INTRODUCTION

The June 1995 edition of *Toponymy and Terminology used by Parks Canada* is an updated and expanded version of *Toponymy and Terminology used in the Canadian Parks Service* of September 1991, which it replaces and which thereby becomes obsolete, as does Administrative Directive 1.1.7.

In order to facilitate determination of the toponyms of national parks, national marine parks, national historic sites, historic canals, heritage places and other entities managed by Parks Canada, and to standardize their designations and simplify their translation, the Parks Canada Toponymy and Terminology Committee has done a thorough review of the document entitled *Toponymy and Terminology used in the Canadian Parks Service* – September 1991. The inclusion of rules for writing toponyms in both official languages is the cornerstone of this revision. These rules have been established by Hélène Célinas-Surprenant, the representative of the Terminology and Documentation Directorate, Translation Bureau, of Public Works and Government Services Canada, in consultation with the members of the Parks Canada Toponymy and Terminology Committee and the regions.

The document entitled *Principles and Procedures for Geographical Naming* of the Canadian Permanent Committee on Geographical Names (CPCGN), and the various toponymic guides and provincial and territorial gazetteers in existence were used in preparing these rules for writing toponyms.

Although the generic "national historic site" refers to a national historic park as well as to a national historic site, it is important to point out that, under Part II of the *National Parks Act*, it is still essential that the term "national historic park" be used in the wording of legal documents dealing with lands set aside under Part II; the entities concerned are preceded with an asterisk (*).

*Toponymy and Terminology used by Parks Canada*, with an amended title that reflects the new organizational structure, is intended as a reference work for use by signage authorities, writers, translators and anyone concerned with correctness in referring to the entities of Canada's natural and cultural heritage.

PARKS CANADA TOPONYMY AND TERMINOLOGY COMMITTEE

MANDATE

To ensure the uniform application of the principles and procedures of the Canadian Permanent Committee on Geographical Names (CPCGN), and to define the correct usage, in both official languages, of toponyms and standard messages.

To solve linguistic problems related to the bilingual presentation of geographical names and administrative entities managed by Parks Canada.

To control the quality of the standard messages used in signage in conformity with current policies and directives.

To revise and update any terminology or toponymy lists considered necessary for Parks Canada activities.

MEMBERSHIP

The Committee consists of representatives from National Parks, National Historic Sites, Executive Correspondence Office, Architectural and Engineering Services and Translation Bureau, translation and terminology, of Public Works and Government Services Canada; it also includes the Parks Canada representative on the CPCGN.

OPERATION

The current Committee chairperson is the representative of the Policy and Legislation Coordination Branch of the National Parks Directorate.

The Committee's operating costs are charged to the cost centre of the representative of the National Parks Directorate.

Notices of meetings, minutes and correspondence relating to Committee business are filed under No. 1165-159.

DEFINITIONS

toponym

For Parks Canada, a toponym (or place name) is a proper name formed of a generic and a specific used to identify a place or a territory designated as part of the Canadian natural or cultural heritage.

generic

In the toponyms of Parks Canada, the generic is the toponym element which identifies the nature of the entity selected as being part of the Canadian heritage.

The generics used by Parks Canada are as follows:

<table>

specific

In the toponyms of Parks Canada, the specific is the toponym element which identifies the specific entity selected as being part of the Canadian heritage.

In the following examples, the generics are in boldface type, while the specifics are underlined.

NOTE In FR, the connecting particle (de, du, de la, de l' or des) is not part of either element.

NOTE The designation of heritage rivers does not come under the Parks Canada rules, but the CUENGO rules.

**inhabited place; currently gazetteered inhabited place**
(gazetteered inhabited place; currently inhabited place)

An **inhabited place** or currently inhabited place is an entity under the control of an administration — city, town, village, municipality, hamlet, parish or population centre — in which citizens currently reside and whose name is stipulated by the articles of incorporation; this name is listed in the Gazetteer for the relevant province or territory.

**NOTE** In Canada, only two municipalities have names with two official forms:

- Grand Falls (N.B.) — Grand-Sault (N.-B.) and
- Caissie Cape (N.B.) — Cap-des-Caissie (N.-B.).

All other municipalities have only one authorized form (Principles and Procedures for Geographical Naming, Canadian Permanent Committee on Geographical Names). Thus the cities of "Montréal", "Québec" and "Saint-Jean-sur-Richelieu" in Quebec are written "Montréal", "Québec" and "Saint-Jean-sur-Richelieu" in EN, while "Regina" (Sask.), "Fredericton" (N.B.), "The Pas" (Man.) and "St. John’s" (Nfld.) stay as "Regina", "Fredericton", "The Pas" and "St. John’s" in FR.

**historically inhabited place**
(ungazetteered inhabited place)

An **historically inhabited place** is an entity which was inhabited in the past but is no longer inhabited. As its name does not appear in the relevant provincial or territorial Gazetteer, the only evidence of its existence comes from history books or archival documents. This is the case of, among others, "Port-la-Joye" (P.E.I.), "Lower Fort Garry" (Man.), "Fish Creek" (Sask.), "Ninstints" (B.C.) and "Dawson City" (Y.T.).

**NOTE** Sometimes a distinction must be made between the historical designation and the present designation of a given toponym. For example, history texts confirm the existence in present-day Nova Scotia of "Port-Royal" (an historically inhabited place), where Champlain built the Habitation in 1605. The Gazetteer for the province indicates the existence, near the historical site, of the rural community now incorporated under the name "Port Royal" (currently inhabited gazetteered place); the same comment applies to the historical "Grand-Pré" and the currently inhabited "Grand Pré". Similarly, "Castle Hill" and "Signal Hill" (Nfld.) are entities that were once inhabited and were located on the geographical entities having the same names that are currently gazetteered and have a different form in FR:

- Castle Hill (Nfld.) — colline Castle (T.-N.) and
- Signal Hill (Nfld.) — colline Signal (T.-N.).
An **uninhabited place** is a geographical entity (stream, lake, river, falls, island, mountain, plain and so forth) with a precise location but where no one resides. The authority for assigning the official names of these entities — except those in the list of names of Pan-Canadian significance — rests with the relevant province or territory; the determination of the form of these toponyms (place names) in the other official language is the responsibility of the terminology services of the Translation Bureau, Public Works and Government Services Canada.

**Names of Pan-Canadian significance** are the names of 81 geographical entities which, because of their importance, have two forms recognized by the federal government, one in English (EN) and the other in French (FR). These entities include the provinces, except the four with the same spelling in EN and FR (Ontario, Manitoba, Saskatchewan and Alberta), the territories and their administrative subdivisions, major rivers flowing to the sea and bodies of water or geographical features (rivers, mountains, islands, straits) which have in common the characteristic of covering a large area, lying in more than one province or territory or extending beyond Canada's border.

*"List of geographical entities of Pan-Canadian significance with well-known forms in both official languages", established on the recommendation of the Canadian Permanent Committee on Geographical Names (CPCGN) and published as an appendix to Treasury Board circular No. 1983-58 setting the guidelines for the linguistic treatment of Canadian toponyms on the topographic maps and marine charts of the federal government.*

**NOTE** In FR, in narrative text, the lowercase spelling of the generic is mandatory; in a list or on a map or sign, the generic begins with a capital letter.

RULES FOR WRITING PARKS CANADA TOPO NYMS
RULES FOR WRITING PARKS CANADA TOponyms

INTRODUCTORY REMARKS

In 1992, Parks Canada was authorized to verify the accuracy of the names of the national parks, national marine parks, national park and national marine park reserves, national historic sites including canals, heritage places and exhibits under its control. To do this, the Toponymy and Terminology Committee of the agency considered it appropriate, further to the work by the Comité d'uniformisation de l'écriture des noms géographiques officiels du Canada (CUENGO) in 1989, to stipulate the rules for writing toponyms to be followed in establishing these designations.

These rules govern the designation of the entities which are currently the property of the agency or which are managed by it, and establish the framework for it to correctly designate any entities created in the future.

For the public, these rules are an explanation of the names chosen by Parks Canada to designate the entities forming Canada’s heritage. Any designation of a new entity managed by Parks Canada, and any change in designation, must be submitted to the Toponymy and Terminology Committee of Parks Canada for approval.

Specific rules
for going from EN to FR and from FR to EN

The toponyms of national parks, national marine parks, national park and national marine park reserves, national historic sites including canals, heritage places and exhibits, and of proposed national parks, national marine parks, national park reserves and national marine conservation areas, can be divided into five categories:

1. those whose specific is a given name placed in apposition;
2. those whose specific is the name of an inhabited place;
3. those whose specific is the name of an uninhabited place;
4. those whose specific is the name of a famous person, a trade name, or a man-made building, structure, facility or premises, and
5. those whose specific is the name of an historic event, or commemoration of a battle, place or activity related to history (bilingual name given by Parks Canada).

Categories of toponyms for designations
from EN to FR and from FR to EN

FIRST CATEGORY

Specific = name given, placed in apposition

1. (a) Specific = name (English, French, Latin or Aboriginal language) given by Parks Canada, placed in apposition, and formed of one or more elements, usually without a hyphen, or a complex element

   - specific formed of a single element
   - specific formed of more than one element
   - specific formed of a complex element

   Exception to 1. (a) (for FR):

   - specific formed of a Latin name

1. (b) Specific = name given by Parks Canada and placed in apposition, formed of an English name consisting of two or more elements not joined to each other by a hyphen or hyphens, and which through usage retains the English form in apposition in French, as an exception to any rule
SECOND CATEGORY .......................................................... 107

Specific = name of an inhabited place

2. (a) Specific = name of an inhabited place with one element
2. (b) Specific = name of an inhabited place with two or more elements, without a hyphen
2. (c) Specific = name of an inhabited place with two or more elements, with a hyphen

THIRD CATEGORY .............................................................. 113

Specific = name of an uninhabited place

3. (a) Specific = uninhabited place – name of a gazetteered geographical entity corresponding to CUENGO Rule 1.
3. (b) Specific = uninhabited place – name of a gazetteered geographical entity corresponding to CUENGO Rules other than 1. and 8. (b)
3. (c) Specific = uninhabited place formed of two geographical entities, one of which is not gazetteered, named after the other which is gazetteered, corresponding to CUENGO Rule 8. (b)
3. (d) Specific = uninhabited place – name of a geographical feature not in the Gazetteer

FOURTH CATEGORY ............................................................ 127

Specific = name of a famous person, a trade name, or name of a man-made building, structure, facility or premises

4. (a) Specific = name of a famous person given to the entity to honour the person or because the person lived there or was its owner
   (i) Specific = name of a famous person
   Exception to 4. (a) (i):
   Specific = name of a famous person preceded by a title
   (ii) Specific = name given to a place by a famous person
4. (b) Specific = name of a ship
4. (c) Specific = trade name or official designation of a structure with no FR or EN equivalent
   (i) EN premises
   (ii) EN trade name
   (iii) FR premises
   (iv) FR trade name

4. (d) Specific = trade name or name of a structure with a FR equivalent
   (i) name given to a structure (apposition)
      Exceptions to 4. (d) (i):
      name given to a structure = name of a person
      preceded by a title
      name given to a structure = name of an armed forces member
      name given to a structure = title with a French equivalent
   (ii) name given to a structure
      from the name of an inhabited place
      – name of an inhabited place with one element preceding the generic
      – name of an inhabited place with one element following the generic or joined by the particle "of"
      – name of an inhabited place with two or more elements preceding the generic
   (iii) name given to a structure from the name of an uninhabited place

FIFTH CATEGORY ......................................................... 153

Specific = name of an historic event, 
or commemoration of a battle, place or activity related to history
(Bilingual name given by Parks Canada)

5. (a) Specific = name of a battle
5. (b) Specific = name of a place or activity related to history
5. (c) Specific = name of an exhibit
A - GENERAL RULES
General rules for going from EN to FR (EN-FR)

EN-FR 1. Name of a person in a FR toponym

- Hyphens

1. In a FR toponym, the title, given name(s), initial(s) of given name(s) and surname are joined by hyphens.

Example:
EN Sir John Johnson House National Historic Site (Ont.)
name : Sir John Johnson
title : Sir
given name : John
surname : Johnson
FR lieu historique national de la Maison-de-Sir-John-Johnson (Ont.)

2. Similarly, in a FR toponym, the elements of a double surname, or family name comprising the family names of the mother and father, are joined by a hyphen even if they are not joined in EN.

Example:
EN *Alexander Graham Bell National Historic Site (N.S.)
name : Alexander Graham Bell
given name : Alexander
matronym : Graham
patronym : Bell
FR *lieu historique national Alexander-Graham-Bell (N.-E.)

3. On the other hand, in a FR toponym, a surname (family name) whose elements are not joined by a hyphen or hyphens must remain as such.

Examples:
EN J.C. Van Horne National Historic Site (hypothetical)
FR lieu historique national J.-C.-Van Horne (hypothétique)

EN Pierre de La Vérendrye National Park (hypothetical)
FR parc national Pierre-de La Vérendrye (hypothétique)
name : Pierre de La Vérendrye
given name : Pierre
patronym : de La Vérendrye

EN De La Vérendrye National Park (hypothetical)
FR parc national de La Vérendrye (hypothétique)
NOTE In EN, "De" is capitalized because the preposition is the first word in the entry. In FR, the patronym "de la Vérendrye" remains intact; the "de" here is not a connecting particle, but part of the patronym, as the name of a person given to a park is placed in apposition.
HOWEVER

EN Marcel De La Sablonnière National Park (hypothetical)
FR parc national Marcel-De La Sablonnière (hypothétique)
name : Marcel De La Sablonnière
given_name : Marcel
patronym : De La Sablonnière

EN De La Sablonnière National Park (hypothetical)
FR parc national De La Sablonnière (hypothétique)
NOTE In EN, the "De" is capitalized both because the preposition is spelled this way in the patronym and because it is the first word in an entry. In FR, the patronym "De La Sablonnière" remains intact; the "De" is not a connecting particle, but part of the patronym, as the name of a person given to a park is placed in apposition.

- Capitals

In a FR toponym, the spelling of all elements of a patronym (family name) must be followed.

Accordingly, the presence or absence of a capital or capitals or of a hyphen or hyphens in the spelling of patronyms is reproduced, with no added capitals or hyphens.

Examples: See above.

EN Charles Le Moyne d'Iberville National Park (hypothetical)
FR parc national Charles-Le Moyne-d'Iberville (hypothétique)
NOTE Name + title: Charles Le Moyne, Sieur d'Iberville, hence the hyphen in FR between "Le Moyne" and "d'Iberville".

- Special cases

There can be cases in which history causes us to circumvent the current rules.

Example:
EN *Louis S. St. Laurent National Historic Site (Que.)
FR *lieu historique national Louis-S.-St-Laurent (Qc)
name signed in EN: Louis S. St. Laurent
name signed in FR: Louis S. St-Laurent
given names: Louis S. (first given name and initial for Stephen)
EN patronym: St. Laurent (used by the Prime Minister in his EN correspondence)
FR patronym: St-Laurent (used by the Prime Minister in his FR correspondence)
NOTE See the explanation of the special case of this patronym in the examples of category 4. (a) (i), p. 129.
EN-FR 2. Names of Pan-Canadian significance (PANCAN) and CUENGO rules

In a FR toponym, names of Pan-Canadian significance (PANCAN) and the rules of the Comité d’uniformisation de l’écriture des noms géographiques officiels du Canada (CUENGO) concerning the spelling of toponyms must be followed.

Examples:

(a) PANCAN

EN-FR 3. Names of gazetteered places, whether inhabited or uninhabited

The name of an inhabited place and the specific of the name of an uninhabited place of EN form that are part of the FR name of a park or historic site or canal retain the same spelling as in the Gazetteer; that is, they remain the same, with or without a hyphen between the elements and with all their characteristics, signs of the possessive, accents, diacritics and capitals.

This rule also applies to names of historically inhabited places and names given to structures.

Examples: Fish Creek, Frenchman Butte, St. Peters, St. Andrew's L'Anse aux Meadows, Sault Ste. Marie, West Isles, Bois Blanc, McNab, Espérance, Kicking Horse, Bar U

General rules for going from FR to EN (FR-EN)

FR-EN 1. Name of a person in an EN toponym

In an EN toponym, the name of a person must have the same spelling as when the person was alive; thus a compound given name or patronym retains the hyphen in EN and there is no hyphen between the title, given name(s), initial(s) of given name(s) and patronym (family name).

Examples:

(a) compound given name

Names of gazetteered places, whether inhabited or uninhabited

The name of an inhabited place and the specific of the name of an uninhabited place of FR form that are part of an EN name of a park or historic site or canal retain the same spelling as in the Gazetteer; that is, they remain the same, with or without a hyphen between the elements and with all their characteristics, accents, diacritics and capitals.

This rule also applies to names of historically inhabited places and names given to structures.

FR-EN 4. **FR trade name in an EN toponym**

In an EN toponym, a FR trade name, the FR name of a company or the official FR name given to premises must have the same spelling as when this facility is designated separately, that is, when its designation is not the specific of the name of a park or historic site; it is therefore written without the hyphens except those required by the specific of the name of the structure or the toponym listed in the Gazetteer.

**Examples:**

**FR** lieu historique national des Forges-du-Saint-Maurice (Qc)  
NOTE "Forges du Saint-Maurice" is the trade name of the historic company.

**EN** Forges du Saint-Maurice National Historic Site (Que.)

**FR** lieu historique national du Manoir-Papineau (Qc)  
NOTE "Manoir Papineau" is the name given to the residence by its owner.

**EN** Manoir Papineau National Historic Site (Que.)

**FR trade name in a FR toponym**

In a FR toponym, a FR trade name, the FR name of a company or the official FR name given to premises or to a battle takes the hyphens.

**FR** lieu historique national des Forges-du-Saint-Maurice (Qc)  
Trade name: Forges du Saint-Maurice

**FR** lieu historique national du Manoir-Papineau (Qc)  
Official designation: Manoir Papineau

**FR** *lieu historique national  
du Fort-Numéro-Un-de-la-Pointe-de-Lévy (Qc)  
Official designation: fort Numéro-Un  
NOTE The specific of the name of a fort is always an official designation.

**FR** lieu historique national de la Bataille-du-Moulin-à-Vent (Ont.)  
Official designation: bataille du Moulin-à-Vent  
NOTE The specific of the name of a battle is always an official designation.
Hyphens VS dashes

1. In FR and EN, certain specifics representing an association of facts, ideas or place names require the use of a dash (—), not to be confused with the hyphen (–). In FR, a dash is preceded and followed by a space, which is not the case for a hyphen; in EN, neither a dash nor a hyphen is preceded or followed by a space.

The toponyms requiring dashes are as follows:

EN  Trent-Severn Waterway (Ont.)
FR  voie navigable Trent – Severn (Ont.)

EN  Saguenay-St. Lawrence Marine Park (Que.)
FR  parc marin du Saguenay – Saint-Laurent (Qc)

EN  *Fort Amherst-Port-la-Joye National Historic Site (P.E.I.)
FR  *lieu historique national du Fort-Amherst – Port-la-Joye (I.-P.-E.)

2. Similarly, a dash is used to link an association of toponyms of which at least one already includes a hyphen.

Example:

FR  parc marin du Saguenay – Lac-Saint-Jean (hypothétique)
    NOTE The Saguenay and Lac-Saint-Jean regions. The regions are involved here, not the river or the lake.
EN  Saguenay-Lac-Saint-Jean National Park (hypothetical)

3. On the other hand, it is the practice to use a hyphen and not a dash to link the names of two persons associated historically, even though the name of one of them already includes a hyphen.

The toponym corresponding to this rule is the following:

EN  *Cartier-Brébeuf National Historic Site (Que.)
FR  *lieu historique national Cartier-Brébeuf (Qc)

Other examples:

EN  Macdonald-Cartier Bridge (between Ottawa, Ont. & Hull, Que.)
FR  pont Macdonald-Cartier (entre Ottawa (Ont.) et Hull (Qc))
    NOTE Named after the Fathers of Confederation, Sir John A. Macdonald and Sir George-Etienne Cartier.

EN  King-St. Laurent National Historic Site (hypothetical)
FR  lieu historique national King-St-Laurent (hypothétique)
    NOTE This refers to former Liberal Prime Ministers William Lyon Mackenzie King and Louis S. St. Laurent.
Hyphens – EN

In an EN toponym, a FR facility or historical fact with an EN equivalent takes only those hyphens required by the specific of a gazetteered toponym or by compliance with the spelling of a name given.

Examples:

(a) without hyphens

EN *Fort No. 1 at Pointe de Lévy National Historic Site (Que.)
FR *lieu historique national du Fort-Numéro-Un-de-la-Pointe-de-Lévy (Qc)

EN *The Fur Trade at Lachine National Historic Site (Que.)
FR *lieu historique national du Commerce-de-la-Fourrure-à-Lachine (Qc)

(b) with hyphens

EN Pointe-au-Père Lighthouse National Historic Site (Que.)
FR lieu historique national du Phare-de-Pointe-au-Père (Qc)

EN Saint-Louis Mission National Historic Site (Ont.)
FR lieu historique national de la Mission-Saint-Louis (Ont.)

Hyphens – FR

The reverse does not apply, since, in a FR toponym, an EN facility or historical fact with a FR equivalent keeps the hyphens required by the specific of a gazetteered toponym or compliance with the spelling of a name given, and takes those hyphens required by the rule for establishing the specific of a Parks Canada toponym.

Examples:

(a) without hyphens

EN Bar U Ranch National Historic Site (Alta.)
FR lieu historique national du Ranch-Bar U (Alb.)

(b) with hyphens

EN Dalvay-by-the-Sea Hotel National Historic Site (P.E.I.)
FR lieu historique national de l’Hôtel-Dalvay-by-the-Sea (î.-P.-É.)
Capitals

Capitals — EN

1. In the specific of an EN toponym, all words other than the articles (a, the) and the prepositions (of, in, into, on, at, by, and so on) are capitalized; this applies to the nouns, adjectives, verbs and adverbs which are elements of the specific.

Examples: (articles and prepositions: BOLD; words capitalized because they are part of a specific: underlined)

EN Battle of the Windmill National Historic Site (Ont.)
FR lieu historique national de la Bataille-du-Moulin-à-Vent (Ont.)

EN Old Port of Québec Interpretation Centre (Que.)
FR centre d’interprétation du Vieux-Port-de-Québec (Qc)

EN *The Fur Trade at Lachine National Historic Site (Que.)
NOTE "The" is capitalized because the article is the first word in the EN toponym.
FR *lieu historique national du Commerce-de-la-Fourrure-à-Lachine (Qc)

EN Jasper Park Information Centre National Historic Site (Alta.)
NOTE The information centre of Jasper National Park.

NOTE The tea house named after the nearby Twin Falls.
FR lieu historique national du Salon-de-Thé-des-Chutes-Twin (C.-B.)

2. However, this rule does not apply to articles or prepositions already capitalized as part of a specific.

Example:

EN Head-Smashed-In Buffalo Jump National Historic Site (Alta.)
FR lieu historique national de l’Escarpement-Head-Smashed-In (Alb.)
du Précipice-à-Bisons-Head-Smashed-In (Alb.)

EN Head-Smashed-In Buffalo Jump (Alta.) [GAALB,1988,,26]

Capitals – FR

1. In the specific of a FR toponym, all words other than the articles (le, la, l’, les, un, une, des) and the prepositions (à, de, vers, sans, pour, and so on) are capitalized; this applies to the nouns, adjectives, verbs and adverbs which are elements of the specific.

Examples: (articles and prepositions: BOLD; words capitalized because they are part of a specific: underlined)

FR  *lieu historique national de L’Anse aux Meadows (T.-N.)

EN  The Acadian Odyssey Exhibit (N.B.)
FR  exposition L’Odyssee acadienne (N.-B.)

3. A cardinal point is always capitalized when it is part of a toponym.

Examples:

EN  Riding Mountain Park East Gate Registration Complex National Historic Site (Man.)
FR  lieu historique national du Centre-d’Inscription-de-l’Entrée-Est-du-Parc-du-Mont-Riding (Man.)

B - SPECIFIC RULES

NOTICE

These rules do not apply to the names of heritage rivers, which, as they are geographical names, are governed by the rules of the
Comité d’uniformisation de l’écriture des noms géographiques officiels du Canada (CUENGO)
Categories of toponyms for designations from EN to FR and from FR to EN

FIRST CATEGORY

Specific = name given, placed in apposition

EN

1. (a)  
- specific formed of a single element
  Banff National Park (Alta.)

- specific formed of more than one element
  Gwaii Haanas National Park Reserve (B.C.)

- specific formed of a complex element
  Trent-Severn Waterway (Ont.)

Exception to 1. (a) (for FR):
- specific formed of a Latin name
  Terra Nova National Park (Nfld.)

The specific
- is a name (English, French, Latin or Aboriginal language) given by Parks Canada, or
- is the same as that of one or more geographical entities within the park/place or in the region;
- it precedes the generic, without a connecting particle, and
- is formed of one or more elements, usually without a hyphen if it is a name in English, French or Aboriginal language, and without a hyphen if it is a Latin name.

NOTE In English, a Latin term, whether used or not as a proper noun, does not take a hyphen.  
(The Canadian Style, 1985, page 44, paragraph 2.04 j) 

FR

1. (a)  
- specific formed of a single element
  parc national Banff (Alb.)

- specific formed of more than one element
  réserve de parc national Gwaii Haanas (C.-B.)

- specific formed of a complex element
  voie navigable Trent-Severn (Ont.)
The specific
- stays the same,
- keeps the same spelling, with or without hyphen(s), and
- is placed in apposition to the generic, without a connecting particle.

Exception to 1. (a):
- specific formed of a Latin name
  parc national Terra-Nova (T.-N.)

The specific
- stays the same,
- keeps the same spelling, but takes a hyphen as if it were a French specific, and
- is placed in apposition to the generic, without a connecting particle.

NOTE In French, Latin names follow the rule for French names.

EN
1. (b) Elk Island National Park (Alta.)

The specific
- is an English name given by Parks Canada and
- represents an uninhabited entity, a reality of the environment or an historical fact which normally has a French equivalent;
- it
- precedes the generic, without a connecting particle, and
- is formed of two or more elements not joined to each other by a hyphen or hyphens.

FR
1. (b) parc national Elk Island (Alb.)

The specific
- stays the same, through usage,
- keeps the same spelling, without a hyphen, and
- is placed in apposition to the generic, without a connecting particle, as an exception to any rule.
Toponyms of category 1. (a)

Specific = name (English, French or Aboriginal language) given by Parks Canada, placed in apposition, and formed of one or more elements, usually without a hyphen, or a complex element

— specific formed of a single element

Aulavik National Park (N.W.T.)
parc national Aulavik (T.N.-O.)

former name / ancien nom (cat. 3. (a), p. 115):
Banks Island Proposed National Park (N.W.T.)
projet de parc national de l'île-Banks (T.N.-O.)

Auyuittuq National Park Reserve (N.W.T.)
réserve de parc national Auyuittuq (T.N.-O.)

Banff National Park (Alta.)
parc national Banff (Alb.)

NOTE The creation of the park in 1885, the first of the parks system in Canada, merges with that of the inhabited hamlet of the same name (home base for the builders of the transcontinental railway during construction of the rail section through the Rockies), so we do not know whether the park or the hamlet was the first to take the name "Banff".

Forillon National Park (Que.)
parc national Forillon (Qc)

NOTE This name was given to the park and other entities in the region, although we cannot determine its origin exactly and the Quebec Gazetteer gives "parc national de Forillon" [CT-1,1987,,633].

Fundy National Park (N.B.)
parc national Fundy (N.-B.)

Ivvavik National Park (Y.T.)
parc national Ivavik (Yn)

former name / ancien nom (cat. 3. (c), p. 123):
Northern Yukon National Park (Y.T.)
parc national du Nord-du-Yukon (Yn)

Jasper National Park (Alta.)
parc national Jasper (Alb.)

Kejimkujik National Park (N.S.)
parc national Kejimkujik (N.-E.)

NOTE Named after the lake of the same name in the region.
Kluane National Park Reserve (Y.T.)
reserve de parc national Kluane (Yn)
NOTE Aboriginal name taken from entities of the same name in the region and not from the inhabited locality of this name, which would have given "parc national de Kluane".

Kootenay National Park (B.C.)
parc national Kootenay (C.-B.)
NOTE Named after entities of the same name in the region.

Kouchibouguac National Park (N.B.)
parc national Kouchibouguac (N.-B.)
NOTE Aboriginal name taken from entities of the same name in the region and not from the inhabited population centre of this name, which would have given "parc national de Kouchibouguac".

Nahanni National Park Reserve (N.W.T.)
réserve de parc national Nahanni (T.N.-O.)
NOTE Aboriginal name taken from entities of the same name in the region and not from the river of this name, which would have given "réserve de parc national de la Nahanni". The Gazetteer mistakenly gives the name as that of a park and not of a park reserve and incorrectly includes the connecting particle "de" in the French name: "Nahanni National Park - parc national de Nahanni"; the latter would be correct if the park had been named after an inhabited place.

Pukaskwa National Park (Ont.)
parc national Pukaskwa (Ont.)
NOTE Named after entities of the same name in the region.

Rideau Canal (Ont.)
canal Rideau (Ont.)
NOTE Named after entities of the same name in the region.

Vuntut Proposed National Park (Y.T.)
projet de parc national Vuntut (Yn)
former name / ancien nom (cat. 3. (a), p. 115):
Old Crow Flats Proposed National Park (Y.T.)
projet de parc national de la Plaine-Old Crow (Yn)

Yoho National Park (B.C.)
parc national Yoho (C.-B.)
NOTE This park is named after the valley of the same name (Yoho Valley). It could not be named after the rail point of this name; the name "parc national de Yoho" [GACOL,1985,,,280] in the Gazetteer thus needs to be corrected.
Gwaii Haanas National Park Reserve; Gwaii Haanas (B.C.)
réserve de parc national Gwaii Haanas; Gwaii Haanas (C.–B.)
and
Gwaii Haanas National Marine Park Reserve; Gwaii Haanas (B.C.)
réservation de parc marin national Gwaii Haanas; Gwaii Haanas
(C.–B.)
NOTE Names on which agreement has been reached; the Aboriginal
people designate them only as "Gwaii Haanas".

former names / ancien noms:
1. Gwaii Haanas National Park Reserve and National Marine
Park Reserve (B.C.)
réserve de parc national et réserve de parc marin
national Gwaii Haanas (C.–B.)
2. South Moresby/Gwaii Haanas National Park Reserve and
National Marine Park Reserve (B.C.)
réservation de parc national et réserve de parc marin
national Moresby-Sud/Gwaii Haanas (C.–B.)

---

Trent-Severn Waterway (Ont.)
voie navigable Trent – Severn (Ont.)
NOTE Joining of the names of two entities connected by the
waterway; the hyphen is a connecting dash which must be
preceded and followed by a space in FR but not in EN.

---

Exceptional toponym in category 1. (a)

Specific = Latin name

Terra Nova National Park (Nfld.)
parc national Terra-Nova (T.–N.)
NOTE In English, a Latin term used as a proper noun does not take
a hyphen; in French, however, a Latin name follows the rule
for French names and takes a hyphen when it is used as a
specific.
If the park had been named after the inhabited population
centre, we would say "parc national de Terra Nova"
[GANEW,1983,,176]. The Gazetteer is mistaken in giving this
as the official name, as the park is not named after the
population centre, but after other entities of the same name
in the region.
Toponyms of category 1. (b)

Specific = name given by Parks Canada and placed in apposition, formed of an English name consisting of two or more elements not linked to each other by a hyphen or hyphens, and which through usage retains the English form in apposition in French, as an exception to any rule.

Elk Island National Park (Alta.)
parc national Elk Island (Alb.)
NOTE Created in 1906, this park, the only one to be fenced, retains the English name in apposition in French because of the length of time the error has been repeated and because of the cost that would be involved in changing it. The exact name of the park in French should have been:
- parc national de l'îlot-Elk
  OR
- parc national de l'îlot-de-Végétation-Elk,
  as this park is named for the fact that it is an island of natural vegetation that is different from that surrounding it, hence "îlot de végétation Elk".
  If it had been named after the inhabited locality, the name would have been "parc national d'Elk Island" or, if named after Elk Island, "parc national de l'Île-Elk".

Fathom Five National Marine Park (Ont.)
parc marin national Fathom Five (Ont.)
NOTE The provincial park of this name has become a national park. However, only the provincial park is gazetteered. This park contains shipwrecks. The expression "Fathom Five" is taken from The Tempest by William Shakespeare:
"Full fathom five thy father lies,
Of his bones are corals made."
A "fathom" is a unit of measure six feet long used mainly in measuring water depth and the length of vessels, ropes, cables and so on.
(5 fathoms = 30 feet)
"Fathom Five" must be kept, as some of the flavour of this specific would be lost in translation.
[Extension of CUENGO Rule 2.]

Pacific Rim National Park Reserve (B.C.)
réserve de parc national Pacific Rim (C.-B.)
NOTE It is mistakenly maintained that this name is given and is not translated; yet, as a general rule, "Pacific Rim" (not in the Gazetteer) is rendered as "littoral du Pacifique" (non répertorié). However, usage has established the EN specific in the FR name of the park.
The FR name of the park should have been:
- réserve de parc national du Littoral-du-Pacifique.
Wood Buffalo National Park (N.W.T.)
parc national Wood Buffalo (T.N.-0.)
NOTE No other entity of this name is in the Gazetteer.
This park once included large herds of "wood buffalo" or "bisons des bois", which were imported from the United States because the race was approaching extinction; it is presently populated mostly by plains buffalo and hybrid buffalo.
Even though the name of this park was given by Parks Canada, the English designation in French is established by usage.
The name of the park should have been:
- parc national du Bison-des-Bois
  OR
- parc national des Bisons-des-Bois.

Cave and Basin National Historic Site (Alta.)
lieu historique national Cave and Basin (Alb.)
NOTE "Cave and Basin" is considered to be the name given to the historic site. No other entity with this name is in the Gazetteer.
The name was given by Parks Canada to recall the hot springs cave that gave rise to creation of the first national park in Canada; this water flowed in a natural circular basin. In 1887, a "bath house", or bathing pool, was built here and the facilities were renovated in 1985.
This historic site could have been called:
- lieu historique national des Sources-Thermales
  OR
- lieu historique national de la Grotte-des-Sources-Thermales
  in preference to the translated expressions:
- lieu historique national de la Caverne-et-du-Bassin
  OR
- lieu historique national de la Grotte-et-du-Bassin.
"Cave and Basin" is an established designation used in the region by both Francophones and Anglophones. Only the long history of usage of the English designation in French allows us to consider the name of this historic site as an exception to the rule.

*Fort Rodd Hill National Historic Site (B.C.)
*lieu historique national Fort Rodd Hill (C.-B.)
NOTE "Fort Rodd Hill" is considered to be the name given to the historic site. However, the site is named after the fort built on the hill where there once was a house occupied by the Rodd family. The patronym was given to the hill and to the fort, which was named after the hill; in the Gazetteer, the co-ordinates of the site and the hill are the same. The entity gazetteered as "Rodd Hill" [GACOL,1985,,209] is rendered in FR as "colline Rodd". The fort should have been named as for a gazetteered uninhabited entity:
hill = colline [BT-176,1987,,134]
Rodd Hill = colline Rodd [CUENGO Rule 1.]
Fort Rodd Hill = fort de la Colline-Rodd
The name of the historic site should thus have been:
lieu historique national du Fort-de-la-Colline-Rodd (C.-B.)
SECOND CATEGORY

Specific = name of an inhabited place

EN

2. (a) name of an inhabited place with one element
   Carillon Canal (Que.)
   Ninstints National Historic Site (B.C.)

2. (b) name of an inhabited place with two or more elements,
   without a hyphen
   Frenchman Butte National Historic Site (Sask.)
   *L'Anse aux Meadows National Historic Site (Nfld.)

2. (c) name of an inhabited place with two or more elements,
   with a hyphen
   Saint-Ours Canal (Que.)
   *Coteau-du-Lac National Historic Site (Que.)

The specific
- is the name of an inhabited place listed in the Gazetteer of
  the province or territory;
- precedes the generic, without a connecting particle, and
- is formed of one or more elements, whether joined or
  not by a hyphen or hyphens.

FR

2. (a) name of an inhabited place with one element
   canal de Carillon (Qc)
   lieu historique national de Ninstints (C.-B.)

2. (b) name of an inhabited place with two or more elements,
   without a hyphen
   lieu historique national de Frenchman Butte (Sask.)
   *lieu historique national de L’Anse aux Meadows
   (T.-N.)

2. (c) name of an inhabited place with two or more elements,
   with a hyphen
   canal de Saint-Ours (Qc)
   *lieu historique national de Coteau-du-Lac (Qc)

The specific
- stays the same, as listed in the Gazetteer,
- keeps the same spelling, with or without hyphen(s), and
- is joined to the generic by the connecting particle "de" or
  "d’".
Toponyms of category 2. (a)

Specific = name of an inhabited place with one element

*Batoche National Historic Site (Sask.)
*lieu historique national de Batoche (Sask.)
NOTE Named after the former village of this name, which also designates a currently inhabited locality.

Carillon Canal (Que.)
canal de Carillon (Qc)
NOTE FR as in the Gazetteer; "Carillon" = inhabited place.

Chambly Canal (Que.)
canal de Chambly (Qc)
NOTE FR as in the Gazetteer; "Chambly" = inhabited place.

Churchill Proposed National Park (Man.)
projet de parc national de Churchill (Man.)
NOTE Proposed park named after the inhabited place.

Lachine Canal (Que.)
canal de Lachine (Qc)
NOTE FR as in the Gazetteer; "Lachine" = inhabited place.

Ninstints National Historic Site (B.C.)
lieu historique national de Ninstints (C.-B.)
NOTE Ninstints: historically inhabited place, recognized for the Haida culture preserved there.
Toponyms of category 2. (b)

Specific = name of an inhabited place with two or more elements, without a hyphen

*Castle Hill National Historic Site (Nfld.)
*lieu historique national de Castle Hill (T.-N.)
NOTE Until it was designated as a national historic site, the hill was inhabited and the population centre was called "Castle Hill".

*Signal Hill National Historic Site (Nfld.)
*lieu historique national de Signal Hill (T.-N.)
NOTE Until it was designated as a national historic site, the hill was inhabited and the population centre was called "Signal Hill".

Frenchman Butte National Historic Site (Sask.)
lieu historique national de Frenchman Butte (Sask.)
NOTE Named after the hamlet of this name and not the geographical entity of the same name, which would have given "lieu historique national de la Butte-Frenchman".

West Isles Proposed National Marine Conservation Area (N.B.)
projet d'aire marine nationale de conservation de West Isles (N.-B.)
NOTE This proposed national marine conservation area is named after the parish of this name.

Prince Albert National Park (Sask.)
parc national de Prince Albert (Sask.)
NOTE The park is named after the city of this name listed in the Gazetteer [GASAK,1985,,,80] which also lists other entities of the same name. If the park had been named after Albert, the Prince, the name would have been "parc national Prince-Albert", as "parc national du Prince-Albert" would have meant that the park had once belonged to the Prince or that he had lived there. If it had been named after other entities of the same name in the region, the name would have been "parc national Prince Albert", without a hyphen, since the entities in the region are named in English and not in French, and listed as "Prince Albert" in the Gazetteer; the entry "parc national de Prince-Albert" [GASAK,1985,,,80] thus needs to be corrected.

*L'Anse aux Meadows National Historic Site (Nfld.)
*lieu historique national de L'Anse aux Meadows (T.-N.)

*Port au Choix National Historic Site (Nfld.)
*lieu historique national de Port au Choix (T.-N.)
*Lower Fort Garry National Historic Site (Man.)*
*lieu historique national de Lower Fort Garry (Man.)*

NOTE "Lower Fort Garry" is the name of a former community which was also a fort. The site was given this name because "Fort Garry" (Winnipeg) was flooded in the spring and the new fort/facility, 30 km downstream on the Red River, had the advantage of being located on higher ground.

St. Peters Canal (N.S.)
canal de St. Peters (N.-É.)

NOTE This canal is named using the old spelling for the inhabited place listed as "St. Peter's" [GANOV,1993,,,280] in the Gazetteer, which also correctly lists: "St. Peters Canal (Canal 2-Chenal)" [GANOV,1993,,,280].

Sault Ste. Marie Canal (Ont.)
canal de Sault Ste. Marie (Ont.)

NOTE Sault Ste. Marie: contemporary spelling of the inhabited entity, as currently listed in the Gazetteer. The historic spellings "Sault-Sainte-Marie" and "Sault-Ste-Marie" have not been kept.
Toponyms of category 2. (c)

Specific = name of an inhabited place with two or more elements, with hyphen(s)

Grande-Grave National Historic Site (Que.)
lieu historique national de Grande-Grave (Qc)
NOTE Grande-Grave: spelling of the name of an historically inhabited place; name of the first village, later spelled "Grande-Grève", but changing back to "Grande-Grave" on October 21, 1993 by a decision of the Commission de toponymie du Québec.

*Grand-Pré National Historic Site (N.S.)
*lieu historique national de Grand-Pré (N.-É.)
NOTE Named after the historically inhabited "Grand-Pré", a spelling which the residents of "Grand Pre" [GANOV,1993,,,121] today would like to have reestablished. In the Acadian turn of phrase, there was "grand de pré" ("lots of meadow") at this location.

*Port-Royal National Historic Site (N.S.)
*lieu historique national de Port-Royal (N.-É.)
NOTE The Gazetteer lists "Port Royal" [GANOV,1993,,,258], the current spelling of the name of the inhabited place. However, the historic site is named in accordance with history: Champlain built the Habitation at Port-Royal in 1608-1609. The history texts refer to the "Habitation de Port-Royal", stating that it was Champlain who gave the name of Port-Royal to the site. In French, "port Royal" designates the port and "Port-Royal" the inhabited place named after the port. It is preferable for an historic site to be named using the historical spelling and not the current spelling; this is why the English adopts "Port-Royal", the spelling of the name under French rule.

Specific = name of an uninhabited place

EN

The specific
- is the name of an uninhabited place (geographical entity or administrative region) listed in the Gazetteer of the province or territory;
- it
  - precedes the generic, without a connecting particle, and
  - is formed of a generic and a specific, of which the latter may be formed of one or more elements, whether joined or not by a hyphen or hyphens.

FR

The specific
- is first treated as a toponym of an uninhabited place:
  - usually, the generic is translated and the specific remains the same or changes in accordance with the CUENGO rules;
  - the generic of the toponym is capitalized and is joined to the specific by a hyphen, with the specific keeping the spelling of its entry in the Gazetteer.
  - Changed in this way, the French form of this toponym of an uninhabited place
  - becomes the specific of the park/site/canal name and
  - is joined to the generic by one of the connecting particles "du", "de la", "de l'" or "des".
3. (a) Specific = uninhabited place - name of a gazetteered geographical entity corresponding to CUENGO Rule 1.

**Rule 1. Translation of the generic.** As a general rule, the generic of the name of a geographical entity must be translated. (The preferred term is the French equivalent indicated in the *Glossary of Generic Terms in Canada’s Geographical Names*, BT-176, unless usage (represented by *Atlas et toponymie du Canada* and by the 1:2,000,000 map in six sheets published in 1971) has established another.)

The specific
- is the name of an uninhabited place (geographical entity or administrative region) listed in the Gazetteer of the province or territory;
- precedes the generic, without a connecting particle and
- is formed of a generic and a specific, of which the latter may be formed of one or more elements, whether joined or not by a hyphen or hyphens.

This specific is a toponym whose FR equivalent is established according to CUENGO Rule 1.

**FR**

**lieu historique national de la Colline-Bead (Ont.)**
**lieu historique national du Col-Kicking Horse (C.-B.)**

The generic of the toponym of an uninhabited place
- is translated and
- is capitalized.

The specific of the toponym of an uninhabited place
- stays the same, without the addition of a hyphen between the elements and with all its characteristic marks, absence or presence of hyphen(s), sign of the possessive, accents, diacritics and capitals;
- is placed in apposition to the generic, without a connecting particle and
- is joined to it by a hyphen.

The generic and specific combination forming the toponym of an uninhabited place
- then becomes the specific of the park/site/canal name and
- is joined to the generic by one of the connecting particles "du", "de la", "de l’" or "des".

Characteristic: Specific comprising an alternate name.

CUENGO rules: II - Application:
Alternate names (noms alternatifs) and provincial translations.
In some circumstances, the provincial and territorial authorities allow the use of geographical names which are not official. Where there is a French variant for an official English name, this other name is preferable to any other unofficial French form of the toponym.

Point Pelee National Park (Ont.)
parc national de la Pointe-Pelée (Ont.)
NOTE Ontario allows the alternate name (translation of the specific)
Point Pelee = pointe Pelée,
depending on whether we consider:
in EN, "Pelee" = name of a person,
in FR, "Pelée" = point without vegetation, "pointe pelée".
Characteristic: EN specific of FR origin.

Rule 3. Lowercase in the generic (capitalized if there is inversion). In narrative text, the generic of the name of a geographical entity begins with a lowercase letter in French. However, when the generic is placed after the specific, it takes a capital letter.
Example: le lac Grand BUT les Grands Lacs.

Gros Morne National Park (Nfld.)
parc national du Gros-Morne (T.-N.)

NOTE In FR, the generic "Morne" placed after the specific "Gros" is capitalized because there is inversion.
The toponym of the uninhabited place is formed as follows:
EN Gros Morne (Hill-Colline) [GANEW,1983,,,72]
FR la colline Gros Morne (sens: gros mont).

CUENGO Rule 2. (a): Generic not translated.
The generic must not be translated if it does not indicate the true nature of the entity designated (which is indicated in parentheses after the toponym in the Gazetteer). It is also not advisable to translate rare generics or those borrowed from foreign languages (in this case, "morne") when they add to the specificity of the geographical name.
The park should therefore have been named:
- parc national de la Colline-Gros-Morne.
But here it is the use of the simple designation "Gros Morne" (the mountain/hill/morne named "Gros") to designate the hill which established the name adopted for the park. As it has become the specific of the park name, the toponym takes a hyphen in FR.

Grosse Île National Historic Site (Que.)
lieu historique national de la Grosse-Île (Qc)

NOTE In FR, the generic "Île" placed after the specific "Grosse" is capitalized because there is inversion.
The toponym of the uninhabited place is formed as follows:
FR Grosse Île [CT-1,1987,,,742]
EN Grosse Île (the island named "Grosse").
The inversion ("Grosse Île" and not "Île Grosse") is the reason that "Grosse Island" is not used in EN.
CUENGO Rule 2. (a), adapted from FR to EN:
"Grosse Île" in EN has no hyphen because it is an island and not an inhabited place. As the toponym has become the specific of the name of the national historic site, it takes a hyphen in FR.
Characteristic: Omission of the generic. (rivers)

Rule 4. Omission of the generic. The generic may be omitted in French in the names of rivers. The gender of the article is then masculine for "fleuve" (large river flowing to the sea) and feminine for "rivière", except in special cases recognized by usage.

Exceptions (Que.): le Richelieu, le Saint-François, le Saint-Maurice, le Saguenay.

Saguenay–St. Lawrence Marine Park (Que.)

EN Saguenay River or the Saguenay
EN St. Lawrence River FR fleuve Saint-Laurent (PANCAN)

The park is located at the confluence of the Saguenay (River = rivière) and the St. Lawrence (River = fleuve). The land-based park is a provincial project, while the marine park is a joint federal-provincial project.

EN Saint-Maurice River or the Saint-Maurice

This park is mentioned here for the element corresponding to CUENGO Rule 4.; its actual category: 4. (c) (iv), p. 135.
Characteristic: Specific comprising the name of a region

Rule 4. (application): Region.

La Mauricie National Park (Que.)
parc national de la Mauricie (QC)

NOTE Named after a region, "la Mauricie" (the Mauricie region, or the region of the Saint-Maurice River). Only "Mauricie" appears in the Gazetteer [CT-1, 1987, 1126], hence the uncapitalized "la" in the FR toponym; the same article at the beginning of a toponym requires a capital letter in EN. Similarly, at the start of a line or in a list in FR, we write "La Mauricie".
In Quebec, usage requires that the designation of a region be preceded by an article, even if the article is not part of the official entry of the name in the Gazetteer.

Characteristic: Connecting particle related to usage

Rule 8. (e) Joining of the generic and the specific. A translated generic is generally appended directly to the untranslated specific, except in the following cases: (...)
(e) In all other cases where usage has established the presence of a preposition.

Mingan Archipelago National Park Reserve (Que.)

3. (c) Specific = uninhabited place formed of two geographical entities, one which is not gazetteered and is named after the other which is gazetteered, corresponding to CUENGO Rule 8. (b)

Rule 8. (b) **Joining of the generic and the specific.** A translated generic is generally appended directly to the untranslated specific, except in the following cases: (...) (b) Certain generics are often separated from the specific by a connecting particle when a relationship of belonging between two entities must be expressed.

The specific
- stays the same,
- keeps the same spelling, but with hyphen(s) between the elements if there is more than one, and
- is placed in apposition to the generic, without a connecting particle;
- if preceded by a title, requires the connecting particle "de".
Toponyms of category 4. (a) (i)
Specific = Name of a famous person

NOTE There is no need to distinguish between giving the name of a famous person to a place because the person lived there (name placed in apposition in French) and doing so because the person was its owner (a situation requiring that the name be joined by the particle "de" in FR). In other words, the rule for honouring a person (apposition) takes precedence over the rule for ownership (connecting particle "de").

*Louis S. St. Laurent National Historic Site (Que.)
*lieu historique national Louis-S.-St-Laurent (Qc)
NOTE Louis St. Laurent was born and spent his childhood here; therefore, his name is associated with the complex comprising his grandfather's general store, the house and the gardens. The name given is intended both to honour him and to point out that he was the owner of the premises. Special case: The family of Mr. Louis S. St. Laurent requested that we follow the custom adopted by the Prime Minister, who signed his English correspondence "St. Laurent" and his French letters "St-Laurent", thus emphasizing his dual origin, French on his father's side and English on his mother's. The "S." stands for "Stephen", the name of his godfather, his mother's brother.

NOTE If the name of the person is preceded by a title, the generic is followed by the connecting particle "de" in FR.

*Sir Wilfrid Laurier National Historic Site (Que.)
*lieu historique national de Sir-Wilfrid-Laurier (Qc)
NOTE It was mistakenly believed that this red brick house in the centre of the village of Saint-Lin was the birthplace of Sir Wilfrid Laurier. After the error was corrected, the location was still preserved to honour Laurier (according to a Parks Canada historian). The purpose of the name given is both to honour the man and to recall that he was the owner of the premises.

*Sir George-Étienne Cartier National Historic Site (Que.)
*lieu historique national de Sir-George-Étienne-Cartier (Qc)
NOTE The site did in fact belong to Sir George-Étienne Cartier (historian). The purpose of the name given is both to honour the man and to recall that he was the owner of the premises.

*Woodside National Historic Site (Ont.)
*lieu historique national Woodside (Ont.)
NOTE "Woodside" [GAONT,1988,,424] is the name of an inhabited place. However, a Parks Canada historian has confirmed that this name was first given by William Lyon Mackenzie King to the house where he lived as a teenager, hence the apposition in FR. If the site had been named after the inhabited place, the name would have been "lieu historique national de Woodside".
4. (b) Specific = name of a ship

EN

4. (d) Specific = Trade name or name of a structure with a FR equivalent

EN

The specific
- is a trade name or
- the name of a man-made building, structure, facility or premises, where the name has a French form;

it
- precedes the generic, without a connecting particle, and
- is formed of one or more elements, without any hyphens, except where the spelling of a person's given name, a name or a specific, whether in the Gazetteer or not, must be followed.

FR

The specific is first treated separately, as a designation of a man-made structure: ordinarily, the generic of the combination is translated, but not the specific, following the usual rules. Then the generic and specific combination becomes the specific of the park/site/canal name according to the special rules below.

  premises, where the name has an equivalent FR form;

it
- precedes the generic, without a connecting particle, and
- is formed of a generic and specific combination, without any
  hyphens, except where the spelling of a person’s given name,
  a name or a specific, whether in the Gazetteer or not, must be
  followed.

The specific of the combination
- is the name given to the premises;

it
- precedes the generic of the combination or follows it,
  without a connecting particle, and
- is formed of one or more elements, whether joined or not
  by a hyphen or hyphens.

house = maison
Sir John Johnson House National Historic Site (Ont.)
lieu historique national de la Maison-de-Sir-John-Johnson (Ont.)
NOTE The name given is intended both to honour the man and point
out that he was the owner of the premises. The connecting
particle is required by the title preceding the name of the
person. — See: exceptions to 4. (a) (i), p. 130.

Name given to a structure = name of an armed forces member
NOTE It is military custom to name barracks after the person in
charge of them, as if he were the owner.

barracks = casernes(s)
Butler’s Barracks National Historic Site (Ont.)
lieu historique national des Casernes-de-Butler (Ont.)
NOTE This site is named after Colonel Butler, hero of the
American Revolution in this locality. The fact that greater
insistence is put on "military ownership" explains the
particle "de" (casernes de Butler), as opposed to a non-
military famous person, whose name is given to a structure
by placing it in apposition. "Barracks" is always in the
plural in EN; it is rendered here in FR by the plural
"casernes" because it includes a number of buildings.

Name given to a structure = title with a French equivalent
NOTE A name that is not taken from a person, but from a title
held which has a French equivalent, has both its generic and
specific translated.

NOTE Southwold = inhabited place
Southwold Earthworks = remblais de Southwold
(not in the Gazetteer)
"Earthworks = remblais": man-made origin, compared to "heights = hauteurs", which refers to the natural configuration of the land (category 3. (c), p. 124).

cairn = cairn
Glengarry Cairn National Historic Site (Ont.)
lieu historique national du Cairn-de-Glengarry (Ont.)
NOTE Glengarry = inhabited place
Glengarry Cairn = cairn de Glengarry (not in the Gazetteer)
The designation "Glengarry Cairn" for the site comes from a cairn built on the island in honour of the armed forces members of Glengarry County.
Here, the cairn is man-made; cairns in the natural state [BT-176, 1987,, 41] are mounds named for their resemblance to man-made cairns.

The EN generics are "Martello towers"/"martello towers";
the FR generic is "tours Martello".

- name of an inhabited place with one element following the
generic or joined by the particle "of"

Fortifications of Québec National Historic Site (Que.)
lieu historique national des Fortifications-de-Québec (Qc)
NOTE fortifications de Québec = Fortifications of Québec
Considered an historically inhabited fortified entity, it is spelled "Fortifications de Québec".
As "Québec" designates an historically and currently inhabited place, it must stay the same in English. If it referred to the province, the name would be of Pan-Canadian significance and would be spelled "Quebec" in EN.

*Fortress of Louisbourg National Historic Site (N.S.)
*lieu historique national de la Forteresse-de-Louisbourg (N.-É.)
NOTE forteresse de Louisbourg = Fortress of Louisbourg
Considered an historically inhabited fortified entity, it is spelled "Forteresse de Louisbourg".
"Louisbourg" is the name of an historically inhabited entity. The currently inhabited "Louisbourg" in the Gazetteer is located outside the historic complex, as you leave the peninsula on which the fortress is built.

Old Port of Québec Interpretation Centre (Que.)
centre d’interprétation du Vieux-Port-de-Québec (Qc)
NOTE Québec = name of an historically and currently inhabited place
le Vieux-Port de Québec = the Old Port of Québec (ward)
le vieux port de Québec = the old port of Québec (port)
The designation refers to the ward, not to the port.
The generics are: "interpretation centre" in EN and "centre d’interprétation" in FR.
- name of an inhabited place with two or more elements preceding the generic

Dawson City Buildings National Historic Site (Y.T.)
lieu historique national des Édifices-de-Dawson City (Yn)
NOTE Dawson City = name of an historically inhabited place
Dawson City Buildings = édifices de Dawson City
The buildings have taken the historic name of the present Dawson City, which is in the Gazetteer under Dawson [GAYUK, 1988, , 6];
thus "Dawson City" must stay the same in FR.

from the name of an uninhabited place 

EN  Bois Blanc Island Lighthouse National Historic Site (Ont.)  
*Fort No. 1 at Pointe de Lévy National Historic Site (Que.)  
Jasper Park Information Centre National Historic Site 
(Alta.)

The specific  
- is the name of a man-made building, structure,  
  facility or premises named after an uninhabited place,  
  where the name of the premises has an equivalent French form;  
- precedes the generic, without a connecting particle, and  
- is formed of a generic and specific combination, without a 
  hyphen, except where the spelling of a name or gazetteered 
  toponym must be followed.

The specific of the combination  
- is the name of an uninhabited place also formed of a  
  generic and a specific;  
- precedes the generic of the combination, without a  
  connecting particle, or  
- follows it, joined by the connecting particle "of" or  
  "at",  
  and  
- is formed of two or more elements, whether joined or not  
  by a hyphen or hyphens.
The generic of the combination
- is translated and
- each of its elements other than the articles and prepositions
- is capitalized.
The specific of the combination, itself formed of a generic and a
specific representing the name of an uninhabited place,
- first gives a French form to the toponym, with the translated
generic being capitalized and the specific staying the same,
as in the Gazetteer, with or without a hyphen between the
elements and retaining all its characteristic marks, sign of
the possessive, accents, diacritics and capitals, with the two
joined by a hyphen,
- then is joined to the generic by one of the connecting
particles "du", "de la", "de l'" or "des",
and
- the generic and the elements of the specific are joined by a
hyphen or hyphens.

The generic and specific combination
- then becomes the specific of the park/site/canal name and
- is joined to the generic by one of the connecting particles
"du", "de la", "de l'" or "des".

FIFTH CATEGORY

**Specific** = name of an historic event, or commemoration of a battle, place or activity related to history
(Bilingual name given by Parks Canada)

**EN**

5. (a) - name of a battle
Battle of Fish Creek National Historic Site (Sask.)
Battle of the Windmill National Historic Site (Ont.)

5. (b) - name of a place or activity related to history
Gold Room at Bear Creek National Historic Site (Y.T.)
Dredge No. 4 National Historic Site (Y.T.)

5. (c) - name of an exhibit
The Acadian Odyssey Exhibit (N.B.)
The Bank Fishery Exhibit – The Age of Sail (N.S.)

The specific
- recalls an historic event or commemorates a battle, a place or an activity related to history;
- it precedes the generic, without a connecting particle, and
- is formed of a generic and specific combination or a complex combination whose elements are not joined by hyphens unless the inclusion of one of them in the Gazetteer requires it.

**FR**

5. (a) - name of a battle
lieu historique national
de la Bataille-de-Fish Creek (Sask.)
lieu historique national
de la Bataille-du-Moulin-à-Vent (Ont.)

5. (b) - name of a place or activity related to history
lieu historique national
de la Salle-d’Affinage-de-l’Or-de-Bear Creek (Yn)
lieu historique national
de la Drague-Numéro-Quatre (Yn)

5. (c) - name of an exhibit
exposition L’Odyssee acadienne (N.-B.)
exposition La Pêche sur les bancs à l’ère de la voile (N.-È.)
The specific formed of a generic and specific combination
- is translated in its entirety;
the generic and specific of the combination
- are capitalized (except for the prepositions and articles),
- have their elements joined by a hyphen or hyphens, except
  for elements in the Gazetteer (name of an inhabited place or
  specific of an uninhabited place), and
- are joined to the generic of the toponym by one of the
  connecting particles "du", "de la", "de l’" or "des".

NOTE The names of inhabited entities and the specifics of
uninhabited places which are elements of them must be
rendered in accordance with the CUENGO rules, including
characteristics related to names of Pan-Canadian
significance. (PANCAN).
Toponyms of category 5. (a)

5. (a) Specific = name of a battle

**battle + name of an inhabited place**
Battle of Fish Creek National Historic Site (Sask.)
lieu historique national de la Bataille-de-Fish Creek (Sask.)
NOTE Fish Creek = historically inhabited place
Battle of Fish Creek = bataille de Fish Creek
The site is named after the battle near former premises. If the battle had occurred near "Fish Creek [GASAK,1985,,,32] = ruisseau Fish",
the name would have been "lieu historique national de la Bataille-du-Ruisseau-Fish".

**battle + name of a river**
*Battle of the Châteauguay National Historic Site (Que.)
*lieu historique national de la Bataille-de-la-Châteauguay (Qc)
NOTE FR rivière Châteauguay ou la Châteauguay
EN Châteauguay River or the Châteauguay
[CUENGO Rule 4.]
bataille de la Châteauguay = Battle of the Châteauguay

**battle + name of a river in the PANCAN list**
*Battle of the Restigouche National Historic Site (Que.)
*lieu historique national de la Bataille-de-la-Ristigouche (Qc)
NOTE FR rivière Ristigouche EN Restigouche River (PANCAN)
FR rivière Ristigouche ou la Ristigouche
EN Restigouche River or the Restigouche
[CUENGO Rule 4.]
bataille de la Ristigouche = Battle of the Restigouche

**battle + observed fact**
Battle of the Windmill National Historic Site (Ont.)
lieu historique national de la Bataille-du-Moulin-à-Vent (Ont.)
NOTE windmill = moulin à vent
Battle of the Windmill = bataille du Moulin-à-Vent
This site is not named after a gazetteered place, but after an observed fact; the specific is therefore translated.
Toponyms of category 5. (b)

5. (b) Specific = name of a place or activity related to history

**Fur trade**
*The Fur Trade at Lachine National Historic Site (Que.)*
*lieu historique national du Commerce-de-la-Fourrure-à-Lachine (Qc)*  
NOTE *commerce de la fourrure* = fur trade  
Lachine = name of an inhabited place

**Development and colonization**
*Waterloo Pioneers Memorial Tower (Ont.)*
*tour commémorative des Pionniers-de-Waterloo (Ont.)*  
NOTE pioneers = *pionniers*  
Waterloo = name of an inhabited place  
Waterloo Pioneers = *pionniers de Waterloo*  
Tower raised in memory of the pioneers of Waterloo.  
NOTE The generics are "memorial tower" in EN and "tour commémorative" in FR.

**Mines — Klondike gold deposits**
*Dredge No. 4 National Historic Site (Y.T.)*
*lieu historique national de la Drague-Numéro-Quatre (Yn)*  
NOTE Dredge No. 4 = *drague Numéro-Quatre*

**Oil — oil extraction in western Canada**
*First Oil Well in Western Canada National Historic Site (Alta.)*

NOTE gold room = *salle d'affinage de l'or*  
Bear Creek = inhabited place
Toponyms of category 5. (c)

5. (c) Specific = name of an exhibit

Exhibits: The names of exhibits are exempt from the generic-specific rule: the name of an exhibit states its theme, is not joined to the generic "exposition" by hyphens and may be used without being preceded by the generic. NOTE In the case of exhibits, the generics "exhibit" and "exposition" are not usually part of the official title of the exhibit.

The Acadian Odyssey Exhibit (N.B.)
exposition L'Odyssee acadienne (N.-B.)
NOTE The Secretariat of the Historic Sites Board asks that we use
- in the body of a text:
  "l'Odyssee acadienne", and
- on signs:
  "L'Odyssee acadienne".

The Bank Fishery Exhibit - The Age of Sail (N.S.)
exposition La Peche sur les bancs a l'ere de la voile (N.-E.)
NOTE The Secretariat of the Historic Sites Board asks that we use
- in the body of a text:
  "la Peche sur les bancs a l'ere de la voile", and
- on signs:
  "La Peche sur les bancs a l'ere de la voile".

The United Empire Loyalists Exhibit (N.S.)
exposition Les Loyalistes de l'Empire-Uni (N.-E.)
NOTE United Empire = Empire-Uni
Unofficial designations of an administrative reality of the time: the British Crown was the head of the British Empire and of the United Kingdom. When all the colonies of the Empire were referred to, the term "United Empire" was used. NOTE The Secretariat of the Historic Sites Board asks that we use
- in the body of a text:
  "les Loyalistes de l'Empire-Uni", and
- on signs:
  "Les Loyalistes de l'Empire-Uni".

STANDARD MESSAGES

The standard messages list has been created from the lists the regional offices gave us. It will serve to help establish quality messages in the parks and sites.

At headquarters, the Parks Canada Toponymy and Terminology Committee will manage the list, review and revise standard messages as required, and send revisions to the regional offices.

If any regional office thinks that the parks and sites should have their own copy of the list, it is the responsibility of the regional office to send the document to the parks and sites.

Use

This information is available in both official languages.

A) Categories

The standard messages are categorized. These categories can be found easily with the table of contents. Some of the standard messages can be found under more than one category.

B) Standard Messages

Under each category, the standard messages are listed in alphabetical order. Sometimes, due to different meanings, there is more than one version of the message, and the user must choose the one corresponding to that particular meaning.

C) Pictograms

The standard messages can sometimes be replaced by pictograms. Suggested pictograms appear under some messages. The abbreviations are:
