an excursion lasting several days, take advantage of the campsites located along the edges of the park.

See pages 6 and 9.

### SPECTACULAR VISTAS

On foot or by car or bicycle, discover the numerous viewpoints out over the Saguenay Fjord and the St. Lawrence Estuary. Once you begin to admire the sights along the shoreline, listen to the crash of waves on the beach and breathe in the salt air, it won't be long before you've left the daily grind behind you. Located in the immediate vicinity of the marine park, the **Discovery Network** guarantees you a real change of scenery.

# PURPOSE OF THE MARINE PARK

Recognizing the importance of protecting the environment, wildlife, plant life, and natural resources of a part of the Saguenay Fjord and St. Lawrence River estuary, the governments of Quebec and Canada created, together with public support, the Saguenay—St. Lawrence Marine Park.

The Marine Park's mission is to increase ecosystem protection levels for conservation purposes, for the benefit of present and future generations, while encouraging its use for educational, recreational and scientific purposes.

Activities in the Marine Park are regulated with a view to ensuring the sustainable use of this area and its resources. Regional stakeholders contribute to achieving the marine park's objectives.

# Some species are threatened; it's up to us to protect them!

The St. Lawrence beluga whale population numbered between 7,800 and 10,000 individuals in the mid-19<sup>th</sup> Century. Deemed to be the cause of their decline, hunting was banned in 1979. Since the 1980s, the population has stabilized to about 1,100 individuals. But this state of affairs is an indication that other factors may be harmful to the St. Lawrence beluga, which has been assigned the status of threatened species.

The blue whale, the largest animal on the planet, is endangered. Despite the hunting ban, the North Atlantic population only numbers 250 to 300 individuals of reproductive age, and a few calves. Estimates show that ten or so individuals occasionally visit the St. Lawrence Lower Estuary.

Threatened and endangered whale species are the subject of special protective measures in the Saguenay–St. Lawrence Marine Park. Help protect them by respecting the environment and by complying with regulations governing the approach distances and speeds to be maintained in the vicinity of marine mammals.

# Small fry figure big in the diet of giants!

Aboard the boat L'Alliance, Parks Canada biologists sail back and forth across the marine park studying the diet of whales, seals and birds. In the Lower Estuary, the particular combination of currents and seafloor configuration fosters the presence of great quantities of food, which marine animals require in order to satisfy their huge energy needs.

Using specialized equipment, these researchers are able to detect the presence of prey — namely, small fish and krill, a kind of shrimp-like crustacean. And, according to their findings, the type of prey has an impact on the feeding habits of whales and seals.

In 2010 and 2011, there were a lot of small fish of the kind that live in schools, such as the capelin and the sand lance. To catch this quick-moving prey, group hunting appears to be the best strategy. Hundreds of grey seals banded together for that purpose. Fin whales also went hunting in groups of one to two dozen individuals; their synchronized movements made for an impressive ballet of giants.

In summer 2012, nature put on an entirely different show. Fish were both less abundant and more dispersed. On the other hand, there was an incredible quantity of krill. These schools of krill in turn attracted a dozen blue whales. The amazing thing was that these blue whales fed non-stop, day and night, for several weeks! And, as krill do not move quickly, there was no need to form up groups to hunt them. The fin whales adapted their strategy accordingly and, like the blue whales, hunted alone more often.

The number of minke whales and humpback whales remained constant throughout this time. Being small and fast, minke whales are skilled hunters that are able to satisfy their needs with less dense schools of fish. Humpback whales can feed on fish and krill alike.

### COMPLEMENTARY PROTECTION MEASURES

### Zoning

Zoning is a conservation measure used in land and marine parks to delimit areas where certain types of activities can or cannot be practiced, with a view to sustainable use of the protected areas.

Comprehensive preservation zones are designed to protect vulnerable species and fragile habitats. For example, the area around Île aux Fraises is a comprehensive preservation zone because it is a resting area for seals and staging area for birds. Baie Sainte-Marguerite is, for its part, a preferred area of belugas, where they raise their calves, reproduce and rest; that is the reason why

it has also been declared a comprehensive preservation zone.

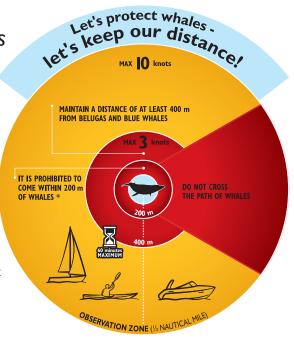

Zoning regulations will soon be in force. Boaters, hunters, fishermen, kayakers and other users are therefore invited to stay away from these comprehensive preservation zones.

ZONING CATEGORY	AUTHORIZED ACTIVITIES
Comprehensive preservation: 3 % of the park	Scientific research under specific conditions
Specific protection: 42 % of the park	Navigation, marine tours, underwater diving, scientific research
General protection: 19 % of the park	Navigation, marine tours, underwater diving, scientific research, as well as recreational hunting and fishing
General use: 36 % of the park	Navigation, marine tours, underwater diving, scientific research, recreational hunting and fishing, as well as commercial fishing under specific conditions.

### Marine Activities in the Saguenay—St.Lawrence Marine Park Regulations

Developed in partnership with the marine tour companies, the regulations provide a framework for the activities practiced in the Marine Park. The regulations indicate the maximum navigation speed permitted throughout the park, as well as the distances and speeds to be respected when marine mammals are present (see table). All watercraft in the Marine Park must comply with these regulations.

Boat captains and sea-kayaking guides of organizations with marine tour permits must pass the Parks Canada regulations course.

MAX 25 knots

DISTANCE
1/2 nautical mile = 926 meters

### **SPEED**

3 knots = 5.56 km/h = 3.45 mph 10 knots = 18.52 km/h = 11.50 mph 25 knots = 46.30 km/h = 28.70 mph

In the event of any disparity, the text of the Regulations shall take precedence over the information presented in this guide.

\* Under certain conditions, marine tour permit-holders (i.e., whale watching vessels) are allowed to come as close as 100 m of whales other than belugas and blue whales.

### PARK SECTORS

The Marine Park protects the marine environment, the portion of the shoreline covered at high tide, the water column, and the sea floor, and all the life they support. The islands and islets are not included in the park, but many are nevertheless protected.

Covering an area of 1,245 km<sup>2</sup>, the Marine Park is made up of three interconnected ecosystems at the confluence of the Saguenay and St. Lawrence Rivers.

# Les Escoumins Course LOWER ESTUARY 2. Trois-Pistoles SAGUENAY FJORD UPPER ESTUARY 1. Rivière-du-Loup Map of the Saguenay—St. Lawrence Marine Park sectors La Malbaie

### 1.) UPPER ESTUARY: A NURTURING AREA

With its islands set in a sea of turquoise, the upper estuary scenery is one of the most beautiful along the St. Lawrence River. The many lighthouses, standing tall on the rocky shores, bring a final touch to this outstanding seascape. The upper estuary is an ideal habitat where herring, capelin, birds, seals, and belugas can reproduce, feed, and rest. In winter, it is the preferred place of birds, and particularly Barrow's Goldeneye. This area represents 53 % of total park area.

This is without a doubt the most popular sector of the Marine Park! Every summer, whales, seals, and birds regale on the plethora of small fish and plankton that thrive here. The upwelling of cold salt water coming from the Gulf of St. Lawrence and Atlantic Ocean is at the origin of this abundant marine life. This is also where most of the excursion boats come to watch marine mammals. The area is also a preferred setting of sea-kayakers. It makes up 30 % of total park area.

### 3. SAGUENAY FJORD: AN IMPRESSIVE SCENERY

Dark waters enclosed within dizzying cliffs give the Saguenay Fjord a somewhat mysterious aspect. The Fjord is at once a sea and a river, as cold salt water from the St. Lawrence Estuary invades its depths, while warmer fresh waters from its tributaries and Lake St. Jean run along the surface. This sector is a favourite of recreational boaters and fishing enthusiasts. It covers 17 % of the park.

Whether you are looking for adventure or a quiet tour on the water, you will be delighted. Choose the type of boat and excursion that suits you best and take the full measure of wide open spaces. Each sea outing is unique!

### To help you choose

Marine tour companies have many watercraft types and sizes. Contact the marine tour providers to determine which products best suit your needs.

### **Guided excursions**

Marine tour captains and guides have sound knowledge of the marine environment. They can put that knowledge at your service and answer your questions. Regardless of the type of boat you choose, your captain will stay within regulated speeds and respect the approach distances and speeds to be maintained in the vicinity of whales. However, whales can sometimes unexpectedly emerge near a boat. Your captain knows what to do in such circumstances. When sea-kayaking, your guide will make sure you keep to the proper distances and navigate in complete safety. Follow your guide...

### WHAT YOU NEED

Even during summer, it is colder on water than on land. Warm, comfortable clothing is recommended.

### For outings on a boat, we suggest:

- Long pants and closed shoes
- Hat, gloves and scarf
- Windbreaker or raincoat
- Sunscreen and sunglasses
- Camera
- Binoculars

### For non-guided kayak outings, we suggest:

- Tide tables
- HF radio
- sothermal and spare clothing
- Nautical Charts
- · Food and water
- To notify a designated contact person of your itinerary

Marine excursion businesses, Parcs Québec, Parks Canada and the Group for Research and Education on Marine Mammals (GREMM) joined forces to found the Eco-Whale Alliance. Their objective is to ensure that whale-watching in the marine park is conducted responsibly and in keeping with the principles of sustainable development.

Member businesses have adopted a charter that sets out their commitments as part of this alliance. The charter is posted on the premises of members as well as on www.eco-baleine.ca. Take a few minutes to read it and support compliance with these commitments.

# A SAILING EXPERIENCE

### Voile Mercator

Enjoy sailing on the St. Lawrence River and Saguenay Fjord. Personalized activities are available for groups of 8 maximum. The entire family is invited to take part in manoeuvres. "Introduction to sailing" excursions (3 hrs., 5 hrs., 7 hrs.) and sailing courses (2 to 5 days) leading to certification.

Discover the marine park as you run before the wind.

Tadoussac, L'Anse-Saint-Jean, Baie Éternité I-888-674-9309 | voilemercator.com

### Did you know...?

That four large migrating whales can be seen in the Marine Park in the summer: they are the minke whale, the fin whale, the humpback whale and the blue whale.

The beluga whale and harbour seal are the only marine mammals that spend the entire year in the St. Lawrence Estuary. Can you tell which is which?

Humpback whale

Fin whale

Blue whale

### Your Safety: Your Responsibility

Outdoor activities can involve certain risks. Make sure that you have the skills and abilities required for the activity you choose. It is important to know the risks inherent to this activity, to respect your limits and to use appropriate equipment.

### Croisières AML

1-800-563-4643

croisieresaml.com

Take advantage of a whale-watching cruise aboard one of our comfortable excursion boats, or set off in discovery of the Saguenay Fjord in all its immensity. Croisières AML, outstanding nature experience with certified bilingual guide-naturalists who will let you feel their passion for marine mammals!

Tadoussac, Baie-Sainte-Catherine, L'Anse-Saint-Jean, Rivière-du-Loup

### Croisières 200 I

1-800-694-5489

croisieres2001.com

During a thrilling 3-hour excursion in a friendly atmosphere, you can enjoy whale-watching and make a foray into the Saguenay Fjord. An underwater camera allows participants to view the sea floor.

Tadoussac, Baie-Sainte-Catherine

### Croisières Groupe Dufour / Croisières Charlevoix

1-800-463-5250 / 1-866-638-1483

dufour.ca / baleines.ca

Groupe Dufour invites you to discover its fabulous whale-watching excursions accompanied by seasoned naturalist guides. Several departures are offered per day from May to October. Only our cruises offer 5-heart service, and guaranteed unforgettable moments.

Tadoussac, Baie-Sainte-Catherine, Saint-Siméon

### Les Croisières du Fjord

1-800-363-7248

croisieresdufjord.com

On board our "bateau-mouche" tour boat, discover the most spectacular parts of the Saguenay Fjord. See Capes Éternité and Trinité with the statue of the Virgin Mary. Includes a moment of contemplation with the recitation of the Ave Maria!

Sainte-Rose-du-Nord, La Baie, Baie-Éternité, L'Anse-Saint-Jean and Tadoussac

### Croisière Personnalisée Saguenay

418-608-8058 ou 418-272-2739 croisieresaguenay.ca

For 23 years, we have been offering customized high-end cruises focused on contemplation, according to a private or combined approach (6 people maximum), thus ensuring you a personal, distinctive and rewarding experience on the majestic Saguenay Fiord. A delightful interlude...

L'Anse-Saint-Jean

### Société Duvetnor

1-877-867-1660

pharedupot.com

Cruises offered in and around St. Lawrence islands (with or without stopover); longer stays on islands also available (inn, cabin or campground). See a great variety of seabirds (before the end of July), landscapes, and hear fascinating seafaring stories (smuggling, sea trading post...). Commentated, informative excursions.

Rivière-du-Loup

### Croisières AML

1-800-563-4643

croisieresaml.com

For an electrifying experience, come aboard one of our Zodiacs! You'll really be in the front row for watching these giants of the sea during our 2- or 3-hour outings. Croisières AML, outstanding nature experience with certified bilingual guide-naturalists who will let you feel their passion for marine mammals!

Tadoussac, Baie-Sainte-Catherine

### Croisières Groupe Dufour / Croisières Charlevoix

1-800-463-5250 / 1-866-638-1483 dufour.ca / baleines.ca

Groupe Dufour invites you to discover its fabulous whale-watching excursions accompanied by seasoned naturalist guides. Several departures are offered per day from May to October. Only our cruises offer 5-heart service, and guaranteed unforgettable moments.

Tadoussac, Baie-Sainte-Catherine, Saint-Siméon

### Les Écumeurs du Saint-Laurent

1-888-817-9999

lesecumeurs.com

Les Écumeurs du Saint-Laurent invites you to discover the fascinating world of whales on board one of our zodiac boats, in the company of passionate captains.

Les Escoumins

### **Otis excursions**

418-235-4197 / 418-235-4537 otisexcursions.com

Get close and intimate with whales and other marine mammals on board our quiet, ecological, 12-passenger zodiac boats.

**Tadoussac** 

### Croisières Essipit

1-888-868-6666

essipit.com

Exhilarating whale-watching excursions in safe zodiac boats, from Les Bergeronnes. Two-hour outing – get ready for a thrilling experience. Kuei! Welcome!

Les Bergeronnes

### Croisières Neptune

418-232-6716 / I-877-7NEPTUNE croisieresneptune.net

Croisières Neptune offers whale-watching excursions skimming the water in safe, modern zodiac boats. A fast, discrete, and fun way to meet the whales.

Les Bergeronnes, Les Escoumins

### Les Pionniers des baleines

1-866-501-8725

croisierebaleine.ca

An excursion for passengers to breathe in the fresh sea air and observe whales aboard large zodiacs spacious enough for photo safaris. Vessels equipped with quiet, four-stroke engines, smoke and odor-free.

For information on boarding locations: 1-866-501-8725

### Parc national du Fjord-du-Saguenay

1-800-665-6527

parcsquebec.com

Come on board the OrganisAction/Le Québec Hors Circuits's zodiac and enjoy an unforgettable trip enabling you to discover the particularities of the fjord. Accompanied by a captain-naturalist, make a foray into an ecosystém whose diversity is unique around the world.

Baie-Éternité

### **Azimut Aventure**

parcsquebec.com

Explore the most beautiful parts of the Fjord with OrganisAction: Le Québec Hors Circuits! naturalist-guides. On the menu: The dizzying cliffs of the Fjord at your own pace... and with the flow of tides!

Baie-Éternité

### YOU ARE PLANNING A SEA-KAYAKING ACTIVITY WITHOUT A CERTIFIED GUIDE?

Before you set out, find out about the directives you need to follow to make sure your outing is safe and enjoyable. Indeed, weather conditions change rapidly and strong marine currents could make your outing hazardous.

For your safety, stay close to the shoreline so as to always keep it in sight, particularly under fog conditions. On account of marine traffic, avoid making "shore-to-shore" crossings.

### TO PUT ON YOUR ''NOT-TO-BE-MISSED'' LIST

### On three full moon evenings... We JAZZ it up under the moon!

### June 22, July 20 and August 17

It's a one-of-a-kind event in Quebec, with the river and its whales gradually segueing into a moonlit landscape, offering a silvery venue for an outdoor JAZZ-tinged concert.

All shows will be held in the outdoor amphitheatre of the Marine Environment Discovery Centre, 41, rue des Pilotes, Les Escoumins (and inside in the event of inclement weather).

For reservations, call 418-232-6653.

A presentation of "Odyssée artistique," in partnership with Parks Canada and the municipality of Les Escoumins.

### August is archaeology month!

### August I to 31

Throughout Québec in August, a large number of archaeological activities will be offered at Archéo Québec member locations.

Near the Marine Park, the Centre Archéo Topo proposes a tour through the Bergeronnes digs accompanied by a guide archaeologist.

The archaeological dig simulation workshop is a unique experience for children; they will discover arrowheads, pipes, pottery shards, and other artefacts.

Have a great archaeology month! For further information: I-877-bonjour or I-877-266-5687 Centre Archéo Topo: 418-232-6286

# Festival marin des Escoumins 2013, 6° édition (Les Escoumins marine festival)

### August 31 and September 1

During the Labour Day weekend, gaze in wonderment at the St. Lawrence's underwater landscapes. Attend some film screenings and follow divers as they perform a night dive. You'll be amazed by the marine life on view!

Submit a photo or vote for your favourite entry in the photo contest. Divers are invited to take part in an underwater treasure hunt.

The event will be held at the Marine Environment Discovery Centre 41, rue des Pilotes, Les Escoumins. For information: 418-233-2766. ext. 26.

Produced by the municipality of Les Escoumins, the Corporation de développement des Escoumins, the Fédération québécoise des activités subaquatiques, Explos-Nature and Parks Canada.

Long tours: 10 AM and 2 PM Adults: \$8 Children (6 to 12): \$5 Children under 6: Free

Short tours: 10 AM, 11 AM, 2 PM, and 3 PM Adults: \$5 Children (6 to 12): \$3 Children under 6: Free

### Cabin rentals:

June to August, \$100 per day, minimum 3 days

The Centre écologique de Port-au Saumon invites you to follow an experienced guide-interpreter along a special trail and discover the St. Lawrence upper estuary. The ecological centre is a focal point of the World Biosphere Reserve of Charlevoix. For more than 40 years, it has enabled visitors to discover an outstanding landscape and a faithfully preserved biodiversity.

Discover a variety of marine and forest ecosystems; explore a crevasse and a 15-metre waterfall; see and touch various marine organisms.

**PORT-AU-PERSIL** 

555, chemin de Port-au-Persil Saint-Siméon

Municipality of Saint-Siméon Tél.: 418-620-5010

### Schedule

All summer long

Admission

A haven of peace in phase with the tides, Port-au-Persil is a member of the "Association des plus beaux villages du Québec'' (Quebec's most beautiful towns). Discovered by Samuel de Champlain, this hamlet has inspired many artists and writers, such as Jean-Paul Lemieux and Gabrielle Roy. The panoramic road will take you to the reception lodge, which provides shelter and information. The recently renovated wharf features a launch for kayaks and small boats.

Take advantage of the hiking trails and picnic areas to breathe in the sea air and marvel at the scenery.

Baie-des-Rochers Saint-Siméon

Municipality of Tél.: 418-620-5010

### PARC MUNICIPAL DE LA BAIE-DES-ROCHERS

Walk along one of the marked trails and take time out at one of the picnic areas to enjoy the delightful surroundings and stupendous panoramas. Flanked by hills, the Baie des Rochers is a natural haven for birds frequenting the St. Lawrence and numerous sea mammals. A launch enables kayakers and small boat owners to access the river.

141, route 138 (One minute away from the Tadoussac-Baie-Sainte-Catherine ferry) Baie-Sainte-Catherine

Tél.: 418-237-4383 418-235-4703 (off-season) parkscanada.gc.ca

### Schedule

June 22 to September 2, every day: 10 AM to 5 PM September 3 to October 14 (incl.) Fridays, Saturdays and Sundays: 10 AM to 5 PM

### Admission

Fees set according to age and group. Free of charge for children under 6 years of age. Take advantage of the special rate to visit all 3 Parks Canada sites the same day.

parkscanada.gc.ca

### POINTE-NOIRE INTERPRETATION AND **OBSERVATION CENTRE**

Enjoy a break and treat yourself to a breathtaking view out over the sea! Stroll down the boardwalk into the heart of this range light station. There you can meet and talk with the guide-interpreters and use the telescopes on location to better understand and admire the whales. In the lighthouse keeper's quarters, take in the exhibit to learn more about the encounter of the Saguenay and the St. Lawrence. Enjoy your visit!

Children get to play "Parks Canada Xplorers" for a day. Find out more at the visitor reception

### PETIT-SAGUENAY DOCK

107, rue du Quai Petit-Saguenay

Tel.: 418-272-2323 petit-saguenay.com

Schedule

May to mid-October

### **Tourist** information

61, rue Dumas Petit-Saguenay

Tél.: 418-272-3219

### Admission

Site admission is free

One of the most splendid viewpoints along the fjord, the Petit-Saguenay wharf is blessed with a majestic setting and awe-inspiring sunsets that have inspired numerous painters and photographers. This genuine natural work of art is also the starting point of the "Les Caps" trail, which offers spectacular panoramas out over the fjord. Come and enjoy a picnic with your family, try catching some sea trout, or stop in at the little handcrafts shop and a giant beluga.

The Petit-Saguenay wharf is a mustdo stop on the Saguenay Fjord for discovering the marine park and the charming town of Petit-Saguenay.

# L'ANSE-SAINT-JEAN

Tourist information Municipality of L'Anse-Saint-Jean L'Anse-Saint-lean

Tél.: 418-272-2633 lanse-saint-jean.ca

Mid-June to early October Pot à l'Eau-de-Vie lighthouse Sea excursions Cabin rentals (L'île aux Lièvres) Inn (L'île aux Lièvres)

### Admission

Adults: \$25 / \$210 Students: \$25 / \$210 Children: \$15 / \$175

The length and cost of excursions and stays vary according to destination. Telephone reservations required. No Internet reservations.

Corporation dedicated to the conservation of natural environments with a range of ecotourism products in the following bird sanctuaries: Îles du Pot à l'Eau-de-Vie archipelago and Île aux Lièvres, Îles Pèlerins archipelago and Île aux Fraises.

Lodgings available as well as daily guided excursions with or without stopover.

# WINTER FUN Ice fishing on the Fjord In winter, when the ice is at least 30 cm thick, fishing huts

In winter, when the ice is at least 30 cm thick, fishing huts start to appear on the pack ice, grouped into small, colourful villages. There are seven ice fishing sites on the Saguenay Fjord: L'Anse-Saint-Jean, Rivière-Éternité, Sainte-Rose-du-Nord, Saint-Fulgence, Les Battures, Grande-Baie and Anse-à-Benjamin. The most common fish species are rainbow smelt and bottom-dwelling fish like redfish, Atlantic cod, Greenland cod, and Greenland halibut.

### Ducks as far as the eye can see

The Marine Park and surrounding area provide an excellent venue for winter bird-watching. Ice-free areas, such as bays and river mouths, are places where ducks can find the food they need to survive the winter. Hundreds, even thousands of American Black Ducks, Common Goldeneyes, Oldsquaws, Lesser and Greater Scaups, and scoter ducks gather. One may also see Barrow's Goldeneye, a threatened species, and Buffleheads. Winter is a great time to see nature's beauties!

### UNDERWATER DIVING

Dive into the heart of magnificently coloured gardens and discover animal life below the surface. The cold salt waters of the St. Lawrence estuary are home to varied, impressive marine life. These sites offer divers special access to the Marine Park (fees apply).

### **PARADIS MARIN**

4, chemin Émile-Boulianne, Les Bergeronnes Tel.: 418-232-6237

Services on location: Launching site, showers and washrooms.

# MARINE ENVIRONMENT DISCOVERY CENTRE, A PARKS CANADA SITE

Diving base operated by the Fédération québécoise des activités subaquatiques (FQAS)

41, rue des Pilotes, Les Escoumins Tel: 418-233-4025

Services on location: Equipment rentals, air refills, guided dives, customized packages, launching platforms, hot-water showers, and washrooms.

Customized packages let you adapt your dive to your preferences, or offer one as a gift to a certified diver.

### **HIGH SEASON**

June 22 to September 2, 8 AM to 6 PM

### **LOW SEASON**

May 17 to 20 / June 14 to 16 / June 21 / October 11 to 14 Friday: 12 AM to 6 PM

Saturday: 8 AM to 6 PM

Sunday: 8 AM to 6 PM (8 AM to 4 PM on June 16) Monday (May 20 and Oct. 14): 8 AM to 12 AM

The diving base will be closed from September 3 to October 10, but diving will be allowed on Fridays, Saturdays, and Sundays from 9 AM to 5 PM.

### **BULLETIN BOARD**

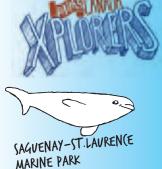

### **EMBARK UPON** A MODERN-DAY TREASURE HUNT: **GEOCACHING!**

Equipped with a GPS, set off in search of Parks Canada's geocaches. Do a search for "The White Whale," "La Fidèle," "Magtogoek" or "A Fragile Ecosystem" on geocaching.com. If you don't have your own GPS device, you can borrow one at the Pointe-Noire Interpretation and Observation Centre to find the geocache going by the name of "The White Whale."

### DO YOUR CHILDREN LOVE TO EXPLORE? Ask for the Xplorer program booklet

when you enter one of the Parks Canada sites.

### DO YOU PLAN TO GO BOATING?

Get your copy of the Saguenay-St. Lawrence Marine Park Boater's Guide. It's free!

- · Printed on rugged, waterproof paper
- Features a map of the marine park
- Contains a host of practical information

Ask for it in one of the marinas or on marinepark.qc.ca

### THE MARINE PARK IN YOUR SCHOOL

Parks Canada offers two online educational activities in relation to its outreach program:

Elementary students in cycle 3 go on a virtual scientific expedition to explore the Marine Park.

\_\_\_\_\_\_

Write us at: info.parcmarin@pc.gc.ca.

\_\_\_\_\_ Students in the secondary - cycle I geography program get to discover the protected territory.

marinepark.learnquebec.ca \_ \_ \_ \_ \_ \_ \_ \_ \_ \_ \_ \_ \_ \_ \_

### "SPECIES AT RISK" TRAIL IN THE SAGUENAY-ST. LAWRENCE MARINE **PARK**

Walk or bike along the trail (mountain or hybrid bikes only) and take a break at one of the rest stops. There, you'll be likely to see a variety of birds and marine mammals. This 8-kilometre-long trail links the Cap de Bon-Désir Interpretation and Observation Centre (Les Bergeronnes) and the Marine Environment Discovery Centre (Les Escoumins) (see map on page 13). It also overlaps a segment of the multi-use trail operated by the Le Morillon club.

# "For the birds"!

The Saguenay—St. Lawrence Marine Park area sees a surprising variety of bird species. In the fall, the Observatoire d'oiseaux de Tadoussac (OOT) team goes to the "dunes" sector in Tadoussac to observe a spectacular migration. Ornithologists here count and identify thousands of birds. Banding activities give you a very special proximity with the birds. For further information, see the OOT Website at explos-nature.qc.ca or call tollfree at 1-877-MER-1877.
